INDEPENDENT AUDITORS' REPORT

Board of Directors
Mater Academy Charter Middle School
(A Charter School Under Mater Academy, Inc.)
Hialeah Gardens, Florida

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Mater Academy Charter Middle School, (A Charter School Under Mater Academy, Inc.), (the "School") a component unit of the District School Board of Miami-Dade County, as of, and for the year ended June 30, 2007, which collectively comprise the School's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School's management. Our responsibility is to express an opinion on these financial statements based on our audit.

BREVARD OFFICE
8035 Spyglass Hill Rd.
Melbourne, FL 32940
phone 321-757-2020
fax 321-242-4844

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

ORLANDO OFFICE

As described in Note A-1, the accompanying financial statements referred to above present only the financial position of Mater Academy Charter Middle School at June 30, 2007, and the changes in financial position for the year then ended, and is not intended to be a complete presentation of the Charterholder.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Mater Academy Charter Middle School, as of June 30, 2007, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 29, 2007 on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis and the budgetary comparison information, as listed in the table of contents, are not a required part of the financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on them.

Management's Discussion and Analysis

The corporate officers of the Mater Academy Charter Middle School (the "School") have prepared this narrative overview and analysis of the School's financial activities for the fiscal year ended June 30, 2007.

Financial Highlights

- The assets of the School exceeded its liabilities at June 30, 2007 by \$4,515,049 (net assets).
- At year-end, the School had current assets on hand of \$3,653,134.
- The net assets of the School increased by \$1,118,105 during the year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the School's financial statements. The School's financial statements for the year ended June 30, 2007 are presented under GASB 34. The financial statements have three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the School's assets and liabilities. The difference between the two is reported as *net assets*. Over time, increases or decreases in net assets may serve as an indicator of whether the financial position of the School is improving or deteriorating.

The statement of activities presents information on how the School's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event occurs without regard to the timing of related cash flows. Accordingly, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on pages 8 - 9 of this report.

Fund financial statements. A fund is a collection of related accounts grouped to maintain control over resources that have been segregated for specific activities, projects, or objectives. The School, like other state and local governments uses fund accounting to ensure and report compliance with finance-related legal requirements.

All of the funds of the School are governmental funds. *Government Funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Government Fund financial statements, however, focus on *near-term* inflows and outflows of spendable resources, as well as on the balances of spendable resources which are available at the end of the fiscal year. Such information may be used to evaluate a government's requirements for near-term financing.

The Board of the School adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with the School's budget.

The governmental fund financial statements can be found on pages 10 - 13 of this report.

Notes to the financial statements. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 14 - 24 of this report.

Government-Wide Financial Analysis

Assets exceeded liabilities by \$4,515,049, at the close of the fiscal year. As noted earlier, net assets may serve over time as a useful indicator of a charter school's financial position. A summary of the School's assets as of June 30, 2007 and 2006 follows:

	<u>2007</u>	<u>2006</u>
Cash	\$ 3,211,110	\$ 2,234,933
Accounts receivable	-	185

Increase in net assets	1,118,105	1,166,561
Net assets at beginning of year	<u>3,396,944</u>	<u>2,230,383</u>
Net assets at end of year	<u>\$ 4,515,049</u>	<u>\$ 3,396,944</u>

Mater Academy Charter Middle School's revenue increased by \$448,782 in the current year primarily due to an increase in capital outlay and food service revenue, which was allocated from Mater Academy Charter High. The School also had an increase in expenses for the year of \$497,238. The largest increase in expenses were due to basic instruction due to salary increases to match the Districts salary scale. Also, the food service costs were allocated from the charter school for which they share a facility. The financial position of the School has improved during the current year. In addition, the School increased its cash by \$976,177 and had a large increase in Capital Assets. The School had an increase in its net assets (change in net assets) of \$1,118,105 for the year.

Lease of Facility

The School leases a facility located at 7901 NW 103rd Street, Hialeah Gardens, Florida 33016.

