Any person with a qualified disability shall not be denied equal access and effective communication regarding any solicitation documents or the attendance at any related meeting or reply/proposal opening. If accommodations are needed because of a disability, please contact the Bureau of Procurement and Contract Administration at least five (5) business days prior to the meeting.

ATTACHMENT A STATEMENT OF SERVICES SOUGHT

I. INTRODUCTION/BACKGROUND

The Department is issuing this ITN to obtain replies from Respondents to provide Juvenile Justice Community Integrated Services (JJCIS) programs designed with a holistic wraparound approach with nearly daily contact, in the county areas identified on the table on page one. These JJCIS programs shall have an emphasis on services as further outlined in this Statement of Services Sought and meeting the minimum requirements of Attachment A-1. JJCIS program youth need to be provided with both the opportunity and the support to develop, achieve, and maintain a lifestyle free of crime and to move into contributing roles in society. The Department desires a JJCIS program that provides youth and families with comprehensive support through a delivery of interventions/services and/or a connection for identified service needs. Supports and interventions (at least one evidence based intervention) shall be arranged in the youth's communities, building on natural supports for those youth. Youth anticipated to participate in this program will be probation, or minimum risk commitment by the court and who are assessed as moderate, moderate-high or high risk to re-offend, as further defined herein.

The two basic needs the Department has identified through research that will make the JJCIS programs more successful are the right individualized interventions and services options, and properly trained, compassionate staff. With those two elements thoroughly developed in a program, and properly implemented components of the desired services as set forth in Section III., Overview of Services Sought, the Department has determined that such a JJCIS program could "turn around the lives of troubled youth".

Based on the quality of the JJCIS programs proposed by Respondents and further negotiated by the Department, the overarching goal is for these youths to receive, and/or be referred for, quality community based services, including, but not limited to: evidence-based and other behavioral interventions (Promising Practices, Practices with Demonstrated Effectiveness), Mental Health and/or Substance Abuse Treatment Services, life and self-sufficiency skills, case management, and coaching during contacts with the youth. A holistic approach that involves addressing key areas of risk in the youth's life is paramount to breaking down barriers and strengthening protective factors. These factors may be related to family, community, education and individual risk factors. The involvement of family and community supports is essential to building success.

Providing a JJCIS service site is desired, but not required if local community sites such as libraries, churches or schools are identified and utilized. Having a transportation system that picks up youth and brings them to interventions and services including, but not limited to, those that are community referrals is required. Experience has demonstrated it is much easier to transport youth from and to the home to ensure effective service delivery.

II. DEFINITIONS

- A. Balanced and Restorative Justice Approach - A philosophy that focuses on repairing harm caused to people and relationships by the criminal/delinquent act(s). Service(s) is delivered in a manner that holds youth accountable for their behavior and fosters a restorative community and culture where staff and youth are encouraged to participate in decision-making, conflict resolution, and community service and awareness activities that build leadership skills.
- B. Chief Probation Officer (CPO) – The Department employee responsible for managing Probation program operations, and staff within each of Florida's twenty (20) judicial circuits.
- C. Community - Positive Achievement Change Tool (C-PACT) – The primary assessment instrument used by the JPO to determine the youth's risk to re-offend and identify criminogenic needs that require intervention. The Pre-Screen is completed and maintained for all youth who are referred to the Department. The Full Assessment is completed and maintained for all youth who have been placed under the jurisdiction of the Department by the court and have been identified as moderate-high or high risk to re-offend by the Pre-Screen.
- D. Criminogenic Needs – Critical factors identified during the assessment process, statistically proven to predict future criminal behavior.
- E. Delinquency Interventions – Those research-proven strategies and tactics that provide delinquent youth with skills, training, and education to appropriately and responsibly respond to environmental, social, and familial triggers previously resulting in delinquent, criminal, and/or anti-social behavior(s). The purpose of implementing a delinquency intervention is to prevent criminal and anti-social behavior, reduce recidivism for those already in the juvenile justice system, and reduce

youth dynamic/changeable risk factors (or criminogenic needs) proven to be the major cause(s) of juvenile criminal behavior.

