3. Evaluation Methodology. The Department will appoint 3 or more persons to evaluate the Replies who collectively have experience and knowledge in the program areas and space requirements for the built-out office facilities and related infrastructure being sought by this solicitation. The Department reserves the right to change the evaluators in its sole discretion upon posting the change on the VBS Web Site.

The Department's evaluators will evaluate Criteria 3-10 of each Reply, total the scores of each criterion to calculate each **Offer's Total Score for Criteria 3-10**, and forward their evaluation sheets to the Department's Official Contact Person. The Department's Official Contact Person or his or her designee will calculate the scores for Criterion 1-2 and 3-10 of each Reply and total the scores of each criterion to calculate each **Offer's Total Score for Criteria 1-2, and 3-10**.

The Department's Official Contact Person will average the total of all evaluators' Total Scores for Criteria 1-11 for each Offeror, yielding that Offeror's **Average Score for Criteria 1-10**. The Department's Official Contact Person will add each Offeror's Average Score for Criteria 6-8 and each Offeror's Total Score for Criteria 1-10 yielding the **Offeror's Average Total Score**.

4. Debriefing Meeting. Following completion of the independent evaluations of the replies, the Department's Official Contact Person or his or her designee will hold a debriefing meeting with the evaluation team. The purpose of the meeting is to ensure that all evaluators have generally used the same information from the Offerors' replies as the foundation for their scoring, and that there have been no misunderstandings regarding the meaning of any evaluation criteria. Once scores are given to the Department's Official Contact Person, they may not be altered in any way, except to reconcile mathematical errors

5. Ranking and Short Listing. The Department's Official Contact Person will rank the Replies from highest to lowest based on the Average Total Score of each Offeror. This ranking will serve as the recommended ranking of the Replies by the Department's evaluators. The Department's Official Contact Person will report the recommended ranking to the Department's Regional Director for the Department's Region in which the space being solicited by this ITN is located (**the "RD"**) or his/her designee, along with a recommended selection, based on the recommended ranking of the Replies, of the Offerors with which to commence negotiations. The Department's Official Contact Person will also provide the RD with a report on Replies deemed nonresponsive, which may include a recommendation that one or more otherwise responsive Replies be deemed ineligible for award due to the qualifications of the Offeror or the quality of the Reply.

The RD or his/her designee may accept the recommended ranking of the Replies by the Department's evaluators, in which case no scoring of the Replies by the RD or his/her designee will be required, or rescore and re-rank the Replies based upon the criteria set forth in **Section V.B.2**. The RD or his/her designee shall then select, based on the ranking of the Replies as recommended by the Department's evaluators or as re-ranked by the RD or his/her designee, one or more Offerors (**the short list**) with which to commence negotiations. The RD or his/her designee will also make a determination as to whether to deem one or more respondents ineligible for award due to the qualifications of the Offeror or the quality of the Reply. Upon the selection of the short list of Offerors with which to commence negotiations by the RD or his/her designee, the Department will post the ranking of the Replies and the short list on the VBS Web Site.

6. Negotiation Process for Final Selection The Department intends to initially negotiate with **all** of the highest-ranked Offers in accordance with the ranking and the short list approved by the RD or his/her designee. The focus of the negotiations will be on achieving the solution that provides the best value to the State. The negotiations may be conducted serially by order of ranking or concurrently with all short listed Offerors. However, the Department reserves the right, after posting notice thereof, to expand the short list to include additional responsive Offerors for negotiation or change the method of negotiation [e.g., concurrent versus by order of ranking], if it determines that to do either would be in the best interest of the State.

The Department reserves the right to require shortlisted Offerors to submit a supplemental reply or other submission prior to conducting negotiations. Notice of such requirement will be posted on the VBS Web Site.

The negotiation process is intended to enable the Department to determine whether and with whom it will contract and to establish the principal terms and conditions of such contract. There will be additional negotiations to finalize all terms and conditions of the contract after a notice of selection is posted.

After the initial negotiation session with the selected short-listed Offeror(s), in its sole discretion the Department shall determine whether to hold additional negotiation sessions and with which Offeror(s) it will negotiate. The Department reserves the right at any time after the initial negotiating session to:

- a. Negotiate with all responsive and responsible Offerors, serially or concurrently, to determine the best-suited solution. The ranking of Replies indicates the perceived overall benefits of the proposed solution, but after the initial negotiating session with the short-listed Offeror(s) the Agency/Tenant Broker retains the discretion to negotiate with other qualified Offerors as deemed appropriate.
- b. Schedule additional negotiating sessions with any or all responsive Offerors;
- c. Require any or all responsive Offerors to provide additional or revised detailed written proposals addressing specified topics;

- l. Negotiate concurrently or separately with competing Offerors.
- m. Decline to conduct further negotiations with any Offeror;

- q. Review and rely on relevant portions of the evaluations conducted pursuant to this ITN; and
- r. After posting notice thereof, to withdraw or amend its Notice of Award and reopen discussions with any Offeror at any time prior to execution of a contract.

