Independent Auditors' Report

The Board of Directors
Indian River Charter High School, Inc.:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Indian River Charter High School, Inc., a component unit of the Indian River County District School Board, as of and for the year ended June 30, 2009, which collectively comprise the School's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Indian River Charter High School, Inc., as of June 30, 2009, and the respective changes in financial position, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 17, 2009 on our consideration of the Indian River Charter High School, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and the required supplementary information other than management's discussion and analysis on pages 2 through 7 and page 23, respectively, are not a required part of the basic financial statements but are supplementary information required by the Governmental Auditing Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Management's Discussion and Analysis

This section of the Indian River Charter High School, Inc.'s (the School) annual financial report presents our discussion and analysis of the School's financial performance during the fiscal year that ended on June 30, 2009. Please read it in conjunction with the School's basic financial statements, which immediately follow this section.

Financial Highlights

The composition of the School's financial condition remained steady as a result of sound management. The School continues to grow and expand.

The 2008-2009 school year was a challenge financially for Indian River Charter High School due to the economic downturn that our country experienced. The downturn affected all areas of education and resulted in heavy budget cuts in state revenues. Due to these budget cuts and a small reduction in the school population, from the 622 during the 2007-2008 school year to the 615 during the 2008-2009 school year, the School's net assets decreased by \$52. This is in contrast to the 2007-2008 school year, which experienced an increase in funds of \$342,807. The change in the two years is primarily due to the reduction in funds received through the per student basis (FTE) revenues. The School received \$424,110 less in funds for the 2008-2009 fiscal year. Our response to the reduction in revenues was to decrease our budget by \$81,251 from the prior year and responsibly spend the revenues received. We focused on creating a balanced budget – and we feel that the final change in net assets, a reduction of only \$52, indicates that we were fiscally responsible and successfully met the challenge that came with the economic climate. In spite of the difficult budget issues, we still ended the year with an accumulated surplus of unrestricted net assets of \$1,341,355.

In addition to the above financial highlights, the School also achieved the following nonfinancial results:

- Indian River Charter High School enrolled more students in dual enrollment classes at Indian River State College than any other High School in the county during the 2008-2009 school year.
- For the 2008-2009 school year, the School's scores for reading 9th and 10th grades, mathematics 9th and 10th grades, and science 11th grade were the highest in the district. Also, 73% of the School's 10th graders passed FCAT Reading and 96% of the School's 10th grade passed FCAT math, the highest in the district.
- The School earned an "A" rating by the Florida Department of Education statewide recognition program. This is the highest rating.
- The School's Visual and Performing Arts programs (VAPA) was recognized with a variety of regional and state-wide accolades including:
 - The top Jazz Ensemble performed in the community at such events as Turtle Trax, the Boys and Girls Club Angel Dinner, The Rotary Club, and The Hibiscus Festival.
 - The School's Dance Team & Salsa Dance Team competed in Orlando, Florida in April 2009 winning 1st prize, best of show and \$100. In addition Salsa Dance Team performed for Cinco de Mayo at Citrus Elementary and Vero Beach Library.

(Continued)

- The Indian River Charter VAPA Choir incorporated into the performance season the Lesson, Carols, and Candle service for the local church scene, provided Holiday music for numerous areas of the county and presented the Requiem by Maurice Durufle'. The choir made special project presentations that represented Modernism and Post-Modernism.
- The School's Drama program performed its fall production of the Pulitzer Prize winning, You Can't Take It With You, which sold out every performance. The Drama students were also featured in the VAPA semester productions, brought live literacy-based educational theatre productions, free of charge, to local elementary schools, performed at the Relay For Life Benefit performance and took home Superior and Excellent ribbons in Monologue and Duet Scene categories from District and State Thespian Competitions.
- The School's Visual Arts program participated in the Children's Art Festival. 350 School students volunteered at the event. In addition, School artists won 5 awards: 1st Place Mixed Media, 2nd Place Mixed Media, 2nd place Drawing, 1st place Digital Arts, and 1st Place Sculpture. Also, three students were awarded \$2,000 scholarships based on their artwork.