- F. Diploma Option – Alternative routes to completion of high school education (e.g. GED).
- G. Direct Care Staff – Staff having direct contact with youth for the purpose of providing care, supervision, custody, or control in a detention facility, probation unit, day treatment program or commitment program within any restrictiveness level, operated by the Department or by a provider under contract with the Department.
- H. Effective Response System – A written plan developed in each circuit, in consultation with judges, the local state attorney, and public defenders that describes, in detail, the methodology for responding when youth under supervision violate a condition of their probation. These plans are based upon the principle that sanctions should be based upon the need to ensure public safety, the assessed criminogenic needs and risks of the youth, and how effective the sanction will be in moving the youth to compliant behavior.
- I. Evidence-Based Practice - Treatments and practices independently evaluated and found to reduce the likelihood of recidivism, or at least two criminogenic needs with juvenile offenders. The evaluation must have used sound methodology, including, but not limited to, random assignment, use of control groups, valid and reliable measures, low attrition, and appropriate analysis. Such studies shall provide evidence of statistically significant positive effects of adequate size and duration. In addition, there must be evidence that replication by different implementation teams at different sites is possible with similar positive outcomes.
- J. Gender-Specific/Responsive Services - Services designed to meet the unique needs of males and females including gender identity development, identification of risk and protective factors that hinder pro-social and responsible decision-making, and skills competencies that promote responsible male/female behavior. Gender-specific services may include parenting; health and/or sexual education classes; and communication techniques utilizing a research based approach specific to males and females.
- K. Inactive Status – A youth who is prohibited from attending the JJCIS program and participating in day treatment services due to placement in a Detention Center or jail, or other treatment service (in-patient treatment) program. Youth who fail to attend and for whom a diligent search was conducted shall be considered an absconder once the *Affidavit of Diligent Search* is submitted to the JPO, who will complete the *Affidavit to Take Into Custody* and submit the documentation to the Court for approval.
- L. Intervention – An action taken or facilitated to promote the reduction of a criminogenic need, and may include direct contact with youth, collateral contacts, referrals for services, monitoring progress, and following up with youth and family.
- M. Juvenile Justice Information System (JJIS) – The Department’s electronic information system, used to gather and store information on youth having contact with the Department.
- N. Juvenile Probation Officer (JPO) – An employee of the Department responsible for the intake of youth upon arrest and the supervision of youth on court ordered supervision in the community. The JPO serves as the primary case manager for the purpose of managing, coordinating, and monitoring the services provided and sanctions required for each youth. NOTE: Florida Administrative Code Chapter 63D-8.001(22), defines the JPO as: An employee of the Department responsible for the intake of youth upon arrest and the supervision of youth on court ordered supervision in the community. The JPO serves as the primary case manager for the purpose of managing, coordinating and monitoring the services provided and sanctions required for each youth. In this rule chapter, whenever a reference is made to the objectives and duties of a JPO, it shall also apply to case management staff of a provider agency contracted to perform these duties and objectives. **When the duties of the JPO are part of a contracted service, the JPO will not be responsible for the duties required of a contracted Provider.**
- O. Juvenile Probation Officer Supervisor (JPOS) – An employee of the Department or a contracted provider who provides first line oversight and management of the JPO. The JPOS is responsible for overall direction and guidance of the services provided by the JPO including, but not limited to reviewing the progress of cases, documenting compliance with law and court orders, and approving YES Plans and revisions to YES Plans. **When the duties of the JPOS are part of a contracted service, the JPOS will not be responsible for the duties required of a contracted Provider.**
- P. Minimum-Risk Commitment – Programs or program models at this commitment level work with youth who remain at home, and receive delinquency intervention services at least five days per week at a day treatment program. Youth assessed and classified for programs at this commitment level represent a minimum-risk to themselves and public safety and do not require placement and/or services in a residential setting. Youth in this level have full access to, and reside in, the community.