The Department also reserves the right to withdraw this ITN at any time, including after an award is made, when to do so would be in the best interest of the State of Florida, and by doing so assumes no liability to any Offeror.

The Department reserves all rights described elsewhere in this ITN. The Department has sole discretion in deciding whether and when to take any of the foregoing actions, the scope and manner of such actions, the responsive Offeror or Offerors affected and whether to provide concurrent public notice of such decision.

Negotiations between the Department and Offerors are exempted from the public meetings requirements of s. 286.001, F.S., and s. 24(b) of Article 1 of the State Constitution by s. 286.0113(2)(b)1, F.S. The initial organizational meeting of the negotiation team (if held) and the final meeting of the negotiation team to develop a recommendation for award are open to the public. Negotiation strategy meetings of the Department's negotiation team are exempted by s. 286.0113(2)(b)2, F.S. The Department will record all meetings of the Department's negotiation team.

Exempted negotiations and Offerors' presentations to the Department's negotiating team will be recorded. Any discussions between or among any members of the Department's negotiating team about this ITN, any Reply, or any offer will be recorded. Except for discussions and communications between the Department's lead negotiator and an Offeror's lead negotiator, all discussions or communications between the Department's negotiating team and an Offeror's negotiating team must include all members of both teams.

The Department's negotiating team will develop a recommendation as to the award that will provide the best leasing value to the State based on the selection criteria specified in **Section V.B.2**. In so doing, the negotiation team is not required to score the Offerors, but will base its recommendation on the criteria specified in **Section V.B.2**. The recommended award of the negotiation team shall serve as a recommendation only.

8. The RD's Approval. The RD or her/his designee will approve an award that will provide the best leasing value to the State, based on the criteria in **Section V.B.2**, taking into consideration the recommended award by the negotiating team. In so doing, the RD or his/her designee is not required to score the Offerors, but will base his or her recommendation on the criteria set forth above. If the RD or his or her designee determines that two or more Replies most advantageous to the State are equal with respect to all relevant considerations, including price, quality, and service, the award will be made in accordance with Rule 60A-1.011, Florida Administrative Code and Section 295.187, Florida Statutes.

9. Posting Notice of Award. The Department will post a Notice of Intent to Award Lease, stating its intent to enter into one (1) or more leases with the Offeror or Offerors identified therein, on the VBS Web Site.

State Fire Marshal

DIVISION OF STATE FIRE MARSHAL

Plans Review Fees, Procedures and Requirements

The plans for all construction of any new state owned or state lease building and renovation or alteration of any existing state owned or state leased building are subject to review and approval of the Division of State Fire Marshal for compliance with the Uniform Fire Safety Standards prior to commencement of construction or change of occupancy. The Division of State Fire Marshal may inspect state owned and state leased spaces as necessary prior to occupancy or during construction, renovation, or alteration to ascertain compliance with the uniform fire safety standards as per Florida Statutes 633.085 and 69A-52, Florida Administrative Code.

69A-3.009 (12) , FAC, defines a state owned building as:

(a) “State-owned building,” as used in Chapter 633, F.S., and any rule adopted by the State Fire Marshal, except as provided in paragraph (b) of this subsection, means any structure used or intended for supporting or sheltering any use or occupancy of which the state, any state agency or department, or the Trustees of the Internal Improvement Trust Fund is the record owner of the legal title to such structure.

(b) “State-owned building” does not mean or include a pole barn, a picnic shelter, a lift station, an animal pen, an animal feeder, a pump house, a one-family private residence, a two-family private residence, a forestry fire tower or other fire tower, a radio tower, a building no longer in use, an empty building, or a greenhouse.

DESIGN CRITERIA:

The Life Safety portion of the plans shall be designed in accordance with the National Fire Protection Association (NFPA) 101, Life Safety Code; NFPA 1, Fire Prevention Code; and adopted NFPA Standards. See Florida Administrative Code 69A-3.012 for the adopted edition of NFPA 101 & 1 and a list of adopted NFPA Standards.

(<https://www.flrules.org/>)

PLANS REVIEW FEES:

The fee for plans review is determined by multiplying the estimated construction/ renovation cost of the building, by the constant 0.0025. The minimum fee is \$100.00. This does not include the cost of the land, site improvements, civil work or furniture & equipment.