Articulation Agreement

The School entered into a Sponsor-approved Articulation Agreement with the Mater Academy Charter Middle School. This Agreement gives enrollment preference to students enrolling at the Charter High School who complete their course of education in the eighth grade of the Middle School Program. The Charter High School is the only High School (public or private) currently located within the city of Hialeah Gardens.

Capital Improvement Requirements

The School maintains a continuous capital improvements program to enhance facilities and update fixtures and equipment as required.

Accomplishments

In 2007, Mater Academy Middle School earned a letter grade of "B", and ranked within the top 40% of public middle schools in Miami-Dade County, based on the points it received under the State of Florida Accountability Program. Serving predominantly minority students from low-income families, Mater Academy Middle School's rigorous curriculum prepares students for Advanced Academic Placement before entering high school. The School is recognized and accredited by the Southern Association of Colleges and Schools.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUND

As noted earlier, the School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the School's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the School's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the School's governmental fund reported a fund balance of \$3,295,554.

Capital Assets

The School's investment in capital assets as of June 30, 2007 amounts to \$1,238,155 (net of accumulated depreciation). This investment in capital assets include furniture, fixtures, computer equipment, educational materials, audio visual equipment, and computer software.

General Fund Budget Analysis and Highlights

Prior to the start of the School's fiscal year, the Board of the Charter School adopted an annual budget. During the year there was approximately a \$607,526 decrease in appropriations from the original to final amended budget. The decrease was due mainly to an expected decrease in student enrollment.

Request for Information

This financial report is intended to provide a general overview of the finances of the Charter School. Requests for additional information may be addressed to Ms. Ana Martinez at Academica Dade, LLC 6255 Bird Road, Miami, Florida 33155.

TO THE STATEMENT OF ACTIVITIES**

For the year ended June 30, 2007

Net change in fund balances - total government funds	\$ 1,015,330

The change in net assets reported for governmental activities in the statement of activities is different because:

Governmental funds report fixed capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt.	7,595

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	(18,043)

NOTES TO FINANCIAL STATEMENTS

June 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Reporting Entity

Mater Academy Charter Middle School (the "School") is a charter school under Mater Academy, Inc., which is a not-for-profit corporation organized in the State of Florida. The School is located in Hialeah Gardens, Florida serving children from sixth through eighth grade. The governing body of the School is the Board of Directors (the "Board"), which is composed of four members. The financial information presented is that of Mater Academy Charter High School only.

The general operating authority of the School is contained in Section 1002.33, Florida Statutes. The School operates under a charter granted by the sponsoring district, the District School Board of Miami-Dade County (the "District"). The current charter is effective until June 30, 2013 and may be renewed for an additional 15 years by mutual written agreement between the School and the District. During the term of the charter, the District may also terminate the charter if good cause is shown. The School is considered a component unit of such District. Mater Academy Charter Middle School is funded by the District and in addition, receives government grants.

These financial statements are for the year ended June 30, 2007, when 1,060 students were enrolled for the school year.

2. Government-wide and fund financial statements

The government-wide financial statements consist of a statement of net assets and a statement of activities. These statements report information on all of the nonfiduciary activities of the School. As part of the consolidation process, all interfund activities are eliminated from these statements. Both statements report only governmental activities as the School does not engage in any business type activities.

Net assets, the difference between assets and liabilities, as presented in the statement of net assets, are subdivided into three categories: amounts invested in capital assets; restricted net assets; and unrestricted net assets. Net assets are reported as restricted when constraints are imposed on the use of the amounts either externally by creditors, grantors, contributors, or laws or regulations of other governments, or enabling legislation.

The statement of activities presents a comparison between the direct and indirect expenses of a given function and its program revenues, and displays the extent to which each function contributes to the change in net assets for the fiscal year. Direct expenses are those that are clearly identifiable to a specific function. Indirect expenses are costs the School has allocated to various functions. Program revenues consist of charges for services, operating grants and contributions, and capital grants and contributions.

NOTES TO FINANCIAL STATEMENTS

June 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2. Government-wide and fund financial statements (continued)

Charges for services refer to amounts received from those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. Grants and contributions consist of revenues that are restricted to meeting the operational or capital requirements of a particular function. Revenues not classified as program revenues are reported as general revenues.

