Question / [Answer](#)

- 1. Under section IX. Cost Sharing (Matching) Requirements, the last sentence states "Awardees will only be reimbursed up to the amount of match submitted with request". It seems as though the sentence means awardees would only be reimbursed up to the matched amount to a maximum of \$10,000. Is this correct and could you clarify?**

Applicants under this program may receive up to \$50,000 dollars but are required to provide match valued at 20% of the grant award. The last sentence of section IX. is saying that the amount of the reimbursement is contingent upon the amount of match documented by the recipient. For example, if an applicant were awarded a grant of \$50,000 but then only provided documentation for \$5,000 of match in the reimbursement request, the recipient's total reimbursement would be reduced to \$25,000. The reimbursement would be reduced to keep the match worth 20% of the grant funds (in this example, \$5,000 match would be eligible for \$25,000 of grant funds).