Example:

\$1,000,000.00 Construction Cost x .0025 = 2,500.00 Fee

METHOD OF PAYMENT

After plans are received an invoice will be prepared and sent at which time payment can be made by personal check, money order or, if a state agency is paying, a Samas – Journal Transfer. Please make check or money order payable to the Department of Financial Services. Fill in the memo portion with “SFM Plans Review fee” and return payment with invoice.

WHAT TO SUBMIT

Plans and specifications are required to be signed and sealed in accordance with Florida Statute. Submit completed application form DFS-K3-1973 and two sets of plans and one set of specifications to:

If Sending By Regular Mail

Tallahassee, Florida 32399-0342

If Sending By Overnight Service

Division of State Fire Marshal
Plans Review Section

Tallahassee, Florida 32303

PLANS SUBMISSION:

The Division of State Fire Marshal will require the submitter to furnish two sets of plans and one set of specifications for review to the Plans Review Section. The submitter may, however, submit plans at an earlier stage, i.e., design review, in which case only one unsigned set needs to be submitted. **Only one design review will be allowed per project.** When the documents are approved for construction, the plans and specs will be stamped "APPROVED" and returned to the submitter. The stamped set of plans must be kept on the job site for the fire safety inspector's use at the time of inspection. It shall be the responsibility of the submitter to see that the "approved" set of plans is on the construction site before work begins and remains there until final inspection and approval has been issued. Plan approval is good for one year from the date of issue. The construction contract must be let within this period or the approval will expire and the plans must be re-submitted with another review fee.

The editions of the pertinent codes that will apply to your project will be those that are adopted at the date of your first submittal, regardless of phase, i.e. 50% or final, and will not change even if a newer edition is adopted during the review process.

Any change orders or redesign during construction that affect life safety shall be submitted for review with the State Fire Marshal’s file number indicated. There is no additional fee required for changes.

The review process allows 30 calendar days for review of all state-owned property and 10 working days for review of state leased property.

If there are any special circumstances or hazards that require further clarification, the reviewer will attempt to contact you; therefore, please include the name and telephone number of a contact person with your plan submission. Please remember that if you are called and asked for additional information or clarification, the reviewer needs this information in writing before he can approve the project. If the statutory time (10 working days on a lease or 30 calendar days on state owned) expires he must disapprove the project and a re-submittal process may add further delay to the project.

Please initial Offeror acknowledgement on all pages of this submittal form:_____ ITN #590:3161

ENERGY PERFORMANCE ANALYSIS (EPA)

ENERGY PERFORMANCE ANALYSIS (EPA)

Overview

Pursuant to Section 255.254, Florida Statutes, no state agency shall lease a facility without having secured from the Department of Management Services (DMS) an evaluation of life-cycle costs based on sustainable building ratings. **DMS implements Section 255.254, Florida Statutes, through Rule Chapter 60D-4 of the Florida Administrative Code (FAC).** Pursuant to Rule 60D-4.007, FAC, an Energy Performance Analysis (EPA) is required before an agency considers leasing the following facilities:

- buildings larger than 2,000 gross square feet
- spaces larger than 2,000 square feet of rentable area within an existing building

The EPA requirements include the following procedures:

- the EPA Submission (see EPA Submission Requirements below)
- the Energy Star rating of the proposed lease -or- the energy performance index for facilities not eligible for an Energy Star rating (see EPA Procedures below)
- the energy cost projection (see EPA Procedures below)
- the computer-based simulation when required in the EPA Procedures (also see Computer-Based Simulation Requirements below for additional information)

EPA Submission Requirements

The EPA submission shall contain all of the following information:

1. A description of the proposed lease space that includes:
 - a. lease #
 - b. facility address
 - c. type of space
 - d. gross square footage
 - e. rentable square footage
 - f. current occupancy
 - g. proposed occupancy
 - h. weekly operating schedule
 - i. agency contact (name, email, phone)
 - j. tenant broker information (name, title, company, address, email, phone)
2. Copies of the utility bill statements for the previous one year (provide when such data is used to develop the Energy Star rating). Historical consumption and cost data supplied by the utility provider will be considered acceptable in lieu of utility bill copies.
3. Copies of the actual utility bill statements for the previous three years (provide when such data is used to develop the energy cost projection). Historical consumption and cost data supplied by the utility provider will be considered acceptable in lieu of utility bill copies.
4. Input and output sheets from the computer-based simulation program (provide when a computer-based simulation is required).
5. The name, address, firm name, and license number of the engineer who performed the computer-based simulation (provide when a computer-based simulation is required).
6. Energy Star software forms:
 - a. "Statement of Energy Performance" (provide when Energy Star Portfolio Manager is used)
 - b. "Target Energy Performance Results" (provide when Energy Star Target Finder is used)
7. Energy performance index and calculations (provide when the proposed lease is not eligible for an Energy Star rating).
8. The cost utilization index, projection, and calculations.
9. A brief description of the type and size of the existing HVAC and lighting systems.