- Q. Minority Services – Services designed and delivered to address the unique needs of minority youth in a manner that recognizes the factors associated with disproportionate minority contact with the juvenile justice system.
- R. Performance Measures - Particular values (outcomes or outputs) used to measure program performance. They represent the data and information collected at the program level to measure the specific outputs and outcomes a program is designed to achieve.
- S. Practice with Demonstrated Effectiveness - Practices based on general principles, strategies, and modalities reported in criminological, psychological, or other social science research as being effective with a juvenile population. These practices should be outlined in a format that ensures consistent delivery by the facilitator across multiple groups.
- T. Preliminary Screening – The gathering of preliminary information to be used to determine a youth's need for further evaluation or assessment or for referral for other substance abuse services through means such as psychosocial interviews, urine and breathalyzer screenings, and reviews of available educational, delinquency and dependency records of the youth.
- U. Probation – Assessment and intervention services provided to youth who are court-ordered to community supervision after the court has determined that the youth committed a delinquent act.
- V. Promising Practice - Practices that have been evaluated and found to reduce the likelihood of recidivism or at least one criminogenic need with a juvenile offending population. The evaluation must have used sound methodology, including, but not limited to, random assignment or quasi-experimental design, use of control or comparison groups, valid and reliable measures, and appropriate analysis. Such studies shall provide evidence of statistically significant positive effects. In addition, there must be evidence that replication by different implementation teams at different sites is possible with similar positive outcomes.
- W. Referral – A referral occurs when the Department's JPO books a youth in the Probation Resource Booking (PRB) system.
- X. Service Schedule Chart - identifies interventions and services by Circuit directly provided along with services that may be referred out and the community resources to be utilized. The expectation is that services shall occur during day, evening and/or week-end hours based on the needs of each youth and their family.
- Y. Skill-Building - Programs providing instruction, practice, incentives, and other such activities aimed at developing skills that help youth control his/her behavior and participate in normative pro-social functions. The main forms of this are: behavioral programs, cognitive-behavioral interventions, social skills training, and challenge programs.
- Z. Structured Activities - Any activity that allows youth to interact with positive peers, mentors, family members, employment, job search, community service and other approved services which enhance the treatment experience for the youth, as well as enhance the safety of the community.
- AA. Successful Program Completion - Satisfaction of all program services and interventions required to be delivered by the Respondent to the youth includes goals contained on the youth's individualized case plan, court-ordered sanctions, and program participation. Youth achieving his/her goals and meeting program requirements for which the Department loses jurisdiction due to age, may be considered a successful completion.
- BB. System of Care - A comprehensive continuum of delinquency and related services provided in a specific geographic area that incorporate the local community's priorities.
- CC. Trauma-Informed Care - Trauma is the experience of violence and victimization often leading to mental health and other types of co-occurring disorders. This may result from sexual abuse; physical abuse; severe neglect; loss; domestic violence, and/or the witnessing of violence; terrorism; or disaster(s). Trauma-Informed Care services are designed to determine the root cause of delinquency, and mental health/co-occurring disorders, and is based on the premise many youths in the juvenile justice system have experienced trauma(s) associated with abuse, violence, and/or fear.
- DD. Treatment Plan – A written guide that structures the focus of a youth's short-term or ongoing treatment services in the areas of mental health, substance abuse, developmental disability or physical health services.
- EE. Treatment Services – Services delivered by clinicians in accordance with a mental health, substance abuse, physical health, or developmental disability treatment plan. This includes implementation of evidence-based and promising mental health and/or substance abuse practices specifically designed to be delivered by clinicians.

