Unless otherwise provided for in the Contract Documents, any and all equipment, products or materials necessary or appropriate to perform under this Contract shall be supplied by the Contractor. Contractor shall obtain all necessary local, state, and federal authorizations necessary to complete this project, and the Contractor shall be licensed as necessary to perform under this Contract as may be required by law, rule, or regulation: the Contractor shall provide evidence of such compliance to the Commission upon request. The Contractor shall procure all supplies and pay all charges, fees, taxes and incidentals that may be required for the completion of this Contract. By acceptance of this Contract, the Contractor warrants that it has the capability in all respects totally perform the requirements and the integrity and reliability that will assure good-faith performance as a responsible Contractor. Contractor shall immediately notify the Commission’s Contract Manager in writing if its ability to perform under the Contract is compromised in any manner during the term of the Contract. The Commission shall take appropriate action, including potential termination of this Contract in the event Contractor’s ability to perform under this Contract becomes compromised.

**Contractor Responsibilities.** Contractor agrees that all Contractor employees, subcontractors, or agents performing work under the Contract shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Contractor shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under the Contract must comply with all security and administrative requirements of the Commission. The Commission may conduct, and Contractor shall cooperate in, a security background check or otherwise assess any employee, subcontractor, or agent furnished by Contractor. The Commission may refuse access to, or require replacement of, any personnel for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with the Commission’s security or other requirements. Such refusal shall not relieve Contractor of its obligation to perform all work in compliance with the Contract. The Commission may reject and bar from any facility for cause any of Contractor’s employees, subcontractors, or agents.

**Commission Rights to Assign or Transfer.** Contractor agrees that the State of Florida shall at all times be entitled to assign or transfer its rights, duties, or obligations under this Contract to another governmental agency in the State of Florida, upon giving prior written notice to Contractor.

COMMITMENT OF FUNDS
The State of Florida’s performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature. The Parties hereto understand that this Contract and any renewal thereof is not a commitment to future appropriations but is subject to appropriation and authority to spend provided by the Legislature. The Commission shall be the final authority as to the availability of funds for this Contract, and as to what constitutes an “annual appropriation” of funds to complete this Contract. If such funds are not appropriated or available for the Contract purpose, such event will not constitute a default on behalf of the Commission or the State. The Commission’s Contract Manager shall notify Contractor in writing at the earliest possible time if funds are not appropriated or available.

AUTHORIZED COMPENSATION
It is understood and agreed that all compensation under this bid is specifically limited to the Contractor’s bid price accepted by the Commission, and to the specific procedure for payment established in this bid and the Purchase Order executed pursuant to it. The Commission is not liable for any costs, fees, expenses or any other compensation whatsoever incurred or charged by the Contractor, other than the bid price paid for the work specifically described in the Contract Documents, which work is actually accomplished and invoiced by the Contractor subsequent to the Commission’s notice to proceed (or other notice to begin work). Thus the Commission is not liable for any costs incurred or charged by the Contractor in anticipation of responding to, or performing work described in, this bid, including but not limited to equipment or personnel procured by the Contractor in anticipation of such work. The Commission is not responsible to the Contractor for any loss or damages resulting from circumstances unforeseen at the time of publication of this bid including, but not limited to, those resulting from a “force majeure”.

possession of the Contractor or keep and maintain public records required by the Commission to perform the service. If the Contractor transfers all public records to the Commission upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the Commission, upon request from the Commission’s custodian of public records, in a format that is compatible with the information technology systems of the Commission.

**COOPERATION WITH INSPECTOR GENERAL**
Pursuant to subsection 20.055(5), F.S., Contractor, and any subcontractor to the Contractor, understand and will comply with their duty to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Inspector General or any other authorized State official, the Contractor shall provide any type of information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Agreement. The Contractor agrees to reimburse the State for the reasonable costs incurred by the Inspector General or other authorized State official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State which results in the suspension or debarment of the Contractor. Such costs shall include but shall not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees.

**RECORD KEEPING REQUIREMENTS**

**Contractor Responsibilities.** The Contractor shall maintain accurate books, records, documents and other evidence that sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this Contract, in accordance with generally accepted accounting principles.

**State Access to Contractor Books, Documents, Papers, and Records.** The Contractor shall allow the Commission, the Chief Financial Officer of the State of Florida, the Auditor General of the State of Florida, the Florida Office of Program Policy Analysis and Government Accountability or authorized representatives of the state or federal government to have access to any of Contractor's books, documents, papers, and records, including electronic storage media, as they may relate to this Contract, for the purposes of conducting audits or examinations or making excerpts or transcriptions.

**Contractor Records Retention.** Unless otherwise specified in the Contract Documents, these records shall be maintained for ten (10) fiscal years following the close of this Contract, or the period required for this particular type of project by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/), whichever is longer. Contractor shall cooperate with the Commission to facilitate the duplication and transfer of such records upon the Commission’s request.