Separate fund financial statements report detailed information about the School's governmental funds. The focus of the governmental fund financial statements is on major funds. Therefore, major funds are reported in separate columns on the fund financial statements. Two of the School's funds were deemed to be major funds. A reconciliation is provided that converts the results of governmental fund accounting to the government-wide presentation.

3. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the period earned and expenses are recognized when a liability is incurred.

All governmental fund financial statements are reported using a current financial resources measurement focus on a modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues, except for certain grant revenues, are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, considered to be sixty days. Agency funds have no measurement focus. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for federal, state, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recorded when the related fund liability is incurred. However, principal and interest on general long-term debt is recorded as expenditures only when payment is due.

The School's financial statements have been prepared in accordance with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. Accordingly, the financial statements are organized on the basis of funds. A fund is an accounting entity having a self-balancing set of accounts for recording assets, liabilities, fund equity, revenues, expenditures, and other financing sources and uses.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3. Measurement focus, basis of accounting and financial statement presentation (continued)

Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled. The School reports the following major governmental funds:

General Fund - the general operating fund of the School. It is used to account for all financial resources not required to be accounted for in another fund.

Capital Outlay Fund - in accordance with guidelines established by the School District of Miami-Dade County, Florida, this fund accounts for all resources for the leasing or acquisition of capital facilities by the School to the extent funded by capital outlay funds.

When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first, then unrestricted resources as they are needed.

4. Cash and cash equivalents

Cash and cash equivalents include all highly liquid investments with a maturity of three months or less.

5. Due from other governments or agencies

Amounts due to the School by other governments or agencies are for grants or programs under which the services have been provided by the School. The School's management determined that 100% of receivables are fully collectible.

6. Interfund receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds.

Transfers are used to move unrestricted general fund revenues to finance programs (i.e. national school lunch program) that the government must account for in other funds.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

7. Capital assets, depreciation and amortization

Capital assets are reported in the applicable governmental columns on the government-wide financial statements. Capital assets are defined by the School as assets with an initial individual cost of more than \$500 and an estimated useful life of more than two years. Such assets are recorded at historical cost. Donated capital assets are recorded at their estimated fair market values at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the School are depreciated using the straight-line method over the following estimated useful lives:

Furniture, equipment and educational materials	5
Computer software	3
Audio visual materials	3

8. Revenue sources

Revenues for current operations are received primarily from the State of Florida passed through the District to the School pursuant to the funding provisions included in the School's charter. In accordance with the funding provisions of the charter and Section 1002.33(18), Florida Statutes, the School reports the number of full-time equivalent (FTE) students and related data to the District. Under the provisions of Section 1011.62, Florida Statutes, the District reports the number of FTE students and related data to the Florida Department of Education (FDOE) for funding through the Florida Education Finance Program. Funding for the School is adjusted during the year to reflect revised calculations by the FDOE under the Florida Education Finance Program and actual weighted FTE students reported by the School during designated FTE student survey periods.

The School receives federal awards for the enhancement of various educational programs. This assistance is generally based on applications submitted to and approved by various granting agencies. These federal awards may have requirements whereby the issuance of grant funds is withheld until qualifying expenditures are incurred. Revenues for these awards are recognized only to the extent that eligible expenditures have been incurred. Additionally, other revenues may be derived from various fundraising activities and certain other programs.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

9. Compensated absences

The School grants a specific number of days of sick/personal leave to its employees. Full time instructional employees are eligible for one day per month up to ten days of active work during the ten month period. Employees and administrators wishing to carry forward unused sick/personal days, at year-end, may do so. An employee can cash out their sick/personal pay if they have used three days or less in that school year. The employees cannot cash out more than ten days per school year and are required to always maintain a minimum of ten days unused sick/personal days. The cash out value is eighty percent of their daily rate.

10. Use of estimates

The process of preparing financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE B - CASH AND CASH EQUIVALENTS

Custodial credit risk – Custodial credit risk is the risk that in the event of bank failure, the School's deposits may not be returned to it. The School mitigates the custodial risk for deposits by only doing business with large national banks. At June 30, 2007, the School had a bank balance of \$232,120. Of the bank balance, \$132,120 was not insured by the federal deposit insurance.

