APPENDIX A  DRAFT Comprehensive Investment Plan for the Stanley G. Tate Florida Prepaid college Program
APPENDIX B  DRAFT Comprehensive Investment plan Florida College Savings plan
APPENDIX C  Contract
APPENDIX D  Supplemental Questions Grid
1.0 BACKGROUND

1.1 Florida Prepaid College Board

For more than 25 years, the Florida Prepaid College Board (“Board”) has helped families plan and prepare to meet future postsecondary education expenses. The Board is an agency of the State of Florida created by Section 1009.97 of the Florida Statutes. The Board has seven members who establish policy and monitor performance for the Prepaid Plan and the 529 Savings Plan. Three members of the Board are appointed by the Governor and are subject to confirmation by the Florida Senate. Four members of the Board are designated in Section 1009.971(2), Florida Statutes. These members are the Attorney General, Chief Financial Officer, Chancellor of the State University System and Chancellor of the Florida College System, or their respective designees. The agency is assigned to and administratively housed within the State Board of Administration (“SBA”), but the Board exercises its powers independent of the SBA. The Board oversees the following programs and organizations:

- **Stanley G. Tate Florida Prepaid College Program (“Prepaid Plan”)** - The Prepaid Plan provides a mechanism whereby costs associated with postsecondary education may be paid in advance of attendance. Florida residency is required. Purchasers sign a Master Contract when they purchase a plan and designate a qualified beneficiary to receive the benefits of the contract at the time of postsecondary enrollment. Proceeds from Prepaid Plan sales are invested in accordance with a Comprehensive Investment Plan approved by the Board. The Prepaid Plan has sold more than 1.90 million plans since 1988, and it is the largest, longest continuously running and most successful prepaid program in the nation. As of December 31, 2016, the Prepaid Plan had a market value in excess of $10.92 billion.

- **Florida 529 Savings Plan (“Savings Plan”)** - The Savings Plan offers families a flexible way to save for postsecondary education expenses, but offers no guarantees related to principal, earnings or future benefits. Florida residency is not a requirement. Families can save at a pace that meets their budget, allowing them to decide how much money to put into their savings plan. The Savings Plan has over 50,000 active accounts. As of December 31, 2016, the Savings Plan had a market value of approximately $479 million.

- **Stanley G. Tate Florida Prepaid College Foundation (“Foundation”)** - Created in 1990 as the charitable arm of the Board, the Foundation (a legislatively authorized Direct Support Organization) provides college scholarships to low-income children and other children in need. Many of these children are the first in their family to have the opportunity to go to college. The Foundation also administers private scholarships for eligible 501(c)(3) charitable organizations. Since inception, the Foundation has awarded nearly 40,000 college scholarships statewide. For more information about the Foundation, please visit [www.floridaprepaidcollegefoundation.com](http://www.floridaprepaidcollegefoundation.com).

- **ABLE United (“ABLE”)** - Legislatively created in 2015 as a qualified ABLE Program, ABLE, (a Direct Support Organization) provides a savings and investment option for eligible individuals with disabilities. ABLE is intended to supplement, but not replace, the benefits provided through private insurances, Medicaid, Social Security Disability Insurance (SSDI), Supplemental Security Income (SSI), the Beneficiary’s employment, and other sources. Earnings in an ABLE Account are tax-free under Section 529A of the Internal Revenue Code if used to pay for qualified expenditures. For more information about ABLE please visit [www.ableunited.com](http://www.ableunited.com).
The primary statutory provisions affecting the operation of the Florida Prepaid College Board are in Part IV, chapter 1009, Florida Statutes. The administrative rules of the Board are designated by Title 19B of the Florida Administrative Code.

For more information about the Florida Prepaid College Board, including access to the Comprehensive Investment Plans for the Prepaid Plan and the Savings Plan, the Master Contract for the Prepaid Plan and recent annual reports, please visit: www.myfloridaprepaid.com. The administrative rules of the Board are available at www.flrules.org.
1.2 Solicitation Purpose

This Invitation to Negotiate ("ITN") is being issued to obtain Responses from qualified firms ("Respondents") to provide investment management services for index replication strategies that support some or all of the investment options to be utilized and/or offered for the Stanley G. Tate Florida Prepaid College Program and the Florida 529 Savings Plan.

- The Prepaid Plan had a market value as of December 31, 2016 of approximately $10.92 billion. The Prepaid Plan has four fixed income investment managers (three active and one passive: $9.10 billion) and six equity investment managers (S&P 500 index: $357 million, large cap domestic value-oriented: $381 million, large cap domestic growth-oriented: $340 million, mid-cap domestic core: $189 million, small-cap domestic core: $190 million, and international with EAFE mandate: $357 million). Please be advised that the Prepaid Plan is considered a Qualified Institutional Buyer.

- The 529 Savings Plan has one fixed income manager ($190 million), one money market manager ($24 million), and six equity investment managers (S&P 500 Index: $57 million, large cap domestic value-oriented: $52 million, large cap domestic growth-oriented $52 million, mid-cap domestic core: $27 million, small-cap domestic core: $28 and international developed markets $46 million).

For more information on the investments and investment options, see the DRAFT Comprehensive Investment Plans in Appendix A and Appendix B.

The Board seeks to enter into an agreement with one or more large investment management firms who provide index replication strategy vehicles. An agreement, such as that outlined in Appendix C, will be pursued with the selected Respondent(s) to this solicitation deemed to offer the best value. The resulting agreement(s) will be limited to investment management. The administration of the programs will be the sole responsibility of the Board.

To be considered for award, Respondents must meet the standards and requirements set forth in Section 5.0 Mandatory Requirements. Any Respondent that does not satisfy these requirements will be rejected.
2.0 DESCRIPTION OF SERVICES

The Respondent(s) with whom the Board enters into agreement, pursuant to this solicitation, shall perform comprehensive investment management services, employing a passive management style, for one or more of the investment classes utilized by the Prepaid Plan and investment options offered by the Savings Plan. Services shall include but may not be limited to:

1. Serve as an agent of the Board to manage and invest assets at the discretion of the Board.

2. Provide access to index replication strategy vehicles available to the Board for investment of any amount, in any fund, on any trading day at the discretion of the Board.

3. Provide gross and/or net of fee investment performance for monthly, quarterly and/or annual statements.

4. Provide approved logos, trademarks and disclosure materials that may be included in marketing materials created by the Board.

5. Upon request, and for a negotiated fee, make presentations to the Florida Prepaid College Board on investment topics including, but not limited to: strategy, mechanics, environment, performance and projections upon request.
3.0 **ITN PROCESS**

The ITN process is divided into two (2) phases, the Evaluation Phase and the Negotiation Phase. The Evaluation Phase involves the initial evaluation of replies. During the Evaluation Phase, all responsive replies will be evaluated against the evaluation criteria set forth in this document. The Board intends to select the three highest-ranked Respondents ("shortlist"), but may adjust the quantity to accommodate a competitive range, for negotiation.

The Board intends to initially negotiate concurrently with the Respondents on the shortlist. However, the Board reserves the right, after posting notice thereof and in its sole discretion, to expand the shortlist to include additional responsive Respondents for negotiation or change the method of negotiation (e.g., order of ranking versus concurrent), if it determines that to do either would be in the best interest of the Board. A Respondent will be deemed responsive unless determined to be nonresponsive pursuant to the terms of this document.