Overview of the Financial Statements

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School:

- The first two statements are School-Wide financial statements that provide both short-term and long-term information about the School's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the School, reporting the School's operations in more detail than the School-Wide statements.
- The governmental funds statements tell how basic services like regular and special education were financed in the short term as well as what remains for future spending.
- Proprietary funds statements offer short-term and long-term financial information about activities that are operated like businesses. The School currently has no proprietary funds.
- Fiduciary funds statements provide information about the financial relationships in which the School acts solely as agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the School's budget for the year.

School-Wide Statements

The School-Wide statements report information about the School as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the School's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

(Continued)

The two School-Wide statements report the School's net assets and how they have changed. Net assets – the difference between the School's assets and liabilities – are one way to measure the School's financial health or position.

- Over time, increases or decreases in the School's net assets are an indicator of whether its financial position is improving or deteriorating.
- To assess the overall health of the School, you need to consider additional nonfinancial factors such as the grade assessed under the State of Florida's school grading system and the number of full-time equivalents of students attending the School.

In the School-Wide financial statements, the School's activities are divided into two categories:

- Governmental activities – The School's basic services are included here, such as regular and special education, transportation, and administration. Intergovernmental revenues from the Indian River County School Board (initially funded by property taxes) finance most of these activities.
- Business-type activities – These activities charge fees to help cover the costs of services provided. The School currently has no activities that would be classified as business-type.

Fund Financial Statements

The fund financial statements provide more detailed information about the School's funds, focusing on its most significant or "major" funds – not the School as a whole. Funds are accounting devices the School uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law.
- The School establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (like Federal grants).

There are three kinds of funds:

- Governmental funds – The School's basic services are included in governmental funds, which generally focus on how cash and other financial assets that can readily be converted to cash flow in and out, and the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. Because this information does not encompass the additional long-term focus of the School-Wide statements, we provide additional information with the governmental funds statements that explains the relationship or differences between them.
- Proprietary funds – Services for which a fee is charged are generally reported in proprietary funds. Proprietary funds are reported in the same way as the School-Wide financial statements. The School currently has no funds that would be considered proprietary funds.
- Fiduciary funds – The School is the trustee, or fiduciary, for assets that belong to others, such as the student activities funds and scholarship funds. The School is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the School-Wide financial statements because the School cannot use these assets to finance its operations.

(Continued)

Financial Analysis of the School as a Whole

Net assets of the School's governmental assets consisted of the following as of June 30, 2009 and 2008:

	<u>Net Assets – Governmental Activities</u>	
	<u>2009</u>	<u>2008</u>
Current and other assets	\$ 2,038,412	1,984,963
Capital assets, net	<u>4,722,087</u>	<u>5,036,599</u>
Total assets	<u>6,760,499</u>	<u>7,021,562</u>
Current liabilities	194,249	207,670
Long-term debt	<u>2,820,273</u>	<u>3,067,863</u>
Total liabilities	<u>3,014,522</u>	<u>3,275,533</u>
Net assets:		
Invested in capital assets	1,960,042	2,033,631
Restricted	444,580	436,937
Unrestricted	<u>1,341,355</u>	<u>1,275,461</u>
Total net assets	<u>\$ 3,745,977</u>	<u>3,746,029</u>

The School's net assets decreased by \$52, or 0.0%, from the prior year. This is a decrease from the prior year's increase of \$342,807. The School's administrative and operational expenses were decreased to accommodate the decrease in money funded to the School.

The School had no business-type assets as of June 30, 2009 and 2008.

The following schedule compares revenues and expenses during the years ended June 30, 2009 and 2008:

	<u>Change in Net Assets – Governmental Activities</u>	
	<u>2009</u>	<u>2008</u>
Revenues:		
General revenues:		
Intergovernmental	\$ 4,286,415	4,646,993
Other	28,245	49,810
Special item – loss on disposal of capital assets	<u>(48,133)</u>	<u>(6,166)</u>
Total revenues	<u>4,266,527</u>	<u>4,690,637</u>
Expenses:		
Instruction related	2,569,750	2,601,883
Administration	659,819	651,593
Transportation	7,549	7,359
Maintenance and operations	433,733	489,284
Other	<u>595,728</u>	<u>597,711</u>
Total expenses	<u>4,266,579</u>	<u>4,347,830</u>
Change in net assets	<u>\$ (52)</u>	<u>342,807</u>

(Continued)

Total revenues for the year dropped by \$424,110, or 9%, due to decreased operational revenues allocated on a per-student basis (FTE revenues) in the amount of \$412,491, plus reduced current year fundraising revenues from the prior year.

