

ADDENDUM No. 1

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION
DEP Procurement Section
3800 Commonwealth Boulevard, MS#93
Tallahassee, Florida 32399-3000

June 4, 2019

**Addendum To: DEP Solicitation No. 2019012, entitled
“Stabilize and Restore Seagrass Habitat at Lignumvitae Key Botanical State Park”**

The Department hereby answers questions posed by prospective Vendors. This addendum does not need to be returned with the bid. The Department hereby answers the following questions:

Question #	Solicitation Section	Solicitation Page #	Question / Answer
1.	N/A	N/A	Can you post the pre-bid meeting sign-in sheet showing contact info for the people who attended? <i>Answer #1: Attached</i>
2.	N/A	N/A	Do you have an estimate of the acreage and/or volume of work anticipated under this contract? <i>Answer #2: It is not possible to estimate the amount of fill or the estimated acreage for this five-year contract because it is dependent upon how much funding we are able to secure. Since 2005, the annual amount of funding has fluctuated, and the amount of funding per project also determines which site and or sites we are able to restore.</i>
3.	N/A	N/A	Can you relax the requirement that the same client may not be listed for more than one reference? That requirement eliminates responses from firms that perform a significant amount of this work throughout the state but for limited clientele. <i>Answer #3: No.</i>
4.	N/A	N/A	What is the Department’s preliminary estimate of the work? <i>Answer #4: Please see the response to Question #2. The same applies for this question.</i>
5.	3.12	Page #17	Does the awarded vendor need to have a Florida General or Marine Contractors license to complete the work? <i>Answer #5: The awarded vendor must have a Marine Contractors license.</i>

6.	3.12	Page #17	<p>Are certified commercial divers necessary for under water work activities if SCUBA is necessary?</p> <p><i>Answer #6: None of the restoration work to be conducted in LVKSLMA will require the contractor to utilize SCUBA.</i></p>
7.	4.04 D	Page #19	<p>Can vessels be stored within designated staging area or other predetermined location within the park?</p> <p><i>Answer #7: Storing vessels at land base is an option, but this will depend upon the length of time the vessel or vessels will need to be stored and the length of the vessel or vessels.</i></p>
