The Department will not talk to any Respondents or their agents regarding a pending solicitation. Please note that questions will NOT be answered via telephone.

ALL EMAILS TO THE PROCUREMENT OFFICER SHALL CONTAIN THE SOLICITATION NUMBER IN THE SUBJECT LINE OF THE EMAIL

1.03 Non-Mandatory Pre-Bid Site Visit. A NON-MANDATORY Pre-Bid Site Visit will be held by the Department, at the Weeks Property, 1233 Youth Camp Road, Groveland, Florida as specified in the Schedule of Events. The Bidder shall notify the contact person specified in the Schedule of Events of their plans to attend the Site Visit.

Prospective Bidders should allow enough time to arrive, park, walk and gain entry to the site to ensure that they arrive prior to the applicable Non-Mandatory Pre-Bid Site Visit time.

1.04 Questions. Information will not be provided by telephone. Bidders may submit written questions or requests for clarification regarding the terms, conditions, requirements of the ITB and its attachments, and any processes described in those documents, to the Procurement Officer by email by the deadline listed in the Schedule of Events of the ITB. The Department will address all inquiries submitted by the deadline listed in the Timeline.

Questions will not constitute a formal protest of the specifications or of the ITB. Responses to all written inquiries, and clarifications or addenda if made to the ITB, will be made through the VBS.

Each submission shall have the ITB number in the subject line of the email. Questions must be submitted in the following format to be considered:

Question #	Bidder	ITB Section	ITB Page #	Question

Submission of Bid: Once the Department posts the answers to the questions, Bidders may begin submitting bids as indicated in Section 1.08; however, Bidders are encouraged to submit their bids no earlier than five days prior to the submission deadline. Bids must be submitted by the deadline listed in the Schedule of Events.

NOTE: This section supersedes Section 2.00, General Instructions to Bidders (PUR-1001), Paragraph 5, Questions.

1.05 Addenda. If the Department finds it necessary to supplement, modify, or interpret any portion of the Bid documents, a written “Addendum” will be posted on the VBS. It is the responsibility of the vendor to be aware of any Addenda that might have a bearing on their bid.

1.06 Response Form. Section 7.00 must be completed and submitted or the bid will be rejected. The Department will not accept any other type “Response Form” as a valid bid to this Bid. By affixing authorizing signature, the Bidder hereby affirms and agrees to all terms, conditions, provisions, and specifications within the Bid. Prior to issuance of a Purchase Order(s), the selected Bidder must be properly licensed to do business within the State of Florida, if required by federal or state law, for the service or commodities the Bidder will provide this Department.

1.07 Past Performance / Client References: In the space provided on Client Reference Form (Section 8.00), the Bidder must list all names under which it has operated during the last five (5) years. The Department will review its records to identify all contracts that the respondent has undertaken with the Department, where the Bidder was the prime contractor, during the last five (5) years (contracts in effect during or after November 2008).

In the spaces provided on Client Reference Form (Section 8.00), the Respondent must provide the required information for a minimum of five (5) separate and verifiable clients which have been completed for clients of the Respondent (not intended subcontractors) for projects similar in the Solicitation. The clients listed must be for work similar in nature to that specified in this Solicitation. Confidential clients shall not be included. Do not list projects completed for the Department as a reference on this form.

The same client may not be listed for more than one (1) reference (for example, if the Respondent has completed a project for the Florida Department of Transportation – District One and one project for the Florida Department of Transportation – District Two, only one of the projects may be listed because the client, the Florida Department of Transportation, is the same).

Clients that are listed as subcontractors in the Respondent’s proposal will not be accepted as Past Performance references under this Solicitation. Firms that are currently parent or subsidiary companies to the Respondent will not be accepted as Past Performance references under this Solicitation.

In the event that the Respondent has had a name change since the time work was performed for a listed reference, the name under which the Respondent operated at the time that the work was performed must

be given, at the end of the project description for that reference, on the Client Reference Form (Section 8.00).