Total expenses decreased \$81,251, or 1.9%, due to the School's budgetary restrictions and cutting costs where possible.

Financial Analysis of the School's Funds

The School's general fund assets increased \$55,365 during the year to \$1,528,698 as the School decreased its outstanding liabilities by \$10,529 and increased its reserves by \$65,894.

The School had no special revenue fund activities during the year ended June 30, 2009.

The net increase of \$7,643 in the School's capital projects fund reflects a \$86,647 decrease in revenues and a \$112,389 decrease in expenditures as the School continues to maintain its facilities and upgrade educational equipment where needed as budgetary restrictions allow.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2009, the School had invested \$4,722,087 in a variety of capital assets, as reflected in the following schedule, which represents a net decrease (additions less disposals and depreciation) of \$314,512 or 6.2% from the end of last year.

	<u>2009</u>	<u>2008</u>
Improvements other than buildings	\$ 317,125	349,075
Buildings and improvements	4,052,786	4,312,189
Furniture, fixtures, and equipment	274,102	314,300
Audio/visual equipment	22,980	29,472
Computer software	36,061	31,563
Construction in progress	<u>19,033</u>	<u>—</u>
Governmental capital assets, net	\$ <u>4,722,087</u>	<u>5,036,599</u>

The decreases indicated above reflect the stabilizing of the School's growth and the decrease in the necessity for adding physical property to serve that growth. Depreciation expense amounted to \$373,990 for the year ended June 30, 2009.

Long-term Debt

During the year ended June 30, 2005, the School completed construction on the buildings to house its new visual and performing arts program. The construction was financed with long-term debt of \$3,800,000. The principal balance on the loan at June 30, 2009 is \$2,820,273. The repayment provision calls for monthly installments of \$32,878, including interest at 3.82%, until May 7, 2014 when interest becomes adjustable every five years thereafter, until the debt is repaid on April 7, 2018.

(Continued)

Factors Bearing on the School's Future

At the time these financial statements were prepared and audited, the School was aware of the following circumstances that could significantly affect its financial health in the future:

- During the year ending June 30, 2004, the School began expanding its campus by constructing a building to accommodate the new visual and performing arts program, which was completed during the year ending June 30, 2005. The building's construction costs totaled \$4,335,230. This was funded by a combination of capital contributions, capital outlay funds, and \$3,800,000 of long-term debt financing, of which \$2,820,273 is outstanding as of June 30, 2009.
- The School has implemented a capital campaign in response to continuing concerns over uncertain capital outlay funding available from the Florida Department of Education. The School anticipates that it will need such funding to respond to future capital expansion projects and to repay mortgage note obligations as they become due over the next 8 years.
- The School's Board of Directors participated with the School District of Indian River County, at their initiation, regarding the need to share equitably county tax dollars collected for capital projects as specified in the F.S. 1002.33 (18) (c) (g). Song and Associates, Inc, a professional architectural planning and design firm was hired to assess the School property and the need to update the physical plant for the benefit of students and efficient learning. This report acknowledges that the original School building (designed as a motel) and four modular buildings are aging rapidly and are in need of major renovations or replacement. The cost of the improvements per this report is estimated at \$7,643,000. The report has been submitted to the school district and it is expected to be voted on and funded by the 1.5 mil tax dollars received from property taxes from the county. These improvement costs are expected to be included within the district's five year capital outlay plan of expenditures.
- With the increased student population and facilities, additional funding with regard to property insurance deductibles and insurance liabilities will be needed.
- A primary concern during the current year was the safety of the students as they commuted to and from the School. The School's increased population resulted in traffic issues, as College Lane was often backed up with traffic, denying access to Indian River State College and to Indian River Charter High School. The School's governing board decided to try to alleviate the congestion on College Lane by creating a new road that would allow a better flow of traffic for parents and students as they drop off and pick up during school hours. This project is expected to be completed by July 31, 2009 and cost roughly \$100,000.

