The undersigned, hereinafter called "Bidder", having visited the site of the proposed project and familiarized himself with the local conditions, nature and extent of the work, and having examined carefully any drawings or specifications, the Form of Agreement, and other Contract Documents with the Bond Requirements therein, proposes to furnish all labor, materials, equipment and other items, facilities, and services for the proper execution and completion of Name and Address of Project, Solicitation No., in full accordance with any drawings and specifications prepared by the firm of Name and Address of the Architect-Engineer, in full accordance with the advertisement for bids, Instruction to Bidders, Agreement and all other documents relating thereto on file in the office of the Architect-Engineer and if awarded the contract, to complete the said work within the time limits specified for the following bid price:

Total Bid – Landscape Installation:

1. Provide and install all materials, labor, supervision, equipment, and all accoutrements as indicated in the attached permitted drawings for a turn-key complete landscape installation.
2. Work to include but not limited to minor fine grading to create planting areas, to establish smooth finish on existing adjacent grades and to promote storm water from eroding new planting areas.
3. Provide initial watering of all plants and install 2" of shredded eucalyptus mulch in all planting areas. (Plans show cypress mulch. Quote eucalyptus mulch.)
4. Install 13,400 sf of Argentine Baha sod on 45 islands and provide initial one-time watering.

Watering and Warranty

Watering:

Hand-water newly installed plants using suitable water tanks and spray vehicles / gear to provide irrigation water during an establishment period of (3) months ((44) cycles) per the following water schedule. Several ponds and a suction point for fire engines are on site where contractor may fill water trucks. Limited potable water is available on site.

Watering and maintenance include plant material planted in this scope, as well as Royal Palms and Red Tip Cocoplum previously planted on site. Additional plant material includes (28) Royal Palms at the entrance of the facility, and hedge rows of (98) Red Tip Cocoplum (*Chrysobakanus icaco*) along existing rifle and pistol ranges.

Water Schedule:

- Week one through week four – average ½” water per plant every day including weekends.
- Week five through week eight – average ½” water per plant Monday, Wednesday, and Friday.
- Week nine through week twelve – average ¾” water per plant every Monday.
- Should the area receive natural rainfall in excess of ½”, the remaining schedule will be moved forward to the next watering cycle. Total number of contractor hand watering cycles shall remain the same (44 cycles).
- In addition to the initial (44) watering cycles noted above, contractor shall also include (10) hand watering cycles of ¾” water per plant to be used at the discretion of the landscape architect and/or contractor over the next nine months should plant material begin to show signs of wilting.

Warranty:

Contractor shall provide a (1) year warranty provided on contractor’s letterhead for all plant material installed in this contract. Condition of plant material to be assessed during maintenance visits. Any failed plant material is to be replaced within two weeks. Material that fails due to acts of nature or construction damage from other contractor’s negligence shall be exempted from this warranty.