The Negotiation Phase will involve at least one (1) telephone conference with each selected shortlist Respondent. During the Negotiation Phase, the Board may request supplemental information and/or best and final offers based on the negotiations or supplemental information. Following negotiations, the Board will post a Notice of Intent to Award, identifying the Respondent(s) that provides the best value to the Board. Be advised, Respondents will not be eliminated from the ITN process until posting of the Notice of Intent to Award.

All Respondents shall be accorded fair and equal treatment.

3.1 **Official Notices**

All notices, revisions, decisions, intended decisions, addenda and other matters relating to this ITN will be electronically posted on the Department of Management Services (DMS) Vendor Bid System (VBS) website located at: [http://myflorida.com/apps/vbs/vbs www.main_menu](http://myflorida.com/apps/vbs/vbs www.main_menu).

Please utilize the following search criteria to view this information on the aforementioned website:

- **Agency:** State Board of Administration
- **Title:** ITN #17-01.

It is the responsibility of prospective Respondents to check the VBS for revisions, addenda, notices of decisions, and other information or clarifications to this ITN.

3.2 **Public Records**

All Responses to this ITN shall result in a Respondent’s waiver of any and all rights relating to confidentiality, or claims thereof, upon delivery to the Board. All electronic and written communications pertaining to this ITN, whether sent from or received by the Board and all Responses to this ITN including, without limitation, administrative information, proposed services/commodities and cost information will be subject to disclosure after the contract award as required under Chapter 119 of the Florida Statutes (Florida Public Records Law).
3.3  **Legal Requirements**

Applicable provisions of all federal, state, county, and local laws will govern development, submittal, and evaluation of all Responses received and will govern any and all claims and disputes that may arise between persons submitting a Response and the Board. Lack of knowledge by any Respondent will not constitute a cognizable defense against the legal effect of any such provision.

3.4  **Protests and Disputes**

Any protest concerning this solicitation shall be made in accordance with Sections 120.57(3) and 287.042(2) of the Florida Statutes, and Chapter 28-110 of the Florida Administrative Code. Failure to file a protest within the time prescribed in Section 120.57(3) of the Florida Statutes, or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under Chapter 120 of the Florida Statutes.

Section 120.57(3)(b), Florida Statutes and Section 28-110.003, Florida Administrative Code require that a notice of protest of the solicitation documents shall be made within seventy-two (72) hours after the posting of the solicitation.

3.5  **Limitations on Contacting Personnel and Others**

Violation of this provision may be grounds for rejecting a Response.

3.6  **Cost of Developing and Submitting Responses**

The Florida Prepaid College Board nor the State of Florida is liable for any of the costs incurred by the Respondent in preparing and/or submitting a Response.
4.0 **SCHEDULE**

The following time schedule, provided as Table 1, is set forth for informational and planning purposes. The Board reserves the right to change any of the dates or times in its sole discretion.

The words “should” or “may” in this ITN indicate desirable attributes or conditions, but are permissive in nature. Only those Respondents who have met the mandatory requirements of this ITN will be considered; any Respondent who has not done so will be rejected. The right is reserved to reject any or all bids. Failure to meet any contractual obligations may result in cancellation of any award.

Each Response shall be prepared simply and economically providing a straightforward, concise delineation of the Respondent’s capabilities to satisfy the requirements of this ITN. Fancy bindings and promotional material are not desired nor expected.

Only responses that meet the mandatory requirements of this ITN will be considered by the Board. Responses will be independently evaluated by each member of an Evaluation Team (“Evaluation Team”) on the basis of written Responses to this ITN and additional written information as requested. The Evaluation Team may consider information received from Callan Associates, Inc. (Callan), an investment consultant for the Board. Callan may provide factual information relating to the historical investment performance of the Respondent, including investment returns for the portfolio attributes and consistency of performance. Callan may also provide factual information related to the experience, background, and staffing of the Respondent. Any information provided by Callan will be based on the responsive replies to this ITN and information possessed by Callan through a normal course of business. Callan will not make any decisions on behalf of the Board.

The Board reserves the right to determine which Responses meet the mandatory requirements of this ITN, and whether any deviation from the specifications, terms, or conditions contained herein is merely minor or technical in nature; the right to accept Responses which deviate in a minor or technical fashion is also reserved by the Board and the Board reserves the right to accept or reject any and all Responses and to award the contract in the best interests of the Board.

Responses will be evaluated in a multi-step, progressive, process as follows; Respondents may be removed from consideration in each step based on the criteria documented in this ITN:

6.1.1 Evaluation Step 1: Evaluation of Mandatory Requirements

The evaluation process will begin with a review of the mandatory requirements for Responses set forth in Section 5.0. Any Response that does not meet the mandatory requirements of Section 5.0 will be rejected, subject to the Board reservation of rights. The determination in this evaluation step is pass/fail. Respondents that satisfy the mandatory requirements will be moved to the next evaluation step. Respondents that do not satisfy the mandatory requirements will be removed from consideration. No points will be awarded in this evaluation step.

6.1.2 Evaluation Step 2: Evaluation of Responsive Replies

For index replication strategies, each prospectus and/or participation agreement document provided in Attachment 1 (items “1a”-“1g” as provided) by the Respondent will be independently evaluated by each member of an Evaluation Team and points will be awarded in the following areas: (1) investment performance considering investment philosophy and strategy, (2) organizational experience, and (3) annual fees. In addition, based on all documents and materials provided in a Response, the (4) financial stability of the Respondent and (5) the Respondent’s ability to meet the needs of the Board will also be evaluated.

The following represents the maximum initial point values that may be awarded per evaluator by criteria.

The Total Annual Operating fees for each replication strategy proposed by the Respondent (in bps) will be evaluated and points will be awarded for each fee based on the following formula. The maximum of 40 total points will be awarded for the lowest fee proposed for a given mandate. (Fee proposals will be awarded using a weighted average fee based on assets under management (AUM) for each plan.) The score for any replication strategy for which a Respondent does not reply shall be zero (0). Please note that shareholder fees and/or other fee or fee structure information provided in the Response will be considered when scoring the Respondent’s ability to meet the needs of the Board.

**Formula to Determine Fee Score**

\[(X/N) \times 40 = Z\]

where:

- \(X\) = Lowest Fee;
- \(N\) = Proposed Fee;
- \(Z\) = Points awarded

The total score for the Respondent will be awarded based on the formula provided below. A maximum of 100 total points, per evaluator, may be awarded.

For any and all scores determined by calculation, including the calculation to determine fee scores, the points awarded will be rounded to the nearest whole number. Decimal values less than 0.50 will be rounded down to the next whole number; decimal values greater than, or equal to, 0.50 will be rounded up to the next whole number. For example, a value of 20.49 would be rounded to 20. A value of 20.50 would be rounded to 21. The minimum possible calculated points awarded will be 0.

**6.1.3 Evaluation Step 3: Ranking and Shortlisting**

After the Response evaluations are complete, the total score awarded by each Evaluation Team member will be validated pursuant to the schedule in Section 4.0 and then aggregated. The Respondents will be ranked based on their aggregate scores.

