Commodity or Service Required (commodity class and group, manufacturer, model, and description, as appropriate): 81141504 Equipment test calibration or repair
78121602 Weighing services

Requestor (division, bureau, office, individual, as appropriate): Bryan Hubbard - Motor Carrier Size and Weights

Performance and/or Design Requirements (intended use, function or application, compatibility etc. requirements; reference to policy, rule, statute or other act of the Legislature, etc., as appropriate): During a recent inspection of the Southbound Wildwood Weigh Station scales, on Interstate 75, some notable deficiencies were identified. The piers which support the scale deck are beginning to show signs of deterioration which is causing concerns for the safety of vehicles entering and exiting the scales. This deterioration is also causing scale accuracy issues resulting in more frequent calibrations and maintenance. Because of the noticeable defeciciencies the Department needs to take swift action to address the issue before substantial damage to the scale pits and/or a commerical vehicle occurs.

Intended source (vendor, contractor): Mettler Toledo

Price: \$805,600.00

Justification for single source acquisition (what is necessary and unique about the product, service or source; steps taken to confirm unavailability of competition, as appropriate): During a recent preventative maintenance check, at the Wildwood Weigh Station, issues were identified with the existing piers, sidewalls and end walls. As a result, the entire scale deck will require removal to correct the deficiencies. With the scale taken down this far some additional work has been added to the project to update the scales to current standards. The existing computer systems, that presently run the scales, is a Mettler Toledo proprietary system and the Department is not planning on replacing any of these components. Mettler Toledo holds the copyrights to software and systems that they installed approximately 25 years ago and do not have any resellers.

Approved By (names & titles, as appropriate to Post on Vendor Bid System (VBS), e.g., requestor, requestor management, information systems, budget, purchasing, DMS approver)