In the event that Respondents submit a proposal as a joint venture, at least one (1) past performance client must be listed for each member of the joint venture. However, the total minimum number of clients to be listed remains five (5).

References should be available to be contacted during normal working hours. The Department will choose, at its own discretion, two (2) of the Respondent's references to contact in order to complete an evaluation questionnaire as provided in Client Reference Form (Section 8.00). In the event that the Respondent has performed work as a prime contractor for the Department within the timeframe specified above, the Department shall attempt to contact one Department and one non-Department reference. In the event that the respondent has not performed work as a prime contractor for the Department within the timeframe specified above, the Department shall attempt to contact two (2) non-Department references. The total number of clients who will be contacted to complete and evaluation for any proposal shall be two (2).

A Department representative will contact the references via telephone to complete the Evaluation of Past Performance form (Section 11.00). The Department will attempt to contact each selected reference by phone up to two (2) times during the duration of one (1) week. In the event that the contact person cannot be reached following the specified number of attempts, the Respondent shall receive a score of zero (0) for that reference evaluation. The Department will not attempt to correct incorrectly supplied information.

Failure to provide the required information for a minimum of three (3) separate and verifiable clients in the spaces provided on the Client Reference Form (Section 8.00), or failure to provide the required

1.08 Submittal of Bid. Bid must be received in accordance with VBS and Schedule of Events. Sealed Bid must be executed and submitted in a sealed envelope. The face of the envelope shall contain the Bid number and opening date. Bids not submitted on the Response Form shall be rejected. All bids are subject to the conditions specified herein. Those that do not comply with these conditions shall be considered non-responsive and therefore rejected. The bid package shall contain the following:

- The Solicitation Acknowledgement Form;
- Response Form, Section 7.00;
- Client References Form, Section 8.00;
- Certification of Drug-Free Workplace, Section 9.00 (if applicable); and
- Bidder / Subcontractor Summary Form, Section 10.00.

If you assert that any portion of your Bid is exempt from disclosure under the Florida Public Records law, you must submit a redacted version of the Bid along with the un-redacted version. The redacted copy shall be clearly titled "Redacted Copy."

CAUTION: Responses received at the office designated after the exact time specified for receipt will not be considered.

NOTE: This section supersedes Section 2.00, General Instructions to Bidders (PUR-1001) Paragraph 3, Electronic Submission of Responses.

1.09 Alternate Replies. A Bidder may not submit more than one (1) bid. The Department seeks each Bidder's single-best bid.

1.10 General Evaluation Information. The Department reserves the right to accept or reject any or all bid received; waive any minor irregularity, technicality, or omission if the Department determines that doing so will serve the State's best interest; and reserves the right to make an award without further discussion of the bids submitted. No allowances will be made to the bidder because of a lack of knowledge of conditions or requirements and will not relieve any liabilities and obligations.

A non-responsive submittal shall include, but not be limited to, those that: a) are irregular or are not in conformance with the requirements and instructions contained herein; b) fail to utilize or complete prescribed forms; or c) have improper or undated signatures. A NON-RESPONSIVE SUBMITTAL WILL NOT BE CONSIDERED.

The Department objects to and shall not consider any additional terms or conditions submitted by a Bidder, including any appearing in documents attached as part of a Bid. In submitting its bid, a Bidder agrees that any additional terms or conditions, whether submitted intentionally or inadvertently, shall have not force or effect.

1.11 Administrative Review. All responses will be reviewed by the Procurement Officer to ensure that complete responses have been submitted and to ensure that the responses meet the minimum requirements as outlined in this ITB. In order to foster maximum competition, the Department will seek to minimize Bidders disqualifications resulting from non-responsiveness during the administrative review process. Therefore, the Department may, in its sole discretion, notify Bidders whose qualifying information or documentation does not meet the requirements of the ITB and will allow the correction of errors and omissions prior to making a final determination of responsiveness. Timely cures will be accepted by the Department.

