RESPONDENT COMPARATIVE ANALYSIS TOOL					
ITN 10573 - Facility Based Day Treatment services in County/Circuit _____					
<p>INSTRUCTIONS: Negotiation Team members should, through group consensus, rank the Respondent's proposed program services based on the following categories, taking into consideration the initial written responses and Negotiations and any changes to the initial response negotiated and set forth in the Respondent's Memorandum of Negotiation (MON). For each CATEGORY, ranking the Respondent either 1 or 2 (2 being the best), comparing one Respondent's proposed program services against the other Respondent, to determine which Respondent's response provides the best overall value to the Department (Ranking # 1), as evidenced by the highest score and consensus of the Team. This tool will be modified based on the number of Respondent's remaining at this point in the process. If the team is unable to reach group consensus, the lead can elect to use a majority-rules approach to determine the raw score for the component.</p> <p>*The Total will be multiplied by the total number of Respondent's included in the Comparative Analysis (i.e., two Respondent's being compared = 300 points x 2 Respondent's = 600 max points available)</p>
