**PROJECT NUMBER: 120214
Scout/REECE Gunnery Complex
Florida Army National Guard, Camp Blanding Joint Training Center, Starke, Florida**

The State of Florida, Department of Military Affairs (DMA), Construction & Facility Management Office (CFMO) requests qualifications from qualified professional services firms for Architectural-Engineering (A/E) services for DESIGN/COMMISSIONING of the Scout/REECE Gunnery Complex to be located at Camp Blanding Joint Training Center, Starke, Florida.

POINT OF CONTACT (POC): Department of Military Affairs, Construction & Facility Management Office, Contract Management Branch (for forms and administrative assistance), 904-823-0255 or 0256, e-mail ng.fl.flarnng.list.ngfl-cfmo-contracting@mail.mil. Email requests for FNG Form 5112 in a Microsoft Word format may be sent to the above email address.

Request for private meetings by individual firms will not be granted. No individual verbal communication shall take place between any applicants and the Owners, or Owners' representatives. Request for any additional information, clarifications, or technical questions must be in writing, to the POC listed above.

Respondents to this solicitation or persons acting on their behalf may not contact, between the release of the solicitation and the end of the 72-hour period following the agency posting the notice of intended award, excluding Saturdays, Sundays, and state holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in writing to the procurement officer or as provided in the solicitation documents. Violation of this provision may be grounds for rejecting a response.

SERVICES TO BE PROVIDED: This Agency will contract with a single entity who shall provide all services per NGR 415-5, Architectural-Engineering Services for Site Investigation, Design, Bid Phase and Construction Administration, including but not necessarily limited to, topographical and utility survey(s), soils report, attendance at user design conferences to finalize the project design, prioritize project components/additive bid items, programming, schematic and preliminary designs, preconstruction services, constructability reviews, complete design and engineering services, life cycle cost analysis, construction bid documents and technical specifications, detailed line-item construction cost estimates, general storm water permit (acquisition of permit or modification), compilation of preliminary Department of Defense (DD) Form 1354 (NGB form format to be provided by Owner), and Construction Administration services required to provide a complete facility. The A/E will also need to provide technical assistance and

signed/sealed documents to aid the General Contractor to secure the required building permits and the Florida State Fire Marshal review permit.

EXECUTIVE PROJECT SUMMARY: Provide design services for a standard designed Scout/REECE Gunnery Complex at Camp Blanding Joint Training Center (CBJTC), Starke, Florida.

This project includes automated target systems (ATS) to train and test scout vehicle crews on the skills necessary to detect, identify, engage and defeat stationary / moving infantry and stationary / moving armor targets in a tactical array. The range will be designed with automated target systems (ATS) varying controlled and scored by computer in the control tower. This facility will be designed to meet Industrial Standards as well as local, of Florida, Federal building codes and as per Public Law 90-480 and 900-400. Design will include Scout/REECE firing points, range control tower, operations storage, ammo loading dock, ammo breakdown, latrine, bleacher enclosure, covered mess, trench obstacles, AAR/small, bivouac area, unit staging area, all targets, sustainability/energy measures, parking, fencing, walks, flags and barriers, signs, all utility services, information systems, site improvements, erosion control and drainage, security lighting and anti-terrorism/force protection. Facilities will be designed to a minimum life of 50 years and energy efficiencies meeting, on average, American Society of Heating, Refrigeration and Air-conditioning Engineers (ASHRAE) 189.1 standards through improved building envelope and integrated building systems performance. Access for individuals with disabilities will be provided. Antiterrorism Measures are to be included in accordance with the DOD Minimum Antiterrorism for building standards will be provided.

Camp Blanding Joint Training Center is a 72,000-acre Maneuver Training Center. Camp Blanding is centrally located in Florida, and has the capacity to receive units by air, rail, or roadway. The electrical, sewage, water, telecommunication, and transportation infrastructure can support the addition of the Scout/REECE Gunnery Complex. The Scout/REECE consists of a two lane course road. It will include audio/video capture instrumentation, three-dimensional precision targetry and a large interactive command / control / AAR facility.

Building Criteria requirements:

The criteria which will be used for construction is the Training Circular (TC)25-8, Training Ranges; TC 90-1, Urban Operations; and the Huntsville Design Manual (COE)HNDM-1110-1-23.

EXCEPTIONS TO CRITERIA:

Incorporation of a standard Camp Blanding latrine design. This will provide added value to training by the reduction of training time lost to using units' maintenance of the facility and the provision of potable water availability.

Operations/Storage Building to be increased to 2600 sf to provide a remote operations and maintenance facility to serve multiple ranges in this training area. It is approximately 40 min drive to cantonment area. This will help minimize maintenance man-hours, range support time gas and

vehicle wear.

Partially covered Ammo Loading Dock to protect soldiers from extreme heat and rainfall. The avg high temperatures exceed 90 degrees F during June through August time period. Camp Blanding received approximately 20" of rain during that time period. Camp Blanding responded to 130 medical heat casualties in 2009 alone.