1.12 Administrative Cure Process. In the interest of maximizing competition, the Response qualification and cure process seeks to minimize, if not eliminate, Bidders disqualifications resulting from nonmaterial, curable deficiencies in the Bid. During the Administrative Review portion of the evaluation, if the Department determines that a nonmaterial, curable deficiency in the Bid will result in the disqualification of a Bidder, the Department may notify the Bidder of the deficiency and a timeframe within which to provide the information. This process is at the sole discretion of the Department; therefore, the Bidder is advised to ensure that its Bid is compliant with the ITB at the time of submittal.

1.13 Basis of Award. The Department intends to make an award to the responsible, responsive Bidder meeting all specifications and conditions who offers the lowest bid response. DEP reserves the right to go to the next lowest Bidder if the lowest bidder is unable to meet the terms and conditions of the Solicitation.

1.14 Posting of Agency Decision. The notice of intended award will be posted for review by interested parties on the VBS on or after the date listed on the Schedule of Events.

To access the posted results, go to http://www.myflorida.com/apps/vbs/vbs_main_menu. Once at this site, the steps listed below should be followed to access the Vendor Bid System (VBS). 3.04 Disclosure. Information will be disclosed to bids in accordance with State statutes and rules applicable to this ITB after evaluations are complete.

3.05 Firm Response. The Department may make an award within one hundred eighty (180) days after the date of the response opening, during which period the response submitted shall remain firm and shall not be withdrawn. If an award is not made within one hundred eighty (180) days after the

response opening date, the response shall remain firm until either the Department posts an Agency Decision or the Department receives a written notice from the Bidder that the response is withdrawn, whichever occurs first. Any response that expresses a shorter duration shall be rejected.

NOTE: This section supersedes Section 2.00, General Instruction to Bidders (PUR1001), Paragraph 14, Firm Response.

3.06 Misrepresentations. All information submitted and representations made by the Bidder are material and important and will be relied upon by the Department in awarding the contract. Any misstatement or omission (a "Misrepresentation") shall be treated as a fraudulent concealment of the true facts relating to submission of the ITB. A misrepresentation shall be a basis for Department to disqualify the Bidder from participating in this ITB, and any re-bid pertaining to this subject matter (regardless of whether the re-bid resulted from Bidder's misrepresentation) and shall be punishable under law, including, but not limited to, Chapter 817, F.S.

Bidder shall be solely responsible for taking whatever action it deems appropriate to legally defend its claim of exemption from disclosure under the Public Records Law.
- B. Bidder shall obtain either an agreement with the requestor withdrawing its request, or commence an action in a court of competent jurisdiction requesting an injunction prohibiting its disclosure within seventy-two (72) hours (excluding weekends and state and federal holidays) of Bidder's receipt of notice of the public records request.
- C. By submitting its Bid, Bidder agrees that no right or remedy for damages against the Department will arise from disclosure by the Department of the alleged Confidential Information following Bidder's failure to promptly protect its claim of exemption.
- D. By submitting a Response to this ITB, the Bidder agrees to protect, defend, and indemnify the Department for any and all claims arising from or relating to the Bidder's assertion that the redacted portions of its Bid are Confidential Information not subject to disclosure.

3.08 Qualifications. The Bidder must prove to the satisfaction of the Department that they have available under their direct supervision, the necessary organization, experience, equipment and staff to properly fulfill all the conditions, requirements, and specifications required under this ITB.

Any Bidder or associated business entity who has provided the services listed in Section 4.00, Technical Specifications over the past five (5) years for the Department will also be evaluated as described above. Failure to receive a satisfactory or better performance evaluation shall result in the bid being rejected.

FAILURE TO PROVIDE ANY OF THE INFORMATION REQUESTED SHALL RESULT IN THE BID BEING DEEMED NON-RESPONSIVE AND THEREFORE REJECTED.