Contacting the School's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the School's finances and to demonstrate the School's accountability for the money it receives. If you have any questions about this report or need additional information, contact the Indian River Charter High School, Inc., 6055 College Lane, Vero Beach, FL 32966.

Statement of Revenues, Expenditures and Changes in Fund Balances
Governmental Funds (Continued)

Year Ended June 30, 2009

	<u>Total Governmental Funds</u>
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities:	
Net change in fund balances – total governmental funds	\$ 73,537
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$107,611) exceed depreciation expense (\$373,990).	(266,379)
Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term debt in the statement of net assets and does not affect the statement of activities.	247,590
The payment of debt issue costs is an expenditure in the governmental funds, however, the costs are allocated over their useful lives as amortization expense. This is the amount by which debt issue costs (\$-0-) exceed amortization expense (\$6,667).	(6,667)
Loss on disposal of capital assets is an expense on the statement of net assets, but not an expenditure in the governmental funds.	(48,133)
Change in net assets of governmental activities	\$ <u>(52)</u>

See accompanying notes to basic financial statements.

(1) Organization and Summary of Significant Accounting Policies

Indian River Charter High School, Inc. (the School) is a not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 228.056, Florida Statutes. The School was incorporated on March 27, 1998 and is governed by a Board of Directors.

The general operating authority of the School is contained in Section 228.056, Florida Statutes. The School operates under a charter of the sponsoring school district, the Indian River County District School Board (the District). The current charter was renewed on January 14, 2003 and is effective until June 30, 2018. The charter may be renewed by mutual written agreement between the School and the District. At the end of the term of the charter, the District may choose not to renew the charter under grounds specified in the charter in which case the District is required to notify the School in writing at least 90 days prior to the charter's expiration. During the term of the charter, the District may also terminate the charter if good cause is shown. The School is considered a component unit of the District.

The accounting policies of the School conform to accounting principles generally accepted in the United States of America applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. Pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989 are not applied in the preparation of the financial statements of the proprietary fund types in accordance with GASB Statement No. 20. The following is a summary of the more significant policies.

The School reports using the model prescribed by GASB Statement No. 34, "Basic Financial Statements – Management's Discussion and Analysis – for State and Local Governments" (Statement 34), as more fully discussed below.

(a) Reporting Entity

The reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to the organization; or (c) is obligated in some manner for the debt of the organization. There are no component units of the School.

Notes to Basic Financial Statements

(b) Basic Financial Statements – GASB Statement 34

The basic financial statements include both School-Wide (based on the School as a whole) and fund financial statements. While the previous reporting model emphasized fund types, in the current financial reporting model the focus is on either the School as a whole, or major individual funds within the fund financial statements. Both the School-Wide and fund financial statements categorize primary activities as either governmental or business type. In the School-Wide statement of net assets, governmental and business-type activities are presented separately and are reflected on a full accrual, economic resource basis, which incorporates long-term assets as well as long-term debt. As of and for the year ended June 30, 2009, the School had no activities that would be considered business-type.

The School-Wide statement of activities reflects both the gross and net costs per functional category (instruction, administration, maintenance, etc.), which are otherwise being supported by general government revenues, such as property taxes and intergovernmental revenues. The statement of activities reduces gross expenses, including depreciation, by related program revenues such as discretionary grants that can be used for either operating or capital purposes. The net cost by function is normally covered by general revenues while the previous financial reporting model did not summarize or present net cost by function or activity.

This School-Wide focus is more on the sustainability of the School as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

The fund financial statements are, in substance, very similar to the financial statements presented in the previous financial reporting model. Emphasis here is on the major funds. As of and for the year ended June 30, 2009, the School considered all of its funds to be major funds.

The governmental funds in the fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to demonstrate legal compliance and the source and use of liquid resources. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the School-Wide statements, a reconciliation is presented on each of the fund financial statements, which briefly explains the adjustment necessary to transform the fund based financial statements into the total governmental column of the School-Wide presentation.

The School's fiduciary funds are presented in the fund financial statements and since, by definition, these assets are being held for the benefit of others and cannot be used to address activities or obligations of the School, these funds are not incorporated into the School-Wide financial statements.

