Addendum #2

ADVERTISEMENT NUMBER: DOT-RFP-20-5004-EOC
DESCRIPTION: District Wide Emergency Management Support Services
DATE: February 28, 2020

You are hereby notified that the above referenced Request for Proposal (RFP) is modified as noted below:

Questions number 1 and 26 from "Questions and Answers" (posted on February 25, 2020) are clarified as follows:

1. Due to the unique roles and staffing requirements of a traditional debris monitoring activation, RFPs for debris monitoring services typically include multiple hourly rates (i.e. Project Manager, Field Supervisor, Debris Collection Monitor, Site/Tower Monitor, Data Manager, etc.). Does FDOT intend to utilize this contract for debris monitoring of FDOT's debris removal contractors?

Answer: No, but depending on the magnitude of the event, District Five may request assistance under this contract.

26. The Exhibit A section for Inspectors/Monitors appears to include language that would allow the vendor to function as a debris removal monitor. Is it the District's intent to utilize the vendor for typical debris monitoring activities or does the District have a separate debris monitoring contract?

Answer: District Five has separate debris monitoring contracts but may request assistance under this contract, depending on the magnitude of the event.