The Board intends to select the three highest-ranked Respondents (“shortlist”), but may adjust the quantity to accommodate a competitive range, for negotiation. The Board reserves the right, after posting notice thereof, to expand the shortlist to include additional responsive Respondents. The Board expressly reserves the right to accept or reject any and all Responses and to award the contract in the best interests of the Board.

Be advised, Respondents will not be eliminated from the ITN process until posting of the Notice of Intent to Award.
6.2  Negotiation

6.2.1  Negotiation Meeting(s)

The Board intends to participate in at least one (1) telephone conference with each of the selected Respondent(s) scheduled pursuant to Section 4.0. During the Negotiation Phase, the Board may request supplemental information and/or best and final offers based on the negotiations. Further information, including a scope and agenda for the call(s), will be provided with the Notice of Intent to Negotiate to the Respondent(s) selected to the shortlist. The Board prefers that the Respondent representation participating in the call include the portfolio manager(s), but this is not required. At a minimum, the representative(s) shall be familiar with the portfolio(s).

The Negotiation Team may consider information received from Callan Associates, Inc. (Callan), an investment consultant for the Board. Callan may provide factual information relating to the historical investment performance of the Respondent, including investment returns for the portfolio attributes and consistency of performance. Callan may also provide factual information related to the experience, background, and staffing of the Respondent. Any information provided by Callan will be based on the responsive replies to this ITN and information possessed by Callan through a normal course of business. Callan will not make any decisions on behalf of the Board.

6.2.2  Contract Negotiation

The Board intends to initially negotiate with the shortlist Respondent(s) concurrently. However, the Board reserves the right, after posting notice thereof, to expand the shortlist to include additional responsive Respondents for negotiation or change the method of negotiation (e.g., concurrent versus by order of ranking), and evaluation criteria if it determines that to do such would be in the best interest of the Board. When negotiations have been completed, the Board will award the contract(s) to the responsive and responsible Respondent(s) that the Board determines will provide the best value. The Board will post its Notice of Intent to Award or its notice informing of its decision that all Responses have been rejected pursuant to Section 3.1.

The Board reserves the right to change the members of the Negotiation Team in its sole discretion.

6.2.3  Board Rights During Negotiations

At any time during the negotiation process, the reserved rights of the Board include but are not limited to:

1. Schedule additional negotiating sessions with any or all Respondent(s);
2. Require any or all Respondent(s) to provide additional or revised replies and detailed written proposals addressing specified topics;
3. Require any or all Respondent(s) to provide a written best and final offer;
4. Require any or all Respondent(s) to address services, prices, or conditions offered by any other Respondent;
5. Pursue a contract with one or more Respondent(s) for the services encompassed by this solicitation, any addenda thereto, and any request for additional or revised detailed written proposals or request for best and final offers;
6. Arrive at an agreement with any Respondent, finalize principal contract terms with such Respondent and terminate negotiations with any or all other Respondents, regardless of the status of or scheduled negotiations with such other Respondent(s);
7. Decline to conduct further negotiations with any Respondent;
8. Reopen negotiations with any Respondent;
9. Take any additional administrative steps deemed necessary in determining the final award, including additional fact-finding, evaluation, or negotiation where necessary and consistent with the terms of this ITN;
10. Review and rely on relevant information contained in the replies received;
11. Review and rely on relevant portions of the evaluations conducted pursuant to Section 6.0; and
12. Seek factual information from Callan as it pertains to Callan’s investment consultant services provided to the Florida Prepaid College Board.

The Board has sole discretion in deciding whether and when to take any of the foregoing actions, the scope and manner of such actions, the Respondent(s) affected, and whether to provide concurrent public notice of such decision.

6.2.4 Negotiation Meetings Not Open to Public

Negotiations between the Board and a Respondent are exempt from being held as public meetings by Section 286.0113(2)(a) of the Florida Statutes. Furthermore, negotiation strategy meetings of the Board Negotiation Team are exempted by Section 286.0113(2)(a) of the Florida Statutes.

DRAFT
Florida Prepaid College Board
Comprehensive Investment Plan
for the
Stanley G. Tate Florida Prepaid College Program
March 30, 2017

AUTHORITY

All investments made under this plan are made under the authority granted the Florida Prepaid College Board under Section 1009.973, Florida Statutes. All funds managed by the Board are funds of the State of Florida.

PURPOSE

The Stanley G. Tate Florida Prepaid College Program (the Program) is a program created pursuant to Section 1009.98 of the Florida Statutes to provide a medium through which the cost of a state postsecondary education may be paid in advance of enrollment at a rate lower than the projected corresponding cost at the time of actual enrollment. The Program is administered by the Florida Prepaid College Board (the Board), which was created pursuant to Section 1009.97 of the Florida Statutes.

The policy goals of this Comprehensive Investment Plan (CIP) are established as follows in the priority listed. These goals are:

1. Safety
2. Liquidity
3. Yield

The sole purpose of the investment program is to meet the forecasted actuarial liability projections. In pursuing the objective of meeting the forecasted liabilities, the primary policy goal is the safety in the Program’s ability to meet the forecasted liabilities. The goals of safety must be met by the limitation of risk through portfolio allocation based on liability requirements, diversification within asset classes, credit quality guidelines and investment operating procedures.

A second and equally important portfolio objective is giving adequate consideration to the liquidity requirements necessitated by the Program obligations. Consideration will be given to investment maturities, investment income and funds receipts in calculating funds required for liquidity purposes.

After meeting safety and liquidity requirements, the goals of maximizing investment return will be met. Strategies will be employed to achieve the highest possible net returns within policy guidelines.

The investment strategy is designed to enable the Board to meet actuarially determined Program liabilities, calculated by an independent actuarial consultant firm, and approved by the Board, at the time of funding. By definition, responsibility for financing any divergence of actual liabilities from actuarial assumptions that may result in Program funding deficits belongs to the Legislature. The sole purpose of the Board’s CIP is to outline the strategies to be employed to meet forecast actuarial liability projections, and to establish the guidelines under which each investment manager will operate.

ORGANIZATION

The Board retains ultimate responsibility for the development, execution and control of the CIP. The Board may delegate responsibility for the administration of the CIP to a Committee of the Board or a person duly chosen by the Board. This Committee or person shall ensure that Board policies are strictly followed.
and that investment procedures, which protect the financial assets of the Program, are in place and properly followed. The Committee will employ the services of a professional consultant to advise it in the pursuit of the investment objectives.

**INVESTMENT MANAGEMENT**

The Board will hire duly qualified investment managers to carry out the day-to-day investment responsibilities outlined in the CIP. Investment managers (product providers) will have investment discretion as to security selection subject to the guidelines and limitations expressed in the CIP and any manager-specific guidelines agreed upon between the Board and manager.

**REPORTING**

The Executive Director will cause detailed quarterly reports and monthly flash reports of the investment portfolio structure and performance to be prepared for review by the Board.