(Continued)

INDIAN RIVER CHARTER HIGH SCHOOL, INC.
(A Component Unit of the Indian River County District School Board)

Notes to Basic Financial Statements

The focus of the Statement 34 model is on the School as a whole and the fund financial statements. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories, as well as the fiduciary funds.

(c) Basis of Presentation

The financial transactions of the School are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that records cash and other financial resources, liabilities, reserves, fund equity, revenues, and expenditures.

Statement 34 establishes minimum criteria based on percentage relationships of the funds for the determination of major funds. In addition, the School can identify additional funds to be major funds. The School has determined all of its funds to be major funds, as described below.

Governmental Funds

General Fund

The General Fund is the general operating fund of the School. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund

Capital projects funds are used to account for the financial resources to be used for educational capital outlay needs, including new construction and renovation and remodeling projects. During the year ended June 30, 2009, the School used the capital projects fund to account for capital outlays funded by capital outlay revenues and long-term debt.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in fund net assets, financial position, and cash flows, which is similar to businesses. As of and for the year ended June 30, 2009, the School had no activities which would be accounted for in a proprietary fund.

Fiduciary Funds – Agency Funds

The School accounts for the scholarship fund and the student activities funds in the agency fund.

INDIAN RIVER CHARTER HIGH SCHOOL, INC.
(A Component Unit of the Indian River County District School Board)

Notes to Basic Financial Statements

Non-Current Governmental Assets and Liabilities

GASB Statement 34 eliminates the presentation of Account Groups, but provides for these amounts to be maintained and incorporates the information into the governmental column in the School-Wide statement of net assets. Previously, the General Fixed Asset Account Group was used to account for all fixed assets of the School.

(d) Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied. The School-Wide financial statements are presented on an accrual basis of accounting, while the governmental funds in the fund financial statements are presented on a modified accrual basis.

Under the accrual method, revenues are recognized when earned and expenses are recognized when incurred.

Under the modified accrual basis of accounting, revenues, except for certain grant revenues, are recognized when they are susceptible to accrual; when they become measurable and available to finance the School's operations. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recorded when the liabilities are incurred.

In applying the "susceptible to accrual" concept to intergovernmental revenues, the School may recognize receivables and revenue when the applicable eligibility requirements including time requirements have been met. Revenues for certain grants are recognized when the expenditures are made when grant terms provide that the expenditure of resources is the prime factor for determining eligibility for federal, state, and other grant resources. Resources provided before eligibility requirements are met are reported as deferred revenues. The School had no deferred revenues as of June 30, 2009.

(e) Budgets and Budgetary Accounting

The School annually adopts a budget for all governmental funds. Budgets are presented on the modified accrual basis of accounting. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget, which has been adjusted for authorized revisions during the year.

(f) Cash

The School's cash includes demand deposits with financial institutions, which are insured in part by Federal depository insurance. As of June 30, 2009, all of the School's demand deposit accounts totaling \$175,863 were covered Federal deposit insurance.

(Continued)

INDIAN RIVER CHARTER HIGH SCHOOL, INC.
 (A Component Unit of the Indian River County District School Board)

Notes to Basic Financial Statements

In addition, the School's excess cash are invested into repurchase agreements providing for maturity on a daily basis and are collateralized with Federal agency securities held by the assigning bank. As of June 30, 2009, cash includes \$1,256,718 of deposits invested in overnight repurchase agreements. The underlying securities pledged by the bank as collateral had market values totaling \$1,257,366 as of June 30, 2009.

(g) Capital Assets

Property and equipment purchased are recorded at historical cost. Contributed property and equipment are recorded at the fair market value at the time received. The School's capitalization level is \$1,000 (prior to July 1, 2008 - \$750). Other costs incurred for repair and maintenance are expensed as incurred. Depreciation on all assets is recorded in the School-Wide financial statements only and is provided on a straight-line basis over the following estimated useful lives:

	Years
Improvements other than buildings	10 – 20
Buildings and improvements	10 – 25
Furniture, fixtures, and equipment	5 – 10
Audio/visual equipment	7
Computer software	3

(h) Compensated Absences

Compensated absences for vacation, sick, and other personal leave are provided for all regular, full-time employees. An employee may accrue leave based on School policy which differs between full time instructional staff and full time year-round administrative staff. However, employees are not entitled to cash payment in lieu of taking leave or upon termination. Compensated absences are recorded as expenditures when leave is used and no liability for compensated absences is reflected in the financial statements.

