

**STATE OF FLORIDA  
DEPARTMENT OF CHILDREN AND FAMILIES**

**REQUEST FOR INFORMATION  
RFI092319JAMS1  
  
FOR  
COMMUNICATION SYSTEM FOR  
IDENTIFIED NEEDS**

**DATE: September 23, 2019**

**I. INTRODUCTION**

The Department of Children and Families (Department) is issuing this Request for Information (RFI) to Florida’s vendor community to obtain the latest information available on technologies that provide a method to expedite the facilitation of meeting identified needs for children and families in crisis and caregivers who provide support during times of crisis.

This is an RFI as defined in ss. 287.012(22), Florida Statutes (F.S.), for planning purposes only. This is not a solicitation for offers. The information gathered from this RFI may be used to develop a future competitive solicitation. Please monitor the Vendor Bid System for any changes or notices prior to submitting a response.

**II. PURPOSE OF AN RFI**

Rule 60A-1.042, Florida Administrative Code (F.A.C.), provides that an agency may request information by issuing a written RFI. Agencies are authorized to use an RFI in circumstances including, but not limited to, determining whether to competitively procure a commodity or contractual services, determining what solicitation process to use for a particular need, or researching general, special, and/or technical specifications for a solicitation. A vendor’s response to an RFI is not an offer and the agency may not use the vendor’s submission to justify a contract with that vendor without otherwise complying with Chapter 287, F.S., and Rule 60A-1.042, F.A.C. Vendors submitting a response to an agency’s RFI are not prohibited from responding to any related subsequent solicitation.

Any future purchase of the services will be conducted in accordance with Chapter 287, F.S. The Department may use responses to this RFI to prepare one (1) or more competitive solicitations and as the basis for any subsequent vendor meetings.

**III. BACKGROUND**

Under s. 20.19, F.S., the Department is charged with ensuring the safety, permanency, and well being of children in the State of Florida. Children need to grow up in a safe and permanent home, where they are free from abuse, neglect, and other forms of maltreatment by their caregivers. The Department must assure the safety and welfare of vulnerable children as a primary priority. The Department must also attempt to strengthen and support the child’s family. According to federal and state laws, the health and safety of the child must be paramount in all service, placement, and permanency decisions made.

Additionally, s. 39.001, F.S., requires the Department to provide for the care, safety, and protection of children in an environment that fosters healthy social emotional, intellectual, and physical development; to ensure secure and safe custody; to promote the health and well-being of all children in the state’s care; and to prevent the occurrence of child abuse, neglect, and abandonment.

**IV. GOAL**

The Department intends through this RFI to obtain the latest information available on technologies that can help the Department meet its goals of becoming a prevention-focused agency by increasing pre-crisis contacts through referrals to community services and face-to-face services. Additionally, the Department seeks to reduce re-entry into our system of care by reducing recidivism, measuring how effective our services are twelve (12) months after contact with a family, and holding ourselves accountable to ensuring they are receiving quality care.

To help achieve these goals, the Department is interested in solutions that will assist in reducing the impact of a crisis on a family, resulting in family stability, and ultimately reducing the need for children to be placed outside their home. In circumstances where removal from a home is unavoidable, these technologies will also be leveraged to provide support for caregivers who have stepped in as placements for the children entering out of home care.

For this RFI, the Department is seeking the latest information available on commercial off-the-shelf technologies that provide a means of expediting the facilitation of meeting identified needs for children and families in crisis and caregivers who provide support during times of crisis. The system should be capable of communicating needs of children and families in crisis or caregivers, identified by child protective investigators or case managers, to entities and individuals in local communities, to facilitate the service of the identified need.
