Paints, Primers, and Related Supplies**

Question Number	Question	Answer
1	We noticed there is nothing in Group 3-painting tools for those products. Should we submit for just that section or just wait till a bid comes out for those products?	The Bidder is required to bid all items in all three (3) Groups for their Bid to be considered responsive. For Group 3, Painting Tools and Supplies, the Department requires the Bidder to provide a Discount off MSRP for items including but not limited to: paint brushes, cut brushes, commercial grade paint rollers, commercial grade roller pans both bucket type and external pans, paint thinner, drop cloths, and roller extension poles. The discount is the Bidder's Bid for the items in Group 3.
2	Product being the same spec, however the Glidden product label will say Semi-Gloss versus the Sherwin label saying Gloss, will this be an issue?	Please see Revised Attachment I, Price Information Sheet. Bidders must provide only the items specifically listed on Revised Attachment I, Price Information Sheet. Comparable Glidden products are approved as equivalent. The Department's Contract Manager may also approve a substitution after contract execution in accordance with Section 2.4 (d) of the ITB.
3	On the annual quantities there are (1) Gallon line items that have increments of 5 and 10. Our (1) Gallon cases come in increments of 4, so in increments of 4, 8, 12 and so on will this be an issue?	The quantities provided on Attachment I, Price Information Sheet are estimates. The Department does not intend to split Bidder packaging for cases and will reflect packaging requirements as a inimum order quantities in the contract.
4	Are spec sheets and other documentation required for bid submittal?	Bidders are not required to submit spec sheets or documentation other than that listed in Sections 1.4, 1.5, and 3.3 of the ITB.