(i) Revenue Sources

Revenues for current operations are received primarily from the District pursuant to the funding provisions included in the School's charter. In accordance with the funding provisions of the charter and Section 228.056(13), Florida Statutes, the School reports the number of full-time equivalent (FTE) students and related data to the District. Under provisions of Section 236.081, Florida Statutes, the District reports the number of FTE students and related data to the Florida Department of Education (FDOE) for funding through the Florida Education Finance Program. Funding for the School is adjusted during the year to reflect the revised calculations by the FDOE and the actual weighted FTE students reported by the School during the designated FTE student survey periods.

(Continued)

INDIAN RIVER CHARTER HIGH SCHOOL, INC.
(A Component Unit of the Indian River County District School Board)

Notes to Basic Financial Statements

(2) Receivables

As of June 30, 2009, due from primary government includes \$512,678 of funding under the Capital Outlay allocation, which is accounted for in the capital projects fund. Such funds are held in an investment account by the Indian River County School District on behalf of the School. Unexpended amounts available under the Capital Outlay program as of June 30, 2009 amounted to \$512,678.

The School's general fund made advances to the capital projects fund to provide for expenditures in anticipation of reimbursement from the District and the capital fundraising accounts, as noted above. As of June 30, 2009, the School's general fund was due \$287,508 from the capital projects fund.

(3) General Capital Assets

The following is a summary of the changes in the School's governmental capital assets for the year ended June 30, 2009:

	Balance <u>2008</u>	<u>Additions</u>	<u>Retirements</u>	Balance <u>2009</u>
Improvements other than buildings	\$ 500,085	1,087	8,946	492,226
Buildings and improvements	5,232,938	2,584	102,795	5,132,727
Furniture, fixtures, and equipment	658,554	70,577	18,654	710,477
Audio/visual equipment	35,599	—	—	35,599
Computer software	38,696	14,330	—	53,026
Construction in progress	<u>—</u>	<u>19,033</u>	<u>—</u>	<u>19,033</u>
Total capital assets	<u>6,465,872</u>	<u>107,611</u>	<u>130,395</u>	<u>6,443,088</u>
Less accumulated depreciation for:				
Improvements other than buildings	151,010	28,716	4,625	175,101
Buildings and improvements	920,749	223,075	63,883	1,079,941
Furniture, fixtures, and equipment	344,254	105,875	13,754	436,375
Audio/visual equipment	6,127	6,492	—	12,619
Computer software	<u>7,133</u>	<u>9,832</u>	<u>—</u>	<u>16,965</u>
Total accumulated depreciation	<u>1,429,273</u>	<u>373,990</u>	<u>82,262</u>	<u>1,721,001</u>
Governmental capital assets, net	\$ <u>5,036,599</u>	<u>(266,379)</u>	<u>48,133</u>	<u>4,722,087</u>

In an effort to further extend the benefits of the Indian River Charter High School to a larger school population, the School completed construction of a physical addition to the school facilities during the year ended June 30, 2005. The total cost of the construction was \$4,335,230, a portion of which was funded by a \$3,800,000 mortgage note payable (see note 4). The addition was placed into service in June 2005.

Notes to Basic Financial Statements

(4) Long-Term Debt

The following is a summary of the changes in the School's long-term debt for the year ended June 30, 2009:

	<u>Balance</u> <u>2008</u>	<u>Additions</u>	<u>Repayments</u>	<u>Balance</u> <u>2009</u>
\$3,800,000 Mortgage note payable, monthly installments of \$32,878, including interest at 3.82%, through May 7, 2014; then interest is adjustable at the 5 year Treasury Rate plus 3% and every 5 years thereafter, monthly principal and interest payments due through April 7, 2018	\$ <u>3,067,863</u>	—	<u>247,590</u>	<u>2,820,273</u>
	\$ <u>3,067,863</u>	—	<u>247,590</u>	<u>2,820,273</u>

The mortgage note payable is secured by all buildings, improvements, other real property, and all personal property of the School, and is 90% guaranteed by the United States Department of Agriculture.