Interest rate risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments with longer maturities have greater sensitivity to changes in market interest rates. The School does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rate.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Maturity Date less than one month</u>
Repurchase agreement	<u>\$ 3,212,000</u>	<u>\$ 3,212,000</u>

NOTE C - INCOME TAXES

The School is a charter school under Mater Academy, Inc., which qualifies as a tax-exempt organization under Internal Revenue Code Section 501(c)(3), and is, therefore, exempt from income tax. Accordingly, no tax provision has been made in the accompanying financial statements.

NOTE H - COMMITMENTS AND CONTINGENCIES

1. Management services contract

The School has entered into an agreement with Academica Dade, LLC, a professional charter school management company, to provide management and administrative services to the School. In providing management services to the School, officers of the management company may not serve as members of the Board of Directors of a school. The contract calls for a fee of \$450 per student per year and expires June 30, 2009, with an option to renew by the School. During the year ended June 30, 2007, the School incurred \$477,000 in management fees, of which no amounts were due to the management company at year end.

2. Operating leases

The School entered into an amended lease agreement with School Development H G II, LLC, as landlord, on April 2004 for its main campus which is shared with another charter school under Mater Academy, Inc. The payments for this lease are allocated 42%, or \$1,003,275 to the School and 58% to the other charter school. Annual total payments for all schools are approximately \$2,388,750 (\$19.91 per square foot, for 120,000 square feet) adjusted annually based on the Consumer Price Index (CPI) and continue through August 2024 with an option to renew for an additional five-year term.

The School entered into a lease agreement with Duke School Properties, LLC, as landlord, for an additional building where the School is located. Terms of the lease are to pay \$23.75 per square foot, for 33,600 square feet. The payments for this lease are allocated 42% to the School and 58% to the other charter school. Annual payments total payments for all schools are approximately \$791,137 adjusted annually based on the Consumer Price Index (CPI) and continue through August 2026 with an option to renew for an additional five-year term. The lease payments commenced May 2007. Rent payments for the year ended June 30, 2007 totaled \$55,380.

Under the term of the lease agreements, all lease payments due under the agreement are secured by pledged revenues and all fixed assets.

NOTE I - RELATED PARTY TRANSACTIONS

The Board believes that it is independent of the management company and is not influenced by the management company in its decision-making if the Board feels it is not in the best interest of the School. Nonetheless, the School provides the information set forth in items 1 and 2 below.

1. Management service contract

The management company, Academica Dade, LLC provides oversight and management services based on a contractual arrangement with the School. In its capacity as the management company, Academica Dade, LLC manages the finances and operations and makes recommendations to the school's independent board of directors which makes the final determinations regarding policies and contracts. Management fees total \$477,000 for the year ending June 30, 2007.

2. Operating lease

School Development H G II, LLC and Duke Schools Properties, LLC owns property which is leased to the School. Presently, members of each of these companies are also stockholders of the Company which is the sole owner of Academica Dade, LLC, which manages the School (see Note H). Total rent payments charged to the School under these leases amounts to \$1,058,655. A rent payment in the amount of \$95,550 is included as a prepaid expense on the statement of net assets and balance sheet. The lease does not contain any provision as to the management of the School.

NOTE A - BASIS OF ACCOUNTING

1. Budgetary basis

The School's annual budget is adopted for the entire operations at the combined governmental level and may be amended by the Board. Since the budgetary basis differs from generally accepted accounting principles ("GAAP"), budget and actual amounts in the accompanying required supplementary information are presented on the budgetary basis. A reconciliation to excess (deficiency) of revenues over (under) expenditures presented in conformity with generally accepted accounting principles is set forth in the adjustments to the required supplementary information. The budget presented for the year ended June 30, 2007 has been amended according to Board procedures. During the fiscal year, expenditures were controlled at the object level.

Although budgets are adopted for the entire operation, budgetary comparisons have been presented for the general fund and each major special revenue fund for which a legally adopted budget exists.