To ensure that the Executive Director and the Board have the necessary information to discharge their oversight responsibility, the quarterly reports will include the following:

1. **Performance Measurement and Attribution**

   Performance measurement of the Prepaid College Trust Fund (the Fund) shall be reported each quarter for the most recent completed quarter, fiscal year-to-date, most recent twelve-month period and cumulatively from inception showing returns on the assets compared to returns on the customized benchmark index, which approximates the Program’s liability requirements. Returns will be reported on a time-weighted basis.

   - The performance of the total Fund will be compared against a benchmark comprised of market portfolios representing the underlying investment strategies and weighted in accordance with the Program’s asset allocation policy.

   - Performance of each asset class will be shown along with an analysis of each manager’s contribution to the performance of the asset class.

   - Performance of each investment manager and an attribution analysis of that manager’s performance will be shown in comparison to benchmarks appropriate to their investment strategy.

     - Fixed Income attribution will include such factors as the effects of changes in interest rates, and sector and quality decisions.
     - Equity attribution will include such factors as sector and industry weights, beta, company size, yield and growth in earnings.

   - The performance of each equity manager will also be evaluated relative to a universe of its peers managing similar portfolios and following a similar investment style.

   - Returns for each manager and the overall Fund will also be evaluated on a risk-adjusted basis.

     - For individual managers, the risk measurement will be expressed relative to appropriate benchmarks.
     - For each asset class and the overall Fund, the risk measurement will take into consideration any deviation from asset allocation policy and the impact on the funded status of the Program’s liabilities.
2. Compliance and Monitoring

- Asset allocation of the Fund and diversification within each asset class will be reported to ensure allocation guidelines are met.

- Projection of sources and uses of funds will be reported to ensure liquidity requirements are met.

- Investment asset holdings will be reported and monitored monthly to ensure investment only in authorized vehicles.

- Each manager will certify monthly that their portfolio is in compliance with the terms of this CIP and their specific investment mandate. Any exceptions to policy will be noted and a statement provided indicating the steps to be taken to bring the portfolio back into compliance with the policy.

- Each manager will be monitored based upon the performance objectives outlined in this CIP.

- Each manager shall immediately disclose to the Board in writing any instance which a member of the investment manager's Board of Directors, an officer of the investment management firm, or a member of the portfolio management staff is also a member of the Board of Directors, an officer of, or a significant shareholder of 5% or more in stocks of a company in which they propose to invest Board funds. In addition, the Board’s investment consultant and the trustee/custodian shall annually certify that no conflicts of interest exist with respect to the services they provide to the Program and shall annually provide the Board with a copy of the firm’s policy governing conflicts of interest. The requirements of this paragraph do not apply with respect to the common stock of the manager responsible for investment of the large capitalization core domestic equity portfolio (or the common stock of the manager's holding company) when the manager's common stock (or that of its holding company) is included in the S&P 500; provided that, prior to the initial purchase of the manager's common stock (or that of its holding company), the manager notifies the Board in writing that the manager's common stock (or that of its holding company) is included or has been included, in the S&P 500.

- Commingled or Mutual Funds - The Board may approve the use of pooled vehicles such as mutual funds or commingled funds to achieve the objectives and asset allocation strategy with the understanding that the investment policy stated in the mutual fund’s prospectus or the commingled fund’s participation agreement supersedes the guidelines set forth in this CIP.

ASSET ALLOCATION POLICY

The Fund shall maintain an asset allocation such to maximize the probability of meeting the Program’s liabilities over the long term. An asset / liability study shall be conducted once every five years, and more often if warranted by a material change in the underlying liabilities or the investment environment. Taking into consideration the results of the asset liability study and the recommendations of the Program’s consultants, the Board will adopt an asset allocation which properly reflects its attitude towards the balancing of risk and return. The Board at this time has adopted an asset allocation policy which limits the amount of equities to fifteen percent (15%) of the market value of the total Fund, or the most current actuarial reserve balance as determined by the Board’s actuary, whichever is less. The Fund’s principal objective in asset allocation is that of asset/liability matching. An immunized fixed income strategy emphasizing zero coupon U.S. Treasury issues is the dominant investment strategy employed to meet these goals. Other fixed income investments may be used in limited amounts to seek incremental yield. Actuarial reserve assets may be invested in other asset classes as directed by the Board.

The benchmarks for monitoring investment performance of the total Fund and asset class level shall be:

</tbody>
</table>

The Customized Fixed Income Benchmark will be reconstituted annually using the June 30 liability profile as determined by the Program’s actuary. The duration of the benchmark and the pattern of its cash flows will mirror that of the Program’s liabilities. The benchmark is comprised of United States Treasury Strip securities, Bloomberg Barclays Capital U.S Corporate Index, and Bloomberg Barclays Capital U.S. Mortgage-Backed Securities Index, and other Authorized Investment Vehicles as defined in the CIP.

At no time shall the allocation to the fixed income segment of the Fund be less than at a fully funded status net of projected payments from participants. That is, the fixed income segment shall always be greater than or equal to the total Fund value or actuarial liability minus projected cash flows from the participants, whichever is less.

The total equity segment of the Fund, and each of its components shall be constructed using one or more investment manager or products such that in the aggregate the equity component is capitalization and style neutral to its corresponding Customized Equity index.

Based on the market values of the total Fund as of June 30th as determined by the Board’s actuary and after approval by the Board, the allocation of fixed income and equity will be rebalanced no later than September 30th of each year, in order to have the equity component equal fifteen percent (15%) of the total Fund, or the actuarial reserve balance, whichever is less.

In the fixed income segment and subject to Board direction, the allocation to the managers will be rebalanced so that in aggregate the segment is consistent with the customized benchmark.

In the equity segment and in the absence of strong evidence supporting a deviation from these baseline allocations, and subject to Board direction, the allocations to each style and market capitalization of management will be rebalanced in a manner designed to minimize portfolio impact, including transaction costs.

In order to accommodate asset value fluctuations due to short-term economic or market conditions, the asset allocation of the equity segment can vary among asset categories within the ranges noted above. At a minimum, the Board will review the asset allocation and the equity segment targets on a quarterly basis and will make a determination as to whether to rebalance at that time.

In developing this asset allocation policy, the total Fund has been designed to be fully invested, and thus no portion of the Fund has been targeted for cash. However, managers may raise cash balances in accordance with their individual investment guidelines. In the course of operations the Board may deem it appropriate to maintain a cash balance outside of the managers' portfolios in order to meet the Program's liquidity and allocation needs.

**MANAGER SELECTION AND EVALUATION**

The Board has elected to employ multiple investment managers with complementary investment skills and/or styles. As part of this multi-manager structure, managers are hired for their expected contribution to the overall portfolio performance over the various market cycles based on their style, stated strategy, and asset mix. Therefore, the Board shall evaluate manager performance over a sufficient time horizon, and in the context of the prevailing market environment, in order to properly assess each manager's contribution to the overall portfolio. In general, a three or more year period of time will be used to evaluate a manager's success or failure at attaining agreed-upon goals. On an interim basis, portfolio risk and investment performance will be monitored continually to ensure that the management of Program assets remains consistent with the style and objective for which the manager was retained.