Supports and interventions (at least one evidence-based intervention/promising practice) will be arranged in their own communities building on natural supports for those youth that have multiple intervention and support needs. 8. Supportive Relationships
- a. The Respondent shall recruit, screen, and hire qualified staff that have the knowledge, skills, and abilities to deliver services in accordance with job descriptions AND be dedicated to one on one supportive relationships to program participants. To truly make this philosophy of "passion over paycheck" work, the Respondent shall ensure the JJCIS program is staffed with a sufficient number of staff that can provide services as needed by the youth, to include evening and weekends, with the ability to interact in the youth's home, with the youth's family and others within the youth's community, fully engaging the youth in experiences that motivate the youth for success.

If family involvement can be obtained, it can be critical to the success of the youth, so the parent(s)/guardian(s) must be constantly made aware of opportunities to participate visit, as well as be provided with transportation, babysitting, or any other service that would facilitate contact with their children.
 - b. Family involvement/engagement could be as simple as hosting a family pot-luck dinner or other family activity once a month, and a youth's supportive relationship staff meeting informally with the youth and family at the family's convenience to get to know each other and what each participant brings to the table for the success of the youth.

Such studies should provide evidence of statistically significant positive effects of adequate effect, size,

and duration. In addition, there should be evidence that replication by different implementation teams at different sites is possible with the same positive outcomes. Lists of mental health and/or substance abuse treatments and programs meeting criteria to classify them as evidence-based or promising are available in a number of publications and websites. Some of these sites, including the Substance Abuse and Mental Health Services Administration (SAMHSA) and National Institute on Drug Abuse (NIDA), offer free curricula that are evidence-based treatments.

has been fully implemented. The Department will determine the Respondent's outcome standard annually.

1. **GOAL:** 100% of youth released from the Program will not receive Offense During Service (ODS).
MEASURE: This percentage is calculated by dividing the number of youth that did not receive ODS by the total number of youth released. ODS is defined as any new law offense that occurred during placement and resulted in adjudication or adjudication withheld. The Comprehensive Accountability Report (CAR) includes the percentage of youth that did receive ODS, therefore this measure is the reverse of what is published in the CAR.
MINIMUM STANDARD: The percentage of youth released from the Program that shall not receive ODS shall be at or above the last CAR of similarly classified services (greater or lesser depending on the measure).
2. **GOAL:** 100% of youth will not recidivate within one year of Program completion.
MEASURE: This percentage is calculated by dividing the number of youth that did not recidivate by the total number of youth that completed Program services. Recidivism is defined as an offense that occurs within twelve (12) months of program completion that results in an adjudication, adjudication withheld, or an adult conviction for any new violation of law. The CAR includes the percentage of Program completions that did recidivate, so therefore this measure is the reverse of what is published in the CAR.
MINIMUM STANDARD: The percentage of youth that shall not recidivate within one year of Program completion shall be at or above the last CAR of similarly classified services (greater or lesser depending on the measure)

2. A debriefing meeting of the evaluators will be held in accordance with the Attachment B, Section IV., G., to review the results of the evaluation of the written replies.
3. The Procurement Manager will total the scores for the Written Narrative Reply for an overall total score for written replies.
4. Based on the total maximum points scored for the Written Narrative Reply, the Procurement Manager will determine a ranking of Respondents, with the Respondent scoring the highest cumulative points receiving a ranking of "1", the second highest a ranking of "2", etc. This ranking will be posted on the Vendor Bid System.
5. Using the rankings from the written evaluations, the Evaluation team will determine the number of Respondents to move forward for Negotiations.
6. Notification will be provided electronically to the Respondents selected for Negotiations via e-mail from the Procurement Manager.

D. NEGOTIATION PROCESS

1. Public Meetings

- a. Negotiation meetings between the Department and Respondents are not open to the public, as per the exemption provided by 286.0113(2)(a), F.S., unless otherwise stated in the Calendar of Events (Attachment B, Section IV.,).