3.09 Samples. The Department reserves the right to request samples of Bidders product for testing and evaluation during the ITB process. Samples will be provided within twenty (20) days at no cost to the Department. The Department will return samples to Bidder within sixty (60) days after the award of the contract if written request and return, postage paid packaging is provided by Bidder at the time of sample submission.

3.10 Prime Contractor and Subcontractor. In accordance with the terms of the Acknowledgment Form, a Bidder may not respond to this ITB as both prime contractor and as a subcontractor. SECTION 4.00 – TECHNICAL SPECIFICATIONS

4.01 Scope of Service. Section 403.709(3)(c), Florida Statutes (F.S.), authorizes the Department to expend funds from the Solid Waste Management Trust Fund to remove tires from illegal waste tire sites. The present Scope of Services is to implement site abatement of the Weeks Property Waste Tire Site (hereinafter referred to as the “Site”). The objective is to accelerate removal of waste tire accumulations, which can serve as breeding grounds for mosquito species capable of communicating diseases to humans and animals. By submitting a bid, each Bidder specifically acknowledges and agrees that in addition to all requirements noted elsewhere in this ITB, all requirements referencing “Contractor” contained within the Scope of Service below shall be applicable to the Bidder should he/she be deemed the successful Bidder.

All services to be performed by, or under, the direction of the successful Bidder under any resultant contract shall meet or exceed the minimum requirements outlined in this Bid. Under no circumstances shall services meeting less than the minimum requirements be permitted without the prior written approval of the Department. Services shall be performed in strict compliance with the requirements, rules, regulations and governance contained in this ITB and the successful Bidder shall be held responsible hereto.

A. Abatement and Site Work:

1. Tire Removal:

- a) The contractor shall remove all tires (approximately 35,000 passenger tire equivalents (PTE)) from the Site. The contractor will be responsible for bringing any equipment onto the Site necessary for removing vegetation from the tires and loading the tires into trailers.
- b) Tires shall be manually or mechanically loaded from the Site, unless otherwise directed by the Department’s Project Manager. The Site is located at 1233 Youth Camp Road, Groveland, Florida. See Section 13.00, Site Report-Weeks Property Waste Tire Site, describing the estimated number of the tires that need to be removed from the Site.
- c) The contractor shall practice safe and efficient methods of loading trailers and lacing tires to maximize hauling efficiency. The contractor shall notify the Department’s Project Manager of any loads less than maximum capacity. If any stockpiles contain materials other than tires, the contractor must notify the Department’s Project Manager immediately.
- d) The contractor shall haul all passenger and truck tires to a permitted waste tire processing/disposal facility. The contractor must indicate the permitted waste tire processing/disposal facility they will use in their bid and the facility must be agreed upon and approved by the Department’s Project Manager. Any scrap metal salvaged from removing rims from waste tires that are loaded into the contractor’s trailer(s) shall become the property of the Contractor.
- e) The contractor shall simultaneously weigh all tires removed from the Site at the nearest certified scale before they are transported to a permitted waste tire processing/disposal facility. Tires will be weighed again once they arrive at the permitted waste tire processing/disposal facility and the lower of the two net weights will provide the basis for invoicing. The contractor shall attach signed weigh tickets to the invoice when it is submitted.

- f) The contractor shall log all truck and trailer movements by time, date, and identification numbers. A detailed mileage log must be kept supporting any mileage-based charges.
- g) No security will be provided by the Department at this site.