At a minimum, investment manager reviews will include a quarterly quantitative performance review conducted by the consultant. Specific evaluation criteria are stated in the investment guidelines that have been individually prepared for each manager pursuant to their specific role in the Program's multi-manager strategy. As necessary, the evaluation may also include an annual site visit to review each portfolio manager's operations. This portion of the evaluation will be conducted by a member of the Board or the Investment Committee, as may be designated either by the Board or the Investment Committee.
IMPLEMENTATION

All money invested for the Program by the investment managers after the adoption of this Comprehensive Investment Plan shall conform to this Statement.

The following guidelines have been established: (1) to ensure that the manager continually adheres to all regulations administered by any regulatory authority charged with oversight responsibility; (2) to limit the Fund’s exposure to unintended risk; (3) to ensure that the manager maintains the style of management for which they were retained; and (4) to provide objective, reasonable criteria to the manager of the Board’s expectations.
PART I
PASSIVE FIXED INCOME
INVESTMENT GUIDELINES

OBJECTIVE

The Board has chosen to employ a multi-manager fixed income investment strategy. In order to reduce the relative volatility of the actively managed portfolios and control overall investment management costs, an allocation to passive fixed income management is maintained. The objective of this component of the portfolio is to replicate the returns of the Customized Benchmark which consists of U.S. Treasury Strips, BC Corporate Index, and BC Fixed-Rate Mortgage-Backed Index.

ASSET ALLOCATION

The portfolio is expected to be fully invested at all times.

PASSIVE FIXED INCOME GUIDELINES

1. The portfolio will be managed in a manner that protects the Program's funded status relative to changes in its projected liabilities due to changes in interest rates. Therefore, the primary purpose of the portfolio shall be on limiting actuarial reserve volatility.

2. The guidelines permit, within the framework and limitations of the broader CIP, all securities eligible for inclusion in the indices which comprise the Customized Benchmark.

3. The total duration of the portfolio shall not differ from the total duration of the benchmark by more than +/- one-quarter of one year.

4. The individual number of holdings in the portfolio shall be sufficient enough to minimize the near-term tracking error relative to the Customized Benchmark.

5. Sector allocations shall be made consistent with the sector weights within the Customized Benchmark.

6. Any cash and cash equivalent investments shall be made in liquid Authorized Investment Vehicles as defined in the CIP.

RESTRICTED INVESTMENTS

1. The use of futures, options and swaps will be permitted subject to the restrictions imposed by "AUTHORIZED INVESTMENT VEHICLES" Paragraph 16.
PERFORMANCE OBJECTIVES

Manager performance shall be reviewed relative to the Customized Benchmark over any three or more year period of time, taking into consideration the following:

- The manager’s performance is expected to meet the Customized Benchmark.

- Tracking error measures the standard deviation of the differences between an investment manager’s return and the index return. A low tracking error indicates that the manager’s performance is closely tracking the performance of the index. In meeting the objectives set forth in these guidelines, the manager shall maintain an annualized tracking error to the Customized Benchmark of less than 10 basis points.
PART II
ACTIVE FIXED INCOME
INVESTMENT GUIDELINES

OBJECTIVE

Fixed income managers will be retained as part of a multi-manager investment strategy. Their function within this strategy is to manage an enhanced immunized fixed-income portfolio.

The enhanced immunization style of management shall mean that the manager shall immunize the liabilities of the Program by structuring the assets in such a way that the value of the Program's assets increase (decreases) in conjunction with increases (decreases) with the value of the liabilities due to the changes in interest rates. The manager shall be permitted to attempt to add value to the portfolio relative to the liabilities through modest duration and yield management and through active sector and security selection, to the extent permitted by this policy.

ASSET ALLOCATION

The portfolio is expected to be fully invested at all times. However, cash holdings may represent an integral part of the manager's desired portfolio structure. Therefore, for purposes of this constraint cash will be defined as securities with a duration of less than three months and manager shall be allowed a maximum cash position of not more than five percent.

ENHANCED IMMUNIZATION GUIDELINES

1. The portfolio will be managed in a manner that protects the Program's funded status relative to changes in its projected liabilities due to changes in interest rates. Therefore, the primary purpose of the portfolio shall be on limiting actuarial reserve volatility.

2. The total duration of the portfolio shall not differ from the total duration of the benchmark by more than +/- three-quarters of one year.

3. Investments in fixed income instruments can be made in sectors and securities as authorized in the CIP.

4. Sector allocations shall be made so that the portfolio is well diversified such that it meets its liability requirements.

5. The maximum investment for any issue, except U.S. Treasury, Agency, and Agency Mortgage-Backed Securities, is the greater of 5% of the portfolio market value or 2% greater than the security's benchmark weight.

6. The maximum investment in Build America Bonds (BABs) is limited to 2% of the market value of the manager's portfolio.

7. The maximum investment in 144(a) bonds without Registration Rights is limited to 3% of the market value of the manager's portfolio.
8. Cash and cash equivalent investments shall be made in liquid Authorized Investment Vehicles as defined in the CIP.

9. The use of futures, options and swaps will be permitted subject to the restrictions imposed by “AUTHORIZED INVESTMENT VEHICLES” Paragraph 16.

10. A maximum allocation of 50% of the market value of the manager’s portfolio to corporate debt, asset-backed securities and mortgage backed securities is permitted. On a periodic basis, the Board may set a maximum and minimum allocation each to corporate debt, asset-backed securities and mortgage-backed securities.

RESTRICTED INVESTMENTS

1. Use of margin is prohibited except as may be required in the use of futures, options and swaps as permitted in subparagraph 9 of this section.

2. Other than futures, options and swaps, the use of derivative securities that have not been specifically approved by the Board in written form is prohibited.

3. Convertible securities shall not be considered for investment.

PERFORMANCE OBJECTIVES

Manager performance shall be reviewed relative to the customized benchmark over any three or more year period of time, taking into consideration the following:

- The active manager’s performance, net of fees, is expected to exceed the customized benchmark.

- The effectiveness of the manager’s duration, sector and security allocations will be reviewed to determine if the manager has demonstrated, on a total return basis, the ability to add value above the benchmark.
PART III
LARGE CAP GROWTH EQUITY
INVESTMENT GUIDELINES

OBJECTIVE

The Board hopes to achieve its goal of reducing total portfolio volatility while enhancing total return through diversification of the equity asset class using multiple styles of management. Large cap growth equity manager(s) may be retained as part of a multi-manager investment strategy. For purposes of this CIP, growth is a style that seeks to purchase stocks of companies, which offer the best combination of strong earnings growth and valuation. This allocation will be represented in the policy benchmark by the Russell 1000 Growth Index.

ASSET ALLOCATION

The portfolio is expected to be fully invested at all times, relying on the manager's ability to generate return through the selection of securities and not through the timing of market movements. Therefore, during these time periods the manager shall be allowed to maintain a maximum cash position of only five percent. Asset allocation shall be determined based on the average position over any three month time period and shall operate within the following constraints set forth herein:

EQUITY INVESTMENT GUIDELINES

1. The Board prefers the manager to invest only in equity securities that have a publicly available operating history of at least three years. However, the manager can invest up to five percent of the portfolio in initial public offerings that have been spun off by a company for which there is an adequate history and that has at least $1 billion in market capitalization. Further, the parent must have been previously listed on the New York Stock Exchange (NYSE), American Stock Exchange (AMEX) or have been traded on the National Association of Securities Dealer's Automated Quotation system (NASDAQ) or other recognized domestic exchange. If, through spin-offs or other activities of the companies held, the portfolio exceeds five percent of holdings with less than three years operating history, the manager will bring the portfolio into compliance within a six-month period.