The future maturities of long-term debt for each of the years ending June 30 are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2010	\$ 273,314	104,430	377,744
2011	284,090	93,654	377,744
2012	295,069	82,675	377,744
2013	306,923	70,821	377,744
2014	319,024	58,720	377,744
2015 – 2018	<u>1,341,853</u>	<u>104,252</u>	<u>1,446,105</u>
	\$ <u>2,820,273</u>	<u>514,552</u>	<u>3,334,825</u>

INDIAN RIVER CHARTER HIGH SCHOOL, INC.
(A Component Unit of the Indian River County District School Board)

Notes to Basic Financial Statements

(5) *Schedule of Local Revenue Sources*

The following is a schedule of local revenue sources and amounts:

<u>Sources</u>	<u>Amount</u>
Indian River County District School Board:	
Florida Education Finance Program	\$ 2,949,126
Discretionary lottery funds	14,832
Class size	616,862
School academic improvement	130,120
Instructional materials and teacher training	56,136
Safe schools	15,715
Title II funds	<u>1,442</u>
Total	\$ <u>3,784,233</u>

The School's charter contract provides for a discretionary District administrative fee of up to 5% of the revenues received on a per-student basis. In accordance with this provision, the District withheld 5% of such revenues, or \$144,176, from the School's revenues for the year ended June 30, 2009, which was included in school administration expenses in the accompanying statement of activities and statement of revenues, expenditures, and changes in fund balances.

(6) *Leases*

The School leases land and certain buildings under a lease agreement with Indian River State College through March 31, 2018. The lease provides for payments of \$4,750 per month for each of the five years ending March 31, 2013; and \$5,000 per month for each of the five years ending March 31, 2018. The lease has an option to be renewed for ten additional years.

During the year ended June 30, 2007, the School entered into a 63 month lease for their copying equipment. The lease provides for payments of \$1,446 per month through June 30, 2012.

Total rent expense incurred during the year ended June 30, 2009 amounted to \$74,349.

The future lease commitments as of June 30, 2009 follow:

2010	\$ 74,349
2011	74,349
2012	74,349
2013	57,750
2014	60,000
2015 – 2018	<u>225,000</u>
	\$ <u>565,797</u>

(Continued)

INDIAN RIVER CHARTER HIGH SCHOOL, INC.
(A Component Unit of the Indian River County District School Board)

Notes to Basic Financial Statements

(7) Risk Management

The School maintains general liability, professional liability, automobile liability, and workers' compensation coverages through purchased commercial insurance with minimal or no deductibles for each line of coverage. The School also maintains property coverage with a deductible of \$5,000 for all perils except wind or hail. For these perils, the deductible is 5%, with a minimum of \$50,000.

(8) Pension Plan

The School's employees participate in a salary deferral plan under Internal Revenue Code 403(b). The School currently contributes on a discretionary basis 15% of all full-time employees' salaries and matches the first \$500 in employee contributions on a dollar-for-dollar basis. The employees vest in all employer contributions evenly over a three-year period of service. Employees hired after September 1, 2008 vest in all employer contributions evenly over a five-year period of service. During the year ended June 30, 2009, the School provided for contributions approximating \$115,000.

**Independent Auditors' Report on Internal Control
Over Financial Reporting and on Compliance and Other Matters**

The Board of Directors
Indian River Charter High School, Inc.:

We have audited the basic financial statements of Indian River Charter High School, Inc. (the School) as of and for the year ended June 30, 2009 and have issued our report thereon dated September 17, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the organization's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles, such that there is more than a remote likelihood that a misstatement of the organization's financial statements that is more than inconsequential will not be prevented or detected by the organization's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the organization's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we noted other matters involving the internal control over financial reporting, which we have reported to management of the School in a separate letter dated September 17, 2009.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information of the Board of Directors, management, the Indian River County District School Board, and the Auditor General of the State of Florida. This restriction is not intended to limit the distribution of this report, which is a matter of public record.

MORGAN, JACOBY, THORN, BOYLE & ASSOCIATES, P.A.

