- 7.3 The Vendor or any of its operators or employees will not provide any gratuities, commissions, kick-backs or complimentary services of any kind to any officials, officers, employees, consultants or agents that are involved with activating and/or running RISC.
- 7.4 Vendor agrees to provide copies of their itemized invoice to the Department for review and use.
- 7.5 Vendor must take digital photographs both prior to and subsequent to scene cleanup. Photos must be detailed in showing lane blockage and affected traffic from the incident scene. Copies of all photos taken are to be provided to the FDOT Project Manager at the same time the invoice is submitted. Electronic copies are acceptable. Vendor is to retain all originals.

8. RECOVERY AREAS

- 8.1 The Department may review the recovery area boundaries periodically to ensure that level of service in each area is consistent with the quick clearance goals stated in the Open Roads Policy.
- 8.2 Recovery wrecker companies need not be located within the area boundaries, but they must mobilize and respond to calls within the indicated response time.
- 8.3 This agreement covers Rapid Incident Scene Clearance by the Vendor for those segments of the following limited access highways, interchanges, ramps, and other roadways identified within the jurisdiction and operational control of the Department and agreed to by the Vendor. Other areas in and outside the District boundaries may be added at any time as the need arises and/or in order to coordinate RISC response with other districts.

- 8.4 From the roadway described in 8.3, the Vendor has selected to provide services for those areas described in Exhibit "C". The FDOT representative can allow additional response time (arrival to scene with all 3 pieces of contract required equipment, i.e., two wreckers and support vehicle) for a vendor who is responding to a RISC activation outside of his originally contracted area.
- 8.5 Coverage areas may be negotiated with the Vendor. If a Vendor cannot meet all of the areas or can cover a wider/different range other than what is specified, the Department may negotiate different coverage areas with that Vendor. The Department may also negotiate a new/different coverage area with a Vendor after the contract is awarded. Once a new/different area is accepted by the Department, the Vendor will receive email notification. These areas may exceed the District boundaries.
- 8.6 If an incident occurs and no vendors assigned that area are available, the Department may contact a RISC contractor outside of that area and ask them to respond and grant an addition to the normal response time.