2. The coefficient of determination (R^2) measures the percentage of total market-related risk that an investment manager has undertaken. Therefore, the manager shall maintain a coefficient of determination to the Russell 1000 Growth Index of not less than .80 over any rolling five-year time horizon calculated using monthly data. Until such time as the portfolio has sufficient historical data, the manager's reported monthly historical performance data, which shall be calculated in a manner consistent with Global Investment Performance Standards (GIPS), shall be utilized in determining portfolio compliance.
3. Equity investments shall be made only in securities listed on a United States stock exchange or traded on NASDAQ in the United States or in other, recognized domestic markets.

4. Cash and cash equivalent investments shall be made in liquid Authorized Investment Vehicles as defined in the CIP.

**RESTRICTED INVESTMENTS**

1. Use of margin is prohibited.
2. Use of options, futures or any other type of derivative securities is prohibited.
3. Convertible securities shall not be considered for investment.

**PERFORMANCE OBJECTIVES**

**Active Managers**

Manager performance shall be reviewed relative to the Russell 1000 Growth Index, over any three or more year period of time, taking into consideration the following:

- The manager’s performance, net of fees, is expected to exceed the Russell 1000 Growth Index, taking into consideration the degree of risk.
- The manager’s performance is expected to rank at or above the median when compared to a universe of its peers managing similar portfolios and following a similar investment style.
- The manager should generate a positive alpha calculated in accordance to the Jensen methodology.
- The manager’s tracking error relative to the Russell 1000 Growth Index is expected to rank below the highest quartile of managers in the Large Cap Growth peer group over rolling three year time periods.

**Passive Managers**

- The manager’s performance is expected to meet the Russell 1000 Growth Index.
- The beta of the portfolio over any three-year rolling time period and calculated using monthly data shall not be less than .98 nor greater than 1.02.
- Tracking error measures the standard deviation of the differences between an investment manager's return and the index return. A low tracking error indicates that the manager's performance is closely tracking the performance of the index. In meeting the objectives set forth in these guidelines, the manager shall maintain an annualized tracking error to the index of less than 25 basis points.
OBJECTIVE

The Board hopes to achieve its goal of reducing total portfolio volatility while enhancing total return through diversification of the equity asset class. Large cap value manager(s) may be retained as part of a multi-manager investment strategy. For purposes of this CIP, value is a style that seeks to purchase stocks in companies generally exhibiting lower price/earnings, lower price/book and higher dividend yield than the average large cap equity. This allocation will be represented in the policy benchmark by the Russell 1000 Value Index.

ASSET ALLOCATION

The portfolio is expected to be fully invested at all times, relying on the manager's ability to generate return through the selection of securities and not through the timing of market movements. Therefore, during these time periods the manager shall be allowed to maintain a maximum cash position of only five percent. During periods of market over-valuation, the manager may have difficulty in identifying solid companies that could be purchased within their value style of management. Therefore, asset allocation shall be determined based on the average position over any three month time period and shall operate within the following constraints set forth herein:

EQUITY INVESTMENT GUIDELINES

1. The Board prefers the manager to invest only in equity securities that have a publicly available operating history of at least three years. 3. Equity investments shall be made only in securities listed on a United States stock exchange or traded on NASDAQ in the United States.

**CASH AND SHORTTERM INVESTMENT GUIDELINES**

Cash and cash equivalent investments shall be made in liquid Authorized Investment Vehicles as defined in the CIP.

**RESTRICTED INVESTMENTS**

1. Use of margin is prohibited.
2. Use of options, futures or any other type of derivative securities is prohibited.
3. Convertible securities shall not be considered for investment.

**PERFORMANCE OBJECTIVES**

Manager performance shall be reviewed relative to the Russell 1000 Value Index, over any three or more year period of time, taking into consideration the following:

- The manager’s performance, net of fees, is expected to exceed the Russell 1000 Value Index, taking into consideration the degree of risk.
- The manager’s performance is expected to rank at or above the median when compared to a universe of its peers managing similar portfolios and following a similar investment style.
- The manager should generate a positive alpha calculated in accordance to the Jensen methodology.
- The manager’s tracking error relative to the Russell 1000 Value Index is expected to rank below the highest quartile of managers in the Large Cap Value peer group over rolling three year time periods.

**Passive Managers**

- The manager’s performance is expected to meet the Russell 1000 Value Index.
- The beta of the portfolio over any three-year rolling time period and calculated using monthly data shall not be less than .98 nor greater than 1.02.
- Tracking error measures the standard deviation of the differences between an investment manager's return and the index return. REPORTING

The Executive Director will cause monthly flash reports and detailed quarterly reports of the investment performance of each investment option to be prepared for review by the Board.

To ensure that the Executive Director and the Board have the necessary information to discharge their oversight responsibility, the quarterly reports will include the following:

Investment results for each investment option will be reported each quarter for the most recent completed quarter, calendar year-to-date, most recent twelve month period and cumulatively from inception showing returns relative to appropriate market benchmarks. Returns will be reported on a time weighted basis. At a minimum, the report will contain the following items:

1. Performance Measurement and Attribution

   - Performance of each investment option relative to its stated benchmark will be reported.

   - The performance of each underlying sub-portfolio will be reported relative to its stated benchmark.

   - An attribution analysis of each investment option and sub-portfolio will be provided.
     - Fixed income attribution will include effects of changes in interest rates, sector and quality decisions and reinvestment rate.
     - Equity attribution will include such factors as sector and industry weights, beta, company size, yield and growth in earnings.
     - The attribution analysis will also account for any deviations in asset class or style weights from the targeted portfolio weights.

   - Returns for each manager will also be evaluated on a risk-adjusted basis.
2. Compliance and Monitoring

- The allocation of each investment option will be reported to ensure allocation guidelines are met.

- Asset holdings will be reported to ensure investments are being made only in authorized securities and investment vehicles.

- Each manager will certify monthly that their portfolio is in compliance with the terms of this CIP and their specific investment mandate, as well as any applicable prospectus and Statement of Additional Information. Any exceptions to policy will be noted and a statement provided indicating the steps to be taken to bring the portfolio back into compliance with the policy.

- Each manager will be monitored based upon the performance objectives as outlined in this Comprehensive Investment Plan.

- Each manager shall immediately disclose to the Board in writing any instance which a member of the investment manager’s Board of Directors, an officer of the investment management firm, or a member of the portfolio management staff is also a member of the Board of Directors, an officer of, or a significant shareholder of 5% or more in stocks of a company in which they propose to invest Board funds. In addition, the Board’s investment consultant and the trustee/custodian shall annually certify that no conflicts of interest exist with respect to the services they provide to the Program and shall annually provide the Board with a copy of the firm’s policy governing conflicts of interest. The requirements of this paragraph do not apply with respect to the common stock of the manager responsible for investment of the large capitalization core domestic equity portfolio (or the common stock of the manager's holding company) when the manager's common stock (or that of its holding company) is included in the S&P 500; provided that, prior to the initial purchase of the manager's common stock (or that of its holding company), the manager notifies the Board in writing that the manager's common stock (or that of its holding company) is included or has been included, in the S&P 500.