September 17, 2009

Management Letter

The Board of Directors
Indian River Charter High School, Inc.:

We have audited the financial statements of Indian River Charter High School, Inc., as of and for the year ended June 30, 2009, and have issued our report thereon dated September 17, 2009.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters dated September 17, 2009. Disclosures in that report should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.850, Rules of the Auditor General, which governs the conduct of charter school and similar entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditors' reports:

- Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. In connection with our audit, we determined that the School has not completely resolved our comment made in the annual financial report for the year ended June 30, 2008, as described in comment 1) below.
- Section 10.854(1)(e)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we made certain recommendations, as described in comments 1), 2), and 3) below.
- Section 10.854(1)(e)4., Rules of the Auditor General, requires that we address violations of laws, regulations, contracts or grant agreements, or abuse that have occurred, or are likely to have occurred, that have an effect on the financial statement that is less than material but more than inconsequential. In connection with our audit, we did not have any such findings.
- Section 10.854(1)(e)5., Rules of the Auditor General, provides that the auditor may, based on professional judgment, report the following matters that are inconsequential to the determination of financial statement amounts, considering both quantitative and qualitative factors: 1) violations of laws, regulations, contracts or grant agreements, or abuse that have occurred, or are likely to have occurred; and, 2) control deficiencies that are not significant deficiencies, including, but not limited to: a) improper or inadequate accounting procedures (e.g., the omission of required disclosures from the annual financial statements); b) failures to properly record financial transactions; and, c) inaccuracies, shortages, defalcations, and instances of fraud discovered by, or that come to the attention of, the auditor.

Our audit disclosed the following matters:

1) Record Capital Assets

As the School acquired capital assets qualifying for capitalization in the School's investment in capital assets, not all of the additions were reflected in the appropriate capital asset accounts. We recommend that the School record all such additions in the various capital asset accounts, in addition to the capital outlay expenditure accounts in the general ledger, on a monthly basis.

2) Record Prepaid Insurance

Since the School's insurance policies cover a year different than that of the School's fiscal year, and are paid annually as each becomes due, there is often a prepaid amount which covers a portion of the next fiscal year at each June 30th. This prepaid amount should be reflected in the School's balance sheet. We recommend that the School calculate and record all prepaid portions of its insurance premiums each year.

3) Monitor Insurance Requirements

Certain insurance requirements, including coverage limits, were not in compliance with the School's charter during the year ended June 30, 2009. The School has amended the insurance policies with their agent to ensure proper compliance with all charter requirements retroactively back to include the year ended June 30, 2009. We recommend that the School monitor all insurance provisions as each policy renews to ensure compliance is maintained with the School's charter.

- Section 10.854(1)(e)6., Rules of the Auditor General, requires the name or official title for the charter school. The official title of the School is Indian River Charter High School, Inc.
- Section 10.854(1)(e)2., Rules of the Auditor General, requires a statement as to whether or not the School has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition met. In connection with our audit, we determined that the School did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- Pursuant to Sections 10.854(1)(e)7.a. and 10.855(10), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the School's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Pursuant to Chapter 119, Florida Statutes, this management letter is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this letter is intended solely for the information and use of the Board of Directors, management, the Indian River County District School Board, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

Vero Beach, FL 32960

Dear Mr. Jacoby:

In response to your letter accompanying our audited financial report, I would like to respond on behalf of the Board of Directors. In reference to:

1) Record Capital Assets

During the year, the School acquired various capital assets qualifying for capitalization in the School's investment in capital assets. It is my understanding that such additions in the various capital asset accounts in addition to the capital outlay expenditure accounts were recorded in a timely manner, however not all additions were reflected in the appropriate account. We will strive to appropriately record such additions in the various capital asset accounts on a monthly basis.

2) Record Prepaid Insurance

The Business Manager will calculate and record all prepaid portions of the School's insurance premiums each year.

3) Monitor Insurance Requirements

Indian River Charter High School has provided proof that they are in compliance with insurance requirements as required by their charter.

We thank you for the time, effort, expertise and concern you have contributed and expressed to us during this audit process. Your assistance is greatly appreciated.

Very Truly Yours,

Gene Waddell, Chairman
Indian River Charter High School