**Contractor Responsibility to Include Records Requirements – Subcontractors.** In the event any work is subcontracted under this Contract, Contractor shall include the aforementioned audit and record keeping requirements in all subcontract agreements.

**Compliance with Federal Funding Accountability and Transparency.** Any federal funds awarded under this Contract must comply with the Federal Funding Accountability and Transparency Act (FFATA) of 2006. The intent of the FFATA is to empower every American with the ability to hold the government accountable for each spending decision. The result is to reduce wasteful spending in the government. The FFATA legislation requires that information on federal awards (federal financial assistance and expenditures) be made available to the public via a single, searchable website: www.USASpending.gov. Grant recipients awarded a new Federal grant greater than or equal to $25,000 awarded on or after October 1, 2010 are subject to the FFATA. Contractor agrees to provide the information necessary, over the life of
this Contract, for the Commission to comply with this requirement.

**INDEMNIFICATION.**
If Contractor is a state agency or subdivision, as defined in Subsection 768.28(2), F.S., pursuant to Subsection 768.28(19), F.S., neither Party indemnifies nor insures the other Party for the other’s negligence. If Contractor is not a state agency or subdivision as defined above, Contractor shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless the State and the Commission, and their officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorneys’ fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by the Contractor, its agents, employees, partners, or subcontractors, provided, however, that Contractor shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of the State or the Commission. This agreement does not constitute a waiver of sovereign immunity or consent by the agency for the state of Florida or its subdivisions to suit by third parties. If this is a Professional Services contract as defined in Subsection 725.08 F.S., then notwithstanding the provisions of Subsection 725.06 F.S., the design professional shall only be liable for, and fully indemnify, defend, and hold harmless the State, the Commission, and their officers, agents, and employees, for actions caused in whole or in part, by the negligence, recklessness, or intentionally wrongful conduct of the design professional and other persons employed or utilized by the design professional in the performance of the contract.

**CONFIDENTIALITY/PUBLIC RECORDS LAW**
Bidders are cautioned that Florida law generously defines what constitutes a public record and grants broad rights of public access to those records: see, for example, section 119.07 of the Florida Statutes. If a Bidder believes that its response contains information that is confidential or exempt from disclosure under Florida Law, the Bidder shall clearly segregate and mark that information (for example, stamp each page "Confidential" and place it in an envelope marked "Confidential") and briefly describe in writing the grounds and specific legal citations for claiming exemption from the public records law. If after the notice of intended decision or 30 days after bid opening, whichever is earlier, the Commission receives a public records request related to the solicitation, the Commission will provide copies of public records that are not exempt to the requester. The Commission will endeavor to provide notice to the Bidder of all public records requests received related to documents provided by the Bidder that were marked pursuant to this paragraph. In no event shall the Bidder hold the Commission or any of its employees or agents liable for disclosing, or otherwise failing to protect the confidentiality of, information submitted in response to this solicitation.

**SECURITY AND CONFIDENTIALITY**
The Contractor shall maintain the security of any information created under this Contract that is identified or defined as “confidential” in the Contract Documents. The Contractor shall not divulge to third parties any confidential information obtained by the Contractor or its agents, distributors, resellers, subcontractors, officers or employees in the course of performing Contract work. To ensure confidentiality, the Contractor shall take appropriate steps regarding its personnel, agents, and subcontractors. The warranties of this paragraph shall survive the Contract.

**SEVERABILITY AND CHOICE OF VENUE**
This Contract has been delivered in the State of Florida and shall be construed in accordance with the laws of Florida. Wherever possible, each provision of this Contract shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Contract shall be prohibited or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Contract. Any action in connection herewith, in law or equity, shall be brought in Leon County, Florida.

**JURY TRIAL WAIVER**
As consideration of this Contract, the parties hereby waive trial by jury in any action or proceeding brought by any party against any other party pertaining to any matter whatsoever arising out of or in any
way connected with this Contract.

11. Project includes constructing a single covered 5-stand, 15 covered sporting clays stands, installing 36” drainpipe, clearing and grading, completing gravel parking spots, and constructing concrete ADA parking lots on one parcel in Palm Beach County, FL. This project utilizes some permits that are project wide (SFWMD, Environmental, Palm Beach County Planning). Contractor will be responsible for all local (Palm Beach County, etc.) construction permits and temporary utilities if required. Potable water is available in limited quantities from an on-site well.

12. CONSTRUCTION OF ONE (1) 5-STAND AND 15 SPORTING CLAYS STANDS (12-Standard: 3 Elevated Shooting Platforms). These areas are shown as a light green hatch. This effort will include clearing and removing all exotic invasive plant material from these areas, and re-grading the Sporting Clays course as shown on drawing FR10 & FR11. The wetland area in the northeast corner of the property shall be rough graded so that it forms a shallow depression +/- 12” deep. The wetlands area will be replanted by owner. NOTE: Currently, burning is not permitted by contractors for the FWC, therefore the selected contractor must haul debris off site to be disposed of.