4.02 Production and Quality Control.

A. Production Control:

1. The Department's Project Manager will assign a Site Supervisor from the Department's Central District Office to oversee the daily operations related to this assignment. The contractor may not conduct work at the site unless the Department Site Supervisor is present. The contractor shall notify the Department's Project Manager twenty-four (24) hours in advance before they begin work at the Site.
2. The contractor shall assign a Project Manager to oversee the daily operations related to this assignment and to serve as a liaison with the Department's Project Manager.
3. The contractor's Project Manager shall keep records of abatement progress, all related truck and trailer movements, hours worked, any problems encountered and any time or schedule changes anticipated.
4. The contractor shall email updates daily of tonnages received at the permitted waste tire processing/disposal facility or weigh tickets for all tires received for the day.
5. Final reports shall be made in writing and will specify amounts of materials retrieved, transported and weighed, by tons; hours worked by contractor; number of transport trucks and other equipment in operation during the week; problems encountered; and any time or schedule changes anticipated. This report and weigh tickets are to be submitted with contractor's invoice.
6. If the number of tires collected from the site exceeds the estimated amount, the contractor must notify Department's Project Manager immediately and cease work until the purchase order is amended.

B. Quality Control:

1. The contractor's Project Manager shall assure that retrieval, transportation, processing, and all other work to be done will meet the specifications and standards of the Department Scope of Services, and any supplemental specifications provided by the Department.
2. The contractor's Project Manager shall maintain regular communication with Department's Project Manager to coordinate activities and update records.
3. The contractor shall ensure that all trucks removing tires from the site have a current Florida Waste Tire Collector Registration Decal.
4. The contractor shall guarantee that all of the material will be delivered to a permitted waste tire processing/disposal facility and will be processed according to the contractor's response in conformance with all applicable laws and regulations. Disposal of materials at any other disposal location must be pre-approved by the Department and the contractor shall guarantee that such material will be processed and/or disposed of as represented and in conformance with all applicable laws and regulations.

4.03 Deliverables. Weight tickets for all loads of tires transported. Weight ticket must include the truck number, the name and signature of the driver, tons of tires in load, and date and time of weighing. All weight tickets must accompany the invoice for payment.

By way of further non-exhaustive example, the Contractor shall comply with Section 247A(e) of the Immigration and Nationalization Act, the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Violation of any such applicable laws, roles, codes, ordinances and licensing requirements, shall be grounds for Contract termination.

5.04 Disclosure of Litigation. The contractor shall promptly notify the Department of any criminal litigation, investigations or proceedings which arise during the term involving the contractor, or, to the extent the contractor is aware, any of the contractor's subcontractors or any of the foregoing entities' then-current officers or directors. Details of settlements, which are prevented from disclosure by the terms of the settlement, may be annotated as such.

5.05 E-VERIFY Program for Employment Verification.

- A. The employment of unauthorized aliens by any contractor/vendor is considered a violation of Section 274A(e) of the Immigration and Nationality Act. If the contractor/vendor knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of the contract. The contractor shall be responsible for including this provision in all subcontracts with private organizations issued as a result of this contract.
- B. Pursuant to State of Florida Executive Order No. 11-116, contractor is required to utilize the U.S. Department of Homeland Security's E-Verify system (www.dhs.gov) to verify the employment eligibility of all new employees hired by the contractor during the contract term. Also, the

contractor shall include in related subcontracts a requirement that subcontractors performing work or providing services pursuant to the state contract utilize the E-Verify system to verify employment of all new employees hired by the subcontractor during the contract term.

5.06 Financial Consequences. No payment will be made for deliverables deemed unsatisfactory by the Department. In the event that a deliverable is deemed unsatisfactory by the Department, contractor shall re-perform the services needed for submittal of a satisfactory deliverable, at no additional cost to the Department, within thirty (30) days of being notified of the unsatisfactory deliverable. If a satisfactory deliverable is not submitted within the specified timeframe, the Department may, in its sole discretion, either: 1) terminate the contract for failure to perform, or 2) the Department Contract Manager may, by letter specifying the failure of performance under the contract, request that a proposed Corrective Action Plan (CAP) be submitted by contractor to the Department. All CAPs must be able to be implemented and performed in no more than sixty (60) days.

