

STATE OF FLORIDA AUDITOR GENERAL

DAVID W. MARTIN, CPA

Summary

Report Number: [2013-148](#)

Report Title: **Okeechobee County District School Board – Financial, Operational, and Federal Single Audit**

Report Period: **FYE 06/30/2012**

Release Date: **03/21/2013**

Summary of Report on Financial Statements

Our audit disclosed that the District's basic financial statements were presented fairly, in all material respects, in accordance with prescribed financial reporting standards, with the exception of the school internal funds, which comprise a significant portion of the aggregate remaining fund information.

Summary of Report on Internal Control and Compliance

We noted certain matters involving the District's internal control over financial reporting and its operation that we consider to be a material weakness and significant deficiency as summarized below.

MATERIAL WEAKNESS

Finding No. 1: The District needed to enhance controls over school internal fund collections and related deposits.

SIGNIFICANT DEFICIENCY

Finding No. 2: Some inappropriate or unnecessary information technology (IT) access privileges existed, indicating a need for an improved review of access privileges. In addition, the District had not developed written policies and procedures for the periodic review of employee access privileges.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, issued by the Comptroller General of the United States; however, we noted certain additional matters as summarized below.

ADDITIONAL MATTERS

Finding No. 3: The IT access privileges of some former District employees were not deactivated in a timely manner. In addition, the District had not developed written policies and procedures for the deactivation of employee access privileges.

Finding No. 4: The District's IT security incident response team had not been trained on their roles and responsibilities in responding to security incidents.

Finding No. 5: District IT security controls related to user authentication, data loss prevention, and logging and monitoring needed improvement

Summary of Report on Federal Awards

We audited the District's Federal awards for compliance with applicable Federal requirements. The Child Nutrition Cluster, Special Education Cluster, Improving Teacher Quality, and Race-to-the-Top programs were audited as major Federal programs. The results of our audit indicated that the District materially

complied with the requirements that could have a direct and material effect on each of its major Federal programs.

Audit Objectives and Scope

Our audit objectives were to determine whether the Okeechobee County District School Board and its officers with administrative and stewardship responsibilities for District operations had:

- Presented the District's basic financial statements in accordance with generally accepted accounting principles;
- Established and implemented internal control over financial reporting and compliance with requirements that could have a direct and material effect on the financial statements or on a major Federal program;
- Established internal controls that promote and encourage: 1) compliance with applicable laws, rules, regulations, contracts, and grant agreements; 2) the economic and efficient operation of the District; 3) the reliability of records and reports; and 4) the safeguarding of District assets;
- Complied with the various provisions of laws, rules, regulations, contracts, and grant agreements that are material to the financial statements, and those applicable to the District's major Federal programs; and
- Taken corrective actions for findings included in our report No. 2012-140.

The scope of this audit included an examination of the District's basic financial statements and the Schedule of Expenditures of Federal Awards as of and for the fiscal year ended June 30, 2012. We obtained an understanding of the District's environment, including its internal control, and assessed the risk of material misstatement necessary to plan the audit of the basic financial statements and Federal awards. We also examined various transactions to determine whether they were executed, both in manner and substance, in accordance with governing provisions of laws, rules, regulations, contracts, and grant agreements.

Audit Methodology

The methodology used to develop the findings in this report included the examination of pertinent District records in connection with the application of procedures required by auditing standards generally accepted in the United States of America; applicable standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget Circular A-133.

Management's response is included in the audit report as Exhibit A.