- b. Negotiation strategy meetings of the Department's Negotiation team are exempted by 286.0113(2)(a), F.S.
 - c. The Department will record all meetings of the Department's evaluation/negotiation team.
2. History of Performance
- a. For Respondents selected to move forward to Negotiations and that have a current contract with the Department, the Negotiation team will be provided with information regarding the Respondent's performance on all contracts with DJJ during the preceding eighteen (18) months from the date of the Evaluator Briefing (see Calendar of Events in Attachment B, section IV., B.). If a new DJJ Provider has a contract executed with the Department after the Evaluator Briefing, that contract's performance will also be shared with the Negotiation team.
 - b. The Respondent shall provide its history of performance of similar services in other jurisdictions outside of Florida (i.e., a list of all other programs the Respondent has operated).
 - c. Respondents not holding contracts with the Department and/or providing similar services inside and/or outside the State of Florida will be requested to provide a client list for the preceding eighteen (18) months from the date of the Evaluator Briefing. Contact information for each client listed shall be provided in the event the Department elects to contact the client regarding the Respondent's contract performance.
 - d. The Negotiation team may choose to discuss the contract performance and/or the programs outside Florida with the Respondent at negotiations. The Respondent should be prepared to review its history of performance and any subsequent corrective action(s) with the Negotiation team, demonstrating how issues were corrected, how improvements were sustained, and how similar issues would be mitigated in the future in the new program being proposed for this ITN.
 - e. The Negotiation team will use the Respondent's information and/or discussion during negotiation(s) when completing the Quality Improvement, Responsivity, and Sustainability component of the Comparative Analysis Tool (Attachment J), which is used to determine which Respondent moves forward to the Memorandum of Negotiation.
3. Supplemental Request(s)
Additional documentation may be requested from Respondents prior to Negotiations.
4. First Round of Negotiations
The first round of Negotiations will begin with a presentation from the Respondent. The presentation will address the components listed in Attachment B, section XX., F., at a minimum.
- a. Presentations are not scored.
 - b. The Respondent is required to use their own computer and audio-visual equipment to conduct the presentation. The Department will provide a screen or other appropriate material for the viewing of the presentation.
 - c. The Respondent may not bring more than six individuals to the Negotiation session.
 - d. At the conclusion of all Negotiations, the team will determine which Respondent(s) can successfully move forward to the next step in the ITN process.
 - e. Failure of a Respondent to attend the Negotiation session on their assigned date/time without providing prior communication to the procurement manager will result in the reply being considered incomplete and not considered in the process for further consideration.
 - f. The Department reserves the right to expand the Negotiations to include additional ranked Respondents or change the method of negotiation [e.g., concurrent versus by order of ranking], if it determines that to do either would be in the best interest of the State.
5. Second Round of Negotiations
- a. If the Negotiation Team determines a second round of negotiations is necessary, the team will determine which Respondent(s) will move forward to the second round.
 - b. A presentation is not required for a second round of negotiations.
6. Negotiation Guidelines
- a. During the negotiation meeting with each Respondent, the negotiating team will establish rules and procedures for the negotiation sessions and accomplish other administrative tasks pertaining to the negotiations, as needed.

- b. The team must reach consensus (general agreement) during meetings where decisions are made; however, in the event consensus is lacking the decision can be made using a majority-rules approach.
- c. The Department reserves the right to require Respondents to submit a supplemental reply, make presentations, or other submission during the negotiation period.
- d. The negotiation process is intended to enable the Department to determine whether and with whom it will contract and to establish the principle terms and conditions of such contract. There will be additional negotiations to finalize all terms and conditions of the contract after a notice of selection is posted.
- e. Additional negotiation meetings may be scheduled in order to further discuss, define, or document desired services, price, terms, and conditions. Supplemental replies may be requested.
- f. In its sole discretion, the Department shall determine whether to hold additional negotiation sessions and with which Respondent(s) it will negotiate.