- A. A CAP shall be submitted within ten (10) calendar days of the date of the letter request from the Department. The CAP shall be sent to the Department Contract Manager for review and approval. Within ten (10) calendar days of receipt of a CAP, the Department shall notify the contractor in writing whether the CAP proposed has been accepted. If the CAP is not accepted, contractor shall have ten (10) calendar days from receipt of the Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above shall result in the Department's termination of the contract for cause as authorized in the contract.
- B. Upon Department's notice of acceptance of a proposed CAP, contractor shall have ten (10) calendar days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve the contractor of any of its obligations under the contract. In the event the CAP fails to correct or eliminate performance deficiencies by contractor, the Department shall retain the right to require additional or further remedial steps, or to terminate the contract for failure to perform. No actions approved by Department or steps taken by contractor shall estop the Department from subsequently asserting any deficiencies in performance. Contractor shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to the Department as requested by the Department Contract Manager.
- C. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the contract as specified by the Department may result in termination of the contract.

Wherever possible, each provision of the contract shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this contract shall be prohibited or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition of invalidity, without invalidating the remainder of such provision or the remaining provisions of this contract. Any action hereon or in connection herewith shall be brought in Leon County, Florida.

5.08 Insurance. The contractor selected under this Bid shall maintain during the life of the contract, Workers' Compensation Insurance for all of its employees connected with the contract and, in case any work is subcontracted, the contractor shall require the subcontractor similarly to provide Workers'

Compensation Insurance for all of the latter's employees unless such employees are covered by the protection afforded by the contractor. Such insurance shall comply fully with the Florida Workers' Compensation Law. In case any class of employee engaged in hazardous work under the contract is not protected under the Workers' Compensation statute, the contractor shall provide adequate insurance, satisfactory to the Department, for the protection of its employees not otherwise protected.

The contractor shall secure and maintain comprehensive general liability coverage with limits of not less than \$200,000 per occurrence and \$300,000 annual aggregate for bodily injury and property damage; automobile liability coverage with limits of not less than \$300,000 combined single limit for bodily injury and property damage. The contractor's current certificate of insurance shall contain a provision that the insurance will not be cancelled for any reason except after thirty (30) days written notice to the Department's Contract Manager.

The selected contractor's current certificate of insurance shall contain a provision that the insurance will not be canceled or modified for any reason except after thirty (30) days written notice to the Department's Contract Manager, with the exception of ten (10) days-notice for non-payment of premium by the insured.

The selected contractor shall be required to submit insurance certificates evidencing all of the above insurance coverage prior to the execution of a contract with the Department. The insurance certificate must name the Department as an additional insured and reference the DEP Contract Number. Copies of new insurance certificates must be provided to the Department's Contract Manager with each insurance renewal.

NOTE: This section supersedes Section 6.00, General Contract Conditions (PUR-1000), Paragraph 35, Insurance Requirements.

Payments shall be made in accordance with Section 215.422 and 287.0585, F.S., which govern time limits for payment of invoices. Invoices that must be returned to the Bidder due to preparation errors will result in a delay in payment. All bills for amounts due under this Bid shall be submitted in sufficient detail as may be required by the Department for a proper pre-audit and post-audit.

NOTE: This section supersedes Section 6.00, General Contract Conditions (PUR-1000), Paragraph 15, Invoicing and Payments.

5.10 Laws and Permits. The contractor must comply with all local, state, and federal laws, rules, regulations and codes whenever work is being performed under the contract. All permits and licenses required for the selected contractor's company operations under the contract must be obtained by the selected contractor and maintained for the duration of the contract. The Department will not pay for the cost of licenses or permits required by the selected contractor for company operations.

5.11 Subcontracting. The contractor shall not subcontract, assign, or transfer the obligation to provide or perform any of the services sought under this contract, with the exception of those subcontractors identified in the prospective contractor's bid, without the prior written consent of the Department.