- Commingled or Mutual Funds - The Board may approve the use of pooled vehicles such as mutual funds or commingled funds to achieve the objectives and asset allocation strategy with the understanding that the investment policy stated in the mutual fund’s prospectus or the commingled fund’s participation agreement supersedes the guidelines set forth in this CIP.

**INVESTMENT MANAGER SELECTION AND EVALUATION**

Appropriate selection criteria will be used in the process of selecting investment managers/funds. Though not exhaustive, below is a list of considerations:

- Impact on asset class diversification. The characteristics of the potential investment option(s) relative to the characteristics of the existing options will be evaluated to determine the impact on participants' ability to diversify within a risk/reward spectrum.
- Adherence to designated style.
- Reasonable and competitive expense levels.
Investment performance characteristics. Funds will have a record of performing well compared to peer groups and relevant published market indices. A minimum of a three year performance history is desirable for the assessment of manager skill.

The performance of each investment option will be evaluated in the context of its role in the array of options offered to Program participants. The Board shall evaluate investment performance over a sufficient time horizon, and in the context of the prevailing market environment, in order to properly assess the investment manager’s success or failure. In general, a three to five-year time horizon will be used to evaluate a manager’s attainment of agreed-upon goals. On an interim basis, portfolio risk and investment performance will be monitored continually to ensure that the management of Program assets remains consistent with the style and objective for each investment option.

At a minimum, investment manager reviews will include a quarterly quantitative performance review conducted by the Program’s consultant. Specific evaluation criteria are stated in the investment guidelines that have been individually prepared for each investment option pursuant to its specific role in the Program. As necessary, the evaluation may also include an annual site visit to review each portfolio manager’s operations. This portion of the evaluation may be conducted by a member of the Board, the Investment Committee, or Board Staff, as may be designated either by the Board or the Investment Committee.

**REBALANCING**

In order to maintain the level of risk the Board has established for each respective option, the asset class allocation within Option 9 and Option 10 will be monitored monthly and rebalanced to the specified target when the allowable ranges are exceeded. The portfolio should be brought back into compliance within five business days. The following ranges will apply:

IMPLEMENTATION

All assets invested for the Program by the Investment Manager(s) after the adoption of this CIP shall conform to this Statement.

The following portfolio-specific guidelines have been established to:

1. Ensure that the managers continually adhere to all regulations administered by any regulatory authority charged with oversight responsibility
2. Limit the Program’s exposure to unintended risks
3. Ensure that each investment option adheres to its specific objectives
4. Communicate objective, reasonable criteria of the Board’s expectations to the managers.

The following sections contain the investment guidelines and policies for each option of the Florida College Savings Program:
OPTION 1
LARGE CAP GROWTH PORTFOLIO
INVESTMENT GUIDELINES

OBJECTIVE

The objective of the Large Cap Growth Portfolio is to provide participants an opportunity for meaningful growth of capital over a long investment horizon through participation in equity investments.

ASSET ALLOCATION

The portfolio is expected to be fully invested at all times, relying on the manager's ability to generate return through the selection of securities and not through the timing of market movements. Therefore, during these time periods the manager shall be allowed to maintain a maximum cash position of not more than five percent.

INVESTMENT GUIDELINES

1. The Board prefers the manager to invest only in equity securities that have a publicly available operating history of at least three years. However, the manager can invest up to five percent of the portfolio in initial public offerings that have been spun off by a company for which there is an adequate history and that has at least $1 billion in market capitalization. Further, the parent must have been previously listed on the New York Stock Exchange (NYSE), American Stock Exchange (AMEX) or have been traded on the National Association of Securities Dealer's Automated Quotation system (NASDAQ) or other recognized domestic exchange. If, through spin-offs or other activities of the companies held, the portfolio exceeds five percent of holdings with less than three years operating history, the manager will bring the portfolio into compliance within a six-month period.

2. The coefficient of determination (R^2) measures the percentage of total market-related risk that an investment manager has undertaken. Therefore, the manager shall maintain a coefficient of determination to the Russell 1000 Growth Index of not less than .80 over any rolling five-year time horizon calculated using monthly data. Until such time as the portfolio has sufficient historical data, the manager's reported monthly historical performance data, which shall be in compliance with the Global Investment Performance Standards (GIPS), shall be utilized in determining portfolio compliance.

3. Equity investments shall be made only in securities listed on a United States stock exchange or traded on NASDAQ in the United States or in other, recognized domestic markets.

4. Cash and cash equivalent investments shall be made in liquid Authorized Investment Vehicles as defined in the Comprehensive Investment Plan (CIP).
RESTRICTED INVESTMENTS

1. Use of margin is prohibited.
2. Use of options, futures or any other type of derivative securities is prohibited.
3. Convertible securities shall not be considered for investment.

PERFORMANCE OBJECTIVES

Passive Managers

- A passive manager's performance is expected to meet the Russell 1000 Growth Index, or other agreed-upon investible benchmark representing the large cap growth market.

- The beta of the portfolio over any two year rolling time period and calculated using monthly data shall not be less than .98 nor greater than 1.02.

- Tracking error measures the standard deviation of the differences between an investment manager's return and the index return. A low tracking error indicates that the manager's performance is closely tracking the performance of the index. In meeting the objectives set forth in these guidelines, the manager shall maintain an annualized tracking error to the index of less than 25 basis points.

Active Managers

Manager performance shall be reviewed relative to the Russell 1000 Growth Index, over any three or more year period of time, taking into consideration the following:

- The manager's performance, net of fees, is expected to exceed the Russell 1000 Growth Index, taking into consideration the degree of risk.

- The manager’s performance is expected to rank at or above the median when compared to a universe of its peers managing similar portfolios and following a similar investment style.

- The manager should generate a positive alpha calculated in accordance to the Jensen methodology.

- The manager's tracking error relative to the Russell 1000 Growth Index is expected to rank below the highest quartile of managers in the Large Cap Growth peer group over rolling three year time periods.
OPTION 2

There shall be no limit on the percent of the portfolio held in American Depository Receipts, provided those same companies are included in the S&P 500 as American Depository Receipts.

3. The use of futures as a substitute for physical investing, or to facilitate cash flows shall be permitted for this portfolio, provided the manager receives prior written approval from the Board. In order to obtain such approval, the manager must submit a written request to the Board, quantifying the net advantages that will accrue to the portfolio.

4. The Manager may temporarily invest in companies outside of the index in the case of additions or deletions, with the goal of minimizing tracking error and/or reducing trading costs.
CASH AND SHORT TERM INVESTMENT GUIDELINES

Cash and cash equivalent investments shall be made in liquid Authorized Investment Vehicles as defined in the Comprehensive Investment Plan (CIP).

In meeting the objectives set forth in these guidelines, the manager shall maintain an annualized tracking error to the index, of less than 30 basis points.

