Management Responses to Audit Findings and Auditor Generals Letter for FY 06/07

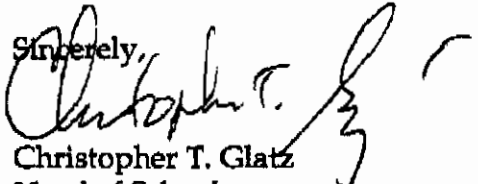

**06-1 Screening Requirements:**

Procedures for eligibility for board positions will include background screening results prior to board vote as well as affirming all requirements to prevent conflict of interest and or financial benefit by serving on the board. Management Company will coordinate and ensure integrity of the process.

**06-4 Student Attendance:**

We have implemented a checks and balance system having the school administrator perform spot checks of the attendance reporting to ensure compliance with set policy. Furthermore, we have conducted re-enforcement training on both policy and procedure for the office staff concerning the proper reporting of student attendance.

If you have any further questions please feel free to contact us at any time.

Sincerely,  
  
Christopher T. Glatz  
Head of Schools