The contractor will be responsible for the fulfillment of all work elements included in all subcontracts and shall be solely responsible for payment of all monies due under any subcontract. The Department shall not be responsible for any expenses or liabilities incurred under any subcontract.

The contractor shall take all actions necessary to ensure that their employees, subcontractors and other agents are not employees of the State of Florida. Such actions include, but are not limited to, ensuring

that Contractor's employees, subcontractors, and other agents receive benefits and necessary insurance (health, workers' compensations, and unemployment) from an employer other than the State of Florida.

5.12 Transaction Fee. The State of Florida has instituted MyFloridaMarketPlace, a statewide eProcurement System ("System"). Pursuant to section 287.057(22), F.S. (2015), all payments shall be assessed a Transaction Fee established in the DMS Rule 60A-1.031, F.A.C., and any future amendments thereto, which the contractor shall pay the State.

- (a) For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the contractor. If automatic deduction is not possible, the contractor shall pay the Transaction Fee pursuant to Rule 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, contractor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.
- (b) Contractor shall receive a credit for any Transaction Fee paid by the contractor for the purchase of any item(s) if such item(s) are returned to the contractor through no fault, act, or omission of the Contractor. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is rejected or returned, or declined, due to the contractor's failure to perform or comply with specifications or requirements of the agreement.

Failure to comply with these requirements shall constitute grounds for declaring the contractor in default and recovering re-procurement costs from the contractor in addition to all outstanding fees. CONTRACTORS DELINQUENT IN PAYING TRANSACTION FEES MAY BE SUBJECT TO BEING REMOVED FROM THE DEPARTMENT OF MANAGEMENT SERVICES' VENDOR LIST AS PROVIDED IN RULE 60A-1.006, F.A.C.

Location: 1233 Youth Camp Road, Groveland Florida, 34736.

The site is located at 1233 Youth Camp Road Groveland, Florida. The property consists of 5 acres, of which 1 acre is designated wetland. More specifically, the parcel of property is described as:

BEGIN AT NW COR OF SE 1/4 OF NW 1/4, RUN S 89DEG 44 MIN 30 SEC, E 240 FT, S 0DEG 08 MIN 29SEC W 886.44 FT TO N'LY R/W OF COUNTY RD 2503, SW'LY ALONG RD R/W TO A PT S OF POB, N 0DEG 08 MIN 29 SEC 3 970.38 FT TO POB ORB 1037 PGS 1746-1749 ORB 1193 PGS 2349 & 2351.

The waste tires stored/disposed on the property were estimated at approximately 35,000 PTE. The accumulation of the tires consists of two (2) large piles and a smaller pile.

The site is inactive as a tire accumulation point. The waste tires are stored/disposed to the front of the property. The property owner and responsible party homes are located to the rear. Vegetation surrounding the property forms a partial barrier that is inaccessible to vehicular traffic.

- A. Accessibility: The site is accessible from Youth Camp Road. There are two entrances to the property. The second entrance is the preferred entrance for the removal of the tires from the site. There is sufficient area for the trucks/trailers to enter the site and turn around. The ground appears to be stable, and can support large trailers.
- B. Stockpile Characteristics: The waste tires were stored/disposed of on the site since 2014. The waste tires currently form 3 piles. The waste tires appear to be relatively clean except for water in some tires.
- The accumulation contains mainly de-rimmed passenger and light weight truck tires. The tires range in different sizes including passenger and light truck tires and a small quantity of heavy truck tires. Several off - road (tractor) tires were observed onsite. The tires were partially laced and stacked loosely on site.
- C. Estimated Quantity: The accumulation of waste tires was estimated at approximately 35,000 PTE based on surface area and volume estimates made from field measurements. A density of 10 tires/cubic yard was applied to piles. The tires range in size and weight.
- D. Removal Sequence: Removal of the tires can be accomplished in any sequence most advantageous for the contractor.