Board of Directors
Mater Academy Charter Middle School
(A Charter School Under Mater Academy, Inc.)
Hialeah Gardens, Florida

We have audited the financial statements of governmental activities, each major fund, and the aggregate remaining fund information of Mater Academy Charter Middle, (A Charter School Under Mater Academy, Inc.), (the "School") a component unit of the District School Board of Miami-Dade County, as of and for the year ended June 30, 2007, which collectively comprise the School's basic financial statements and have issued our report thereon dated August 29, 2007. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the School's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the School's financial statements is more than inconsequential will not be prevented or detected by the School's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Mater Academy Charter Middle's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mater Academy Charter Middle's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported in the management letter dated August 29, 2007.

Mater Academy Charter Middle's response to our findings identified in our audit is described in the accompanying letter of management response. We did not audit Mater Academy Charter Middle's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, State of Florida Office of the Auditor General, regulatory agencies of federal and state governments, and the District School Board of Miami-Dade County and is not intended to be and should not be used by anyone other than these specified parties.

PREDECESSORS AUDITORS' FINDINGS

Transactions with affiliated entities

Transactions with affiliated entities were noted. Certain board members and employees of the School serve as board members of other schools.

Repeated in current year.

Post-date checks

Several checks that had been recorded in the general ledger but not posted to the bank reconciliation.

Finding was corrected for the year ended June 30, 2007.

Current Year Recommendations to Improve Financial Management, Accounting Procedures and Internal Control

07-1 Budgetary comparison

Criteria: Governmental accounting standards require a government to present a budgetary comparison for the general fund and each major special revenue fund for which a budget is legally adopted.

Condition: The School's operating budget does not segregate the School's general fund from its major special revenue funds (i.e. capital outlay). The budget is prepared on a full accrual basis of accounting, instead of modified accrual, therefore, capital expenditures are not budgeted.

Questioned cost: N/A

Cause: Management of the School was not aware of this reporting requirement.

Effect: The School is not in accordance with Government Accounting Standards which require the budgetary comparison be presented on the modified accrual basis of accounting.

Auditors' recommendation: Management should prepare a preliminary and amended budget for each general and major special revenue fund.

07-2 Financial and Program Cost Accounting and Reporting for Florida Schools

Criteria: The School's charter agreement with the District School Board of Miami-Dade County requires in Part IV, A, (6), that the School "utilize the state codification of accounts as contained in the Financial and Program Cost Accounting and Reporting for Florida Schools" (Redbook).

Condition: The School does not report its revenues and expenditures by fund in accordance with the Redbook. Although, the School maintains separate cash accounts for most of its special revenue, Title I - Reading Leader salaries were paid from the operating account.

Questioned cost: N/A

Cause: Management of the School was not aware of this reporting requirement.

Effect: Expenditures related to restricted revenue were incorrectly reported in the general fund instead of a special revenue fund.

Auditors' recommendation: Management of the School should account for its special revenue funds separately from its general fund.

Current Year Recommendations to Improve Financial Management, Accounting Procedures and Internal Control (continued)

07-3 Prepaid rent

Criteria: Under the accrual basis of accounting, rent paid in advance should be classified as a prepaid expense.

Condition: Prepaid rent is maintained as an offset to accounts payable.

Questioned cost: N/A

Cause: Management failed to make an entry at year end to reclass the payment or supply the auditors with reclassification.

Effect: Accounts payable and prepaid expenses was understated by approximately \$95,500.

Auditors' recommendation: Management performs a reconciliation of each balance sheet account to ensure year end adjustments are made timely.

07-4 Deposits

Criteria: Under the accrual basis on accounting, deposits made after year end but applicable to the current fiscal year should be recorded as a receivable.

Condition: Reimbursements for salaries from affiliated schools of approximately \$70,173 were not recorded as a receivable.

Questioned cost: N/A

Cause: Management failed to reconcile bank deposits to their correct general ledger period.

Effect: Expenses were overstated by approximately \$70,173.

Auditors' recommendation: Management reconcile deposits recorded to the period for which they apply.
