

Titusville
(EAST CENTRAL)

The Titusville Readiness Center has existing barbed wire fencing along the rear western perimeter continuing south parallel to White Drive Rd connecting to the facility.

An estimated request of 208 linear ft. (8 ft. high) security barbed wire top chain link fencing with anti-ramming cables will be placed along the perimeter in the same manner as the existing fencing. The existing fencing will be removed. A double swing gate will be placed at the southern entrance/exit point with no more than 2 inch spacing between the bottom of the gate and ground.

NO K12/K8 fencing/gates will be placed at this site.

Titusville

- Current barbed wire chain-link fencing —
- Proposed security barbed wire top chain-link fencing with anti-ramming cables - - -
- Proposed double swing gate —

Proposed security barbed wire chain-link fence and gate with anti-ramming cables (208 linear ft. 8 ft. high)