10. A detailed description of all renovations planned, necessary, or performed to make the proposed lease space suitable for the tenant agency.
11. A detailed description of all energy conservation measures proposed to raise the Energy Star rating to the minimum accepted level (provide when energy conservation measures are proposed and also include the revised Energy Star reports).
12. Delivery: The energy performance analysis shall be mailed or delivered to the department pursuant to Section 255.254(1), Florida Statutes at the address listed here:

Energy Performance Analysis (EPA)
DMS-REDM Bureau of Leasing
4050 Esplanade Way, Suite 315
Tallahassee, Florida 32399-0950

EPA Procedures

1. Energy Star Rating:
 - a. An Energy Star rating shall be developed for the proposed lease space with one of the following free software tools:
 - 1) the Energy Star Portfolio Manager software, which is available at:
<https://www.energystar.gov/buildings/facility-owners-and-managers/existing-buildings/use-portfolio-manager>
 - 2) the Energy Star Target Finder software, which is available at:
<https://portfoliomanager.energystar.gov/pm/targetFinder?execution=e2s1>
 - b. The minimum acceptable Energy Star rating is 50.
 - c. The Energy Star rating shall be developed with the annual energy consumption for only the lease space being proposed. Use the following two scenarios as a guide:
 - 1) Whole-Building Scenario: When the proposed lease space is an entire building or section of a given building that is separately metered by the utility provider, the Energy Star rating may be developed with actual utility bill data for the previous 12-month period. If actual utility bill data does not exist or the space has been unoccupied for more than 30 days, then the Energy Star rating must be developed with the annual energy consumption results of a computer-based simulation (see Computer-Based Simulation Requirements below for additional information).
 - 2) Partial-Building Scenario: When the proposed lease space does not account for all rentable space within a given building or is not separately metered by the utility provider, a computer-based simulation shall be performed that computes the expected annual energy consumption for the proposed lease space. The results of the computer-based simulation shall be used to generate the Energy Star rating. *Note: An Energy Star rating for the entire building in this scenario will not be accepted.*
 - d. Exception: When the proposed lease does not meet the eligibility criteria for an Energy Star rating regarding the type or allocation of space, an energy performance index (kBtu per gross square foot per year) shall be developed manually in lieu of the Energy Star rating using one of the following sources:
 - 1) actual utility bill data for the previous 12 months
 - 2) the expected annual energy consumption developed with a computer-based simulation
 - e. Low Energy Star Ratings: For circumstances where the Energy Star rating of a proposed lease space is less than 50, a computer-based simulation may be performed that simulates energy conservation measures that are sufficient to raise the Energy Star rating to 50 or higher.
 - f. Renovations: When renovations that alter HVAC and/or lighting systems are either planned, necessary, or have been performed to make the proposed lease space suitable for the new tenant agency, a computer-based simulation shall be performed to provide the expected annual energy consumption required to develop one of the following:
 - 1) an Energy Star rating for the proposed lease

- 2) the energy performance index (kBtu per gross square foot per year) for proposed lease spaces that are not eligible for an Energy Star rating
2. **Energy Cost Projection:**
- a. Annual energy cost: The total expected annual energy cost for the proposed lease space shall be derived from one of the following sources:
 - 1) the average annual energy costs based on actual utility bills for the previous three years
 - 2) current utility rates and a computer-based simulation when a computer-based simulation is required to develop the Energy Star rating.
 - b. A cost utilization index (total energy cost per gross square foot per year) shall be developed with the annual energy cost data described above.
 - c. The cost utilization index (total energy cost per gross square foot per year) shall be projected forward for each contract year of the proposed lease based on one of the following:
 - 1) the average annual energy escalation rate derived from actual utility bill data for the previous three years
 - 2) an escalation rate approved by the agency when actual utility bill data for the previous three years is not available.

Computer-Based Simulation Requirements

When a computer-based simulation is required to develop the EPA (see EPA Procedures above), the computer-based simulation shall be consistent with the following requirements:

1. The computer-based simulation shall be performed by an engineer licensed in Florida.
