Drug Name		X	20					
Test Method		X	5					
Filler		X	12					
Test Method Confirm		X	5					
Filler		X	9					
Drug Test Result		X	1					
Filler		X	5					

Each detail record will provide the result of a single drug test for a single offender. All such detail records for a given offender must be grouped under a single Offender record for that offender. Each batch of one Offender record and one or more Detail records must be bound by a Header record stating "BEGIN DATA FILE" as the first record and a Trailer record stating "END DATA FILE" as the last record. See attachment C for an example of the file.

Addendum #4