*Active Managers*

Manager performance shall be reviewed relative to the MSCI EAFE Index, over any three or more year period of time, taking into consideration the following:

- The manager’s performance, net of fees, is expected to exceed the MSCI EAFE Index, taking into consideration the degree of risk.

- The manager’s performance is expected to rank at or above the median when compared to a universe of its peers managing similar portfolios and following a similar investment style.

- The manager should generate a positive alpha calculated in accordance to the Jensen methodology.

- The manager’s tracking error relative to the MSCI EAFE Index is expected to rank below the highest quartile of managers in the International Equity peer group over rolling three year time periods.
OBJECTIVE

The objective of the fixed income option is to provide participants with a low risk, low volatility option for saving for college expenses. It is expected that this option will be used by those participants with a short horizon to matriculation or with little appetite for short term investment volatility.

ASSET ALLOCATION

The portfolio is expected to be fully invested at all times. However, cash holdings may represent an integral part of the manager's desired portfolio structure. Therefore, for purposes of this constraint, cash will be defined as securities with a duration of less than three months and the manager shall be allowed a maximum cash position of not more than five percent.

INVESTMENT GUIDELINES

- Fixed income investments will be made only in dollar-denominated securities traded in domestic markets.

- The portfolio shall maintain a coefficient of determination ($R^2$) to the Barclays Capital Aggregate Index of not less than .90 over any rolling five-year time horizon calculated using monthly data. Until such time as the portfolio has sufficient historical data, the manager's reported monthly historical performance data, which shall be in compliance with the Global Investment Performance Standards (GIPS), shall be utilized in determining portfolio compliance.

RESTRICTED INVESTMENTS

1. Use of margin is prohibited except as may be required in the use of futures, options and swaps.

2. Other than futures, options and swaps, the use of derivative securities that have not been specifically approved by the Board is prohibited.

3. Convertible securities shall not be considered for investment.
PERFORMANCE OBJECTIVES

Passive Managers

- For passive managers, the manager’s performance is expected to meet the Barclays Capital Aggregate Index.

- Tracking error measures the standard deviation of the differences between an investment manager’s return and the index return. A low tracking error indicates that the manager’s performance is closely tracking the performance of the index. In meeting the objectives set forth in these guidelines, the manager shall maintain an annualized tracking error to the index of less than 15 basis points.

Active Managers

Manager performance shall be reviewed relative to the Bloomberg Barclays Capital Aggregate Index over any three to five year period, taking into consideration the following:

- The manager’s performance, net of fees, is expected to exceed the Bloomberg Barclays Capital Aggregate Index, taking into consideration the degree of risk.

- The manager’s performance is expected to rank at or above the median when compared to a universe of its peers managing similar portfolios and following a similar investment style.

- The effectiveness of the manager’s duration, sector and security allocations will be reviewed to determine if the manager has demonstrated, on a total return basis, the ability to add value above the Index.
OPTION 8
MONEY MARKET OPTION
INVESTMENT GUIDELINES

OBJECTIVE
The Money Market option seeks high current income consistent with liquidity, interest income and capital preservation.

ASSET ALLOCATION
The assets of each participant’s account will be invested in Option 8 in accordance with the guidelines described under the “Investment Options” section of this CIP.

INVESTMENT GUIDELINES
The Money Market Option may invest in highly liquid money market instruments and fixed income securities with maturities not to exceed two years. The average portfolio maturity is not to exceed 6 months, notwithstanding the objective of preservation of capital. The minimum rating criteria for securities to be purchased in this paper are A1/P1 or an equivalent rating by two nationally recognized rating services.

PERFORMANCE OBJECTIVES
The performance of the money market fund shall be reviewed against a composite 91 day Treasury Bills index and a universe of other money market funds.
OPTION 9
EQUITY OPTION
INVESTMENT GUIDELINES

OBJECTIVE

The objective of the equity option is to provide participants an opportunity for meaningful growth of capital over a long investment horizon through participation in diversified equity investments. Participants invest in a pre-packaged equity option diversified across investment styles and market capitalization.

ASSET ALLOCATION

Option 9 will be a diversified allocation of twenty percent allocated to a domestic large capitalization growth portfolio (Option 1), twenty percent to a domestic large capitalization value portfolio (Option 2), twenty percent to a U.S. large capitalization index portfolio (Option 3), ten percent to a mid-capitalization portfolio (Option 4), ten percent allocated to a small capitalization portfolio (Option 5) and twenty percent allocated to an international equity portfolio (Option 6).

Allocations to the underlying equity portfolios will be rebalanced periodically according to the rebalancing guidelines specified in the rebalancing section of this CIP.

INVESTMENT GUIDELINES

The investment guidelines under Options 1 through 6, above, will apply to each respective portion of Option 9.

PERFORMANCE OBJECTIVES

The performance objectives specified in Options 1 through 6, above, will apply to each respective portion of Option 9.
OBJECTIVE

The objective of the balanced investment option is to provide participants with an opportunity to generate long term growth of capital, but with less short-term volatility than the all-equity investment option.

ASSET ALLOCATION

Option 10 will be a blend of fixed income (Option 7) and equity (Option 9) and is expected to be fully invested at all times, relying on the manager's ability to generate return through interest rate anticipation and security selection, not through the timing of market movements. Allocations to the underlying fixed income and equity portfolios will be rebalanced periodically according to the rebalancing guidelines specified the rebalancing section of this CIP.

INVESTMENT GUIDELINES

The investment guidelines under Options 7 and 9, above, will apply to each respective portion of Option 10.

PERFORMANCE OBJECTIVES

The performance objectives specified in Options 7 and 9, above, will apply to each respective portion of Option 10.
OPTION 11
AGE-BASED
INVESTMENT GUIDELINES

OBJECTIVE

The age-based investment option is intended to provide Program participants with an asset allocation profile that links the amount of volatility in the portfolio directly to the investment horizon of the participant. As the participant approaches the date at which account balances will be used for college expenses, a lower tolerance for risk is assumed and the equity component of the portfolio is reduced accordingly.

ASSET ALLOCATION

The assets of each participant’s account will be invested in fixed income (Option 7) and equity (Option 9) in accordance with the guidelines described under the “Investment Options” section of this CIP. The Board may periodically request a review to ensure that participant balances are managed in accordance with these guidelines.

INVESTMENT GUIDELINES

The investment guidelines specified in Options 7 and 9, above, will apply to each account balance maintained under Option 11.

PERFORMANCE OBJECTIVES

The performance objectives specified in Options 7 and 9, above, will apply to each account balance maintained under Option 11.

In such event, the Board shall have the option to renew the Agreement or any portion of this Agreement in accordance with this Agreement or such conditions as may be negotiated between the parties for a number of one-year Agreement extensions which shall be equal to the number five minus the number of years remaining under the term of the Agreement pursuant, prior to the filing of the bankruptcy petition. Each such one-year Agreement renewal shall be contingent upon continued need and satisfactory performance by the Manager.
4. The Manager will be compensated pursuant to the Statutory Prospectus for the investment options in which the Prepaid Plan and/or the Savings Plan has invested. The Board shall pay the fees associated with holding Institutional Shares.

5. The Manager shall be compensated for services set forth in B.6 in such manner as will be agreed upon, from time to time, by the Manager and the Board.