E. FINAL SELECTION AND NOTICE OF INTENT TO AWARD CONTRACT

1. Comparative Analysis Tool
The Negotiation Team will use the Comparative Analysis Tool (included with this ITN as Attachment J) to document its recommendation/best value determination. This tool is only used if the team has moved two or more Respondents forward during the appropriate Debriefing session (see Attachment B., section IV., G.)
2. Score Calculation for Team Recommendation for Award
The Department will weigh the total scores as follows for each category: Comparative Analysis Tool score weighted at 75%, and the Written Reply score weighted at 25%. The Respondent's scores for each of these categories will be divided by the maximum possible points for each category, to arrive at the percentage of possible points per category. Then, the percentage of possible points per category will be multiplied by the appropriate weighted category percentage as stated above.
3. Department's Negotiation Team Recommendation
The Department's Negotiation Team will develop a recommendation as to the Contract award that will provide the best value to the State. In so doing, the Negotiation Team is not required to award to the highest-ranking Respondent(s) for negotiations, but will base its award recommendation on the Respondent with the highest weighted score (see section E., 2., above) and a Department-approved site location. The recommendation / best value determination of the Negotiation team shall serve as a recommendation only.
4. Award Selection
The Department will select for award of the Contract the responsive and responsible Respondent as determined by the Secretary, or his or her designee, to provide the best value to the State.
5. Department's Right to Rely on Submitted Information

7. Secretary's Disapproval
In the event the Secretary, or his or her designee, does not approve the team's recommended award, the disapproval will be documented in writing. The Department may then take the appropriate action including, but not limited to:
 - a. Attempt to contract with the next Respondent without posting of an additional Notice of Agency Decision or Addendum;
 - 1) If the Department and a previous Respondent fail to execute a Contract, the Department may (1) attempt to contract with another previous Respondent sequentially until a Respondent willing to execute a Contract is found without posting of an additional Notice of Agency Decision or Addendum; (2) reject all replies and re-advertise the ITN; (3) reject all replies; or (4) withdraw (cancel) the ITN.

- b. Reject all replies and re-advertise the ITN;
 - c. Reject all replies; or,
 - d. Withdraw (cancel) the ITN for any reason the Department deems appropriate.
8. Posting Notice of Award
 On or about the date specified in the Calendar of Events (Section IV. B.), the Department's Notice of Agency Decision will be posted on the "MyFlorida" website http://www.myflorida.com/apps/vbs/vbs_main_menu. Click on "Search Advertisements," and use the drop-down list to select the Department of Juvenile Justice. Click "Initiate Search," select the ITN and double click on the ITN number. Call the Department's Procurement Manager at the telephone number listed in Attachment B, Section III, if you have any questions regarding accessing the website. Respondents are advised to review the web site for any schedule changes.
9. Negotiations After Notice of Award
- a. The Department reserves the right to schedule additional contract finalization/negotiation sessions with the Respondent(s) identified in the posting of a Notice of Award in order to establish final terms and conditions for the Contract with the Respondent(s).
 - b. The Department reserves the right to reopen negotiations with the other Respondent(s) if the Department is unable to reach an agreement with the awarded Respondent(s), without having to post another Notice of Award.
10. Timeliness of Contract Execution
 Once the Department has provided a Contract to the awarded Respondent for signature, the awarded Respondent must return the signed Contract, and all applicable attachments, within fifteen (15) days or the Department reserves the right to withdraw the Contract award and begin steps as outlined in section 7., above. The Department may waive this requirement if it is in the best interest of the State.
11. Re-Open Solicitation due to Unsuccessful Contract Performance
 The Department may re-open a solicitation if the awarded Respondent who executed a contract with the Department fails to successfully perform the required services within the first twelve (12) months of the contract. The Department will contact the Respondent(s) who last participated in negotiations (and who is not the awarded Respondent who failed to perform) and determine if they are able/agreeable to re-opening negotiations with the Department for the desired services.