Overflow parking area for civilian vehicle parking. Personnel travelling to the range in Privately Owned Vehicles (POV) are not authorized to park in the main range complex or on the range complex side of the road.

Enlarged Target Operations and Storage Building (2600 s.f.) to accommodate larger targetry associated with a Scout/REECE Gunnery Range.

Design Criteria:

Florida Building Code (FBC); latest version at the time the design contract is awarded. Applicable Local Building Code. The National Fire Protection Association (NFPA); 2009 Unified Facilities Criteria (UFC) 4-010-01 "DOD Minimum Antiterrorism Standards for Buildings"; October 2003, including Change 1, January 2007. NG Pam 415-12, Army National Guard: Facilities Allowance, April 2007. NG Pam 415-5, Army National Guard: Military Construction Program Development and Execution, July 2003. DG 415-5, Army National Guard: General Appendices; August 2007. CEHNC 1110-23: U.S Army Corp of Engineers Design Guide for Sustainable Range Program

ALSO TO BE INCLUDED AS LINE ITEMS IN PROJECT PROPOSAL FROM SELECTED FIRM:

- Deliverables for permitting and construction to include 4 (four) sets of drawings signed and sealed and 6 (six) sets of unsigned.
- Bid Phase Services
- Construction Administration Services (listed as an option on A/E's proposal)
- Blanket Professional Design Liability insurance will be required for this project and will be provided as a part of the services.
- Regulatory permitting to include the preparation, submittal, payment and review coordination of the Water Management District, Environmental Resource Permit (including permit fees), Florida Department of Environmental Protection (FDEP) Notice of Intent (including filing fees), County Review Permit Fee, Fire Marshall Review Fee and any other permits and fees required by other county, local or state authorities
- Clay County Review Permit Fee and any other permits and fees requires by other county, local or state authorities.
- Commissioning Services

NOTE: Designs must meet current Florida Building Codes and ADA requirements. All structures will be engineered to meet applicable wind load requirements for the area. Unified Facilities

Criteria (UFC) DoD Minimum Antiterrorism Standards for Buildings UFC 4-010-01 (8 OCT 2003) requirements will also have to be met.

SELECTION INFORMATION: Selection of applicants for consideration will be made on the basis of relative design experience of the firm and their ability to perform based on, but not limited to, the information submitted on FNG Form 5112 for licensed and/or professional personnel; professional services qualifications, financial capability, recent, current, and projected workloads of the Professional Services firm and location of office in relation to project site. The qualifications packages will be reviewed and three semi-finalists will be interviewed to determine the best qualified firm for this project. The three semi-finalists may or may not be required to make oral presentations (in person or by telephone conference) and the selection committee may reject all submissions and stop the selection process at any time. Additional requirements and information may be provided to short-listed firms at the Mandatory Site Visit (if required). Order of Negotiations for the selected shortlisted firms will be made on the basis of past performance references, knowledge of site and local conditions, proposed project staff, ability to meet budget, ability to meet project schedule, understanding program, requirements, approach, and methodology.

CONTINGENCY STATEMENT: "The Architect (or registered land surveyor or professional engineer, as applicable) warrants that he has not employed or retained any company or person, other than a bona fide employee working solely for the architect (or registered land surveyor or professional engineer, as applicable) to solicit or secure this agreement and that he has not paid or agreed to pay any person, company, corporation, individual or firm other than a bona fide employee working solely for the architect (or registered land surveyor or professional engineer, as applicable) any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this provision, the Owner shall have the right to terminate this Agreement without liability and, at his discretion, to deduct from the Basic Services Compensation, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration."

CONTRACT AWARD: The short list for interviews and the final order of negotiations with the short listed firms will be posted on the MyFlorida website http://vbs.dms.state.fl.us/vbs/main_menu. Failure to file a protest within the time prescribed in Section 120.57(3), Florida Statutes, shall constitute a waiver of proceedings under Chapter 120, Florida Statutes. If no protest is filed, a contract will be negotiated with the firm which the Agency considers the most qualified for the intended project. If an agreement for compensation which the Agency determines is fair, competitive, and reasonable cannot be reached and the Agency is unable to negotiate a satisfactory contract, negotiations will be formally ceased and negotiations shall be undertaken with the firm the Agency has determined is the second most qualified after Departmental review of the submissions.

The DMA reserves the right to accept or reject any or all proposals received and reserves the right to make an award with or without further discussion of the proposals submitted or accept minor informalities or irregularities in the best interest of the State of Florida, which are considered a matter of form and not substance, and the correction or waiver of which is not prejudicial to other Proposers. Minor irregularities are defined as those that will not have an adverse effect on the Department's interest and will not affect the price of the proposal by giving a Proposer an advantage or benefit not enjoyed by all other proposers. It is understood the proposal will become a part of the Departments'

file, without obligation to the Department. Proposals may be rejected if found to be irregular or not in conformance with the requirements and instructions contained herein. A proposal may be found to be irregular or non-responsive by reasons that include, but are not limited to failure to utilize or complete in their entirety prescribed forms, conditional proposals, and improper, missing and/or undated signatures.

TENTATIVE SCHEDULE:
