The Department encourages DBE firms to compete for Department contractual services projects, and also encourages non-DBE and other minority contractors to use DBE firms as sub-contractors. The Department, its contractors, suppliers, and consultants shall take all necessary and reasonable steps to ensure that disadvantaged businesses have an opportunity to compete for and perform contract work for the Department in a nondiscriminatory environment. The Department shall require its contractors, suppliers, and consultants to not discriminate on the basis of race, color, national origin, religion, gender, age, or disability in the award and performance of its contracts.

Federal law requires states to maintain a database of all firms that are participating or attempting to participate in DOT-assisted contracts. To assist the Department in this endeavor, proposers are requested to submit the **Bidder's Opportunity List** with their Price Proposal Sheet. The list should include yourself as well as any prospective sub-contractor that you contacted or who has contacted you regarding the project.

Proposers are requested to indicate their intention regarding DBE participation on the **Anticipated DBE Participation Statement** and to submit that Statement with their Price Proposal Sheet. After award of the contract resulting from this RFP, the awarded Vendor will need to complete the "Anticipated DBE Participation Statement" online through the Equal Opportunity Compliance (EOC) system within 3 business days after award of the contract. During the contract period, the Vendor will be required to report actual payments to DBE and MBE subcontractors through the web-based EOC system. All DBE payments must be reported whether or not you initially planned to utilize the company. In order for our race neutral DBE Program to be successful, your cooperation is imperative. If you have any questions, please contact EOOHelp@dot.state.fl.us.

Additional information about the EOC system can be found on the Equal Opportunity Office (EOO) website at <http://www.dot.state.fl.us/equalopportunityoffice/eoc.shtm>. 30.1 Evaluation Process:

A Technical Review Committee (TRC) will be established to review and evaluate each proposal submitted in response to this Request for Proposal (RFP). The TRC will be composed of at least three (3) persons who collectively have experience and knowledge in the program areas and service requirements for which the commodities and/or contractual services are sought.

The Procurement Office will distribute to each member of the TRC a copy of each technical proposal. The TRC members will independently evaluate the proposals on the criteria and point system established in the section below entitled "Criteria for Evaluation" in order to assure that proposals are uniformly rated. Due to the complexity of certain procurements, the TRC members are authorized to consult with subject matter experts for the purpose of gathering information, if needed. The independent evaluations will be sent to the Procurement Office and averaged for each vendor. Proposing firms must attain an average score of seventy (70) points or higher on the Technical Proposal to be considered responsive. Should a Proposer receive fewer than seventy (70) points for their average Technical Proposal score, the Price Proposal will not be opened.

During the process of evaluation, the Procurement Office will conduct examinations of proposals for responsiveness to requirements of the RFP. Those determined to be non-responsive will be automatically rejected.

30.2 Oral Presentations THERE ARE NO ORAL PRESENTATIONS FOR THIS PROJECT.

30.3 Price Proposal

The Proposer shall complete the Price Proposal form and submit as part of the Price Proposal Package. Any proposal in which this form is not used or in which the form is improperly executed may be considered non-responsive and the proposal will be subject to rejection. The vendor's completed form shall become a part of the contract upon award of the contract.

The Procurement Office will open Price Proposals in accordance with Section 29, Proposal Openings. The

Procurement Office and/or the Project Manager/TRC will review and evaluate the price proposals and prepare a summary of its price evaluation. The Procurement Office and/or the Project Manager/TRC will assign points based on price evaluation criteria identified herein.

30.4 Criteria for Evaluation

Proposals will be evaluated and graded in accordance with the criteria detailed below.

a. Technical Proposal (100 Points)

Technical evaluation is the process of reviewing the Proposer's response to evaluate the experience, qualifications, and capabilities of the proposers to provide the desired services and assure a quality product.

The following point system is established for scoring the technical proposals:

	<u>Point Value</u>
1. Executive Summary	10
2. Management Plan	30
3. Technical Plan	40
4. Work Plan	20

b. Price Proposal (10 Points)

Price evaluation is the process of examining a prospective price without evaluation of the separate cost elements and proposed profit of the potential provider. Price analysis is conducted through the comparison of price quotations submitted.

The criteria for price evaluation shall be based upon the following formula:

$$\underline{(\text{Low Price} / \text{Proposer's Price}) \times \text{Price Points} = \text{Proposer's Awarded Points}}$$

31) POSTING OF INTENDED DECISION/AWARD

31.1 The Department's decision will be posted on the Florida Vendor Bid System, at http://myflorida.com/apps/vbs/vbs_www.main_menu, on date and time in the Timeline, and will remain posted for a period of seventy-two (72) hours. At the time of filing the formal written protest, a bond (a cashier's check or money order may be accepted) payable to the Department must also be submitted in an amount equal to one percent (1%) of the estimated contract amount based on the contract price submitted by the protestor.

Failure to file a protest within the time prescribed in Section 120.57(3), Florida Statutes, or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under Chapter 120, Florida Statutes.

31.2 - Inability to Post:

Exhibit A – Scope of Service

Improved Resilience of Rigid Pavement Systems

Background Statement

Flooding from storms and rising seawater levels continue to impact Florida's roadways. Subjecting inundated roadways with potential weakened structural capacity to traffic loading can result in premature distress, structural failure, and reduced service life. Since rigid pavements are often constructed in areas with increased truck traffic, any prolonged closure of these roadways results in a significant economic impact. Furthermore, traffic is often maintained on inundated roadways after storm events to facilitate debris removal, resulting in long-term secondary impact. Research has shown that pavements submerged in water were weaker than non-submerged pavements. However, the body of knowledge about pavement systems' behavior and response to flood impact is scarce. It is the Department's intent to improve the resilience of its roadway system and meet the challenges of increased flooding and rising seawater events. Thus, it is imperative to assess the effects of maintaining traffic on inundated rigid pavement systems and explore viable strategies that can be used for prevention, protection, and mitigation solutions for rigid pavement systems in Florida.

Project Objective(s)

This study will evaluate the impact that inundation may have on concrete pavements; it will identify cost-effective and implementable solutions to improve the resilience of new and existing rigid pavement systems subjected to the combined effects of flooding and sea level rise.

Project Kick-off Teleconference

The principal investigator will schedule a kick-off meeting to be held within the first 30 days of contract execution. The kick-off meeting will consist of a webinar at least 30 minutes in length. The purpose of the meeting is to review the tasks, deliverables, deployment plan, timeline, and expected/anticipated project outcomes and their potential for implementation and benefits. The principal investigator shall prepare a presentation following the template provided at <https://www.fdot.gov/research/project-mgt-resources.shtm>.

The project manager, principal investigator, and research performance coordinator shall attend. Other parties may be invited, if appropriate.

Task 1 – Literature Review

The principal investigator will conduct a comprehensive literature review to gain a better understanding of the damaging mechanisms to roadways subjected to traffic loading during and after flooding events; identify the critical issues and parameters affecting the performance of inundated concrete pavements; and summarize the relevant experiences, practices, and solutions used by other highway agencies.

Deliverable 1: Upon completion of Task 1, the principal investigator will submit a written report to research.center@dot.state.fl.us documenting the results of the literature review.

Task 2 – Development of Research Methodology

The principal investigator will capitalize on their experience/expertise and the results of the literature review to develop a detailed research methodology to be executed in Task 3. The methodology will include an engineering-based approach for evaluating flooding impact on concrete pavement performance in general and applied to Florida-specific conditions.

Deliverable 2: Upon completion of Task 2, the principal investigator will submit a written report to research.center@dot.state.fl.us that details the proposed methodology for evaluating flooding impacts on concrete pavement performance..

Task 3 may not be initiated until Task 2 is approved by the Department.

Task 3- Execution of the Research Methodology

The principal investigator will apply the methodology to achieve the following:

- assess flood-induced impact on rigid pavement system structural integrity and functional condition with special focus on the relevant flood characteristics, traffic loading levels, pavement design variables and condition
- analyze the impact of flooding hazard on rigid pavements specific to Florida conditions, materials, and concrete pavement characteristics, considering impacts during and after flooding and including long-term latent effects

Deliverable 3: Upon completion of Task 3, the principal investigator will submit a written report to research.center@dot.state.fl.us that provides a detailed discussion of assessment and analysis results.

Task 4 – Recommendation of Strategies and Mitigating Solutions

A direct and practical application of the research results is to provide quantifiable engineering-based knowledge for future rigid pavement design and flood hazard management. Based on the results of Tasks 1-3, the principal investigator will make recommendations including but not limited to the following:

- a methodology for identifying roadway sections vulnerable to flooding and quantifying the impact of flooding on concrete pavements, with results to be used as guidance for determining when to open a rigid pavement after a significant flood event
- pre-flood event measures to prevent or minimize damage and to help plan in allocating resources for post-flooding investigative and corrective actions
- guidelines and mitigation strategies for building resilience into existing and future concrete roadways, to reduce the impact of various flooding events, and preserve pavement service life

Deliverable 4: Upon completion of Task 4, the principal investigator will submit a written report to research.center@dot.state.fl.us documenting the recommendations resulting from Task 4.

Task 5 – Draft Final Report and Closeout Teleconference

This task will contain 2 deliverables: the draft final report (Deliverable 5a) and the closeout teleconference (Deliverable 5b). The draft final report and closeout teleconference should be identified in the budget as one task with a specific dollar amount.

Deliverable 5a: Ninety (90) days prior to the end date of the contract, the principal investigator will submit a draft final report in PDF and Word formats to research.center@dot.state.fl.us.

The draft final report will include the results of the literature review, the research work plan, execution of the research work plan, and recommended strategies and mitigating solutions.

The draft final and final reports must follow the Guidelines for University Presentation and Publication of Research available at <https://www.fdot.gov/research/project-mgt-resources.shtm>.

The draft final and final report must also follow the FDOT Research Final Report Style Guide provided at <https://www.fdot.gov/research/project-mgt-resources.shtm>.

The report must be well-written and edited for technical accuracy, grammar, clarity, organization, and format. The report must also comply with Section 508 of the United States Workforce Rehabilitation Act of 1973.

Deliverable 5b: Thirty (30) days prior to the end date of the contract, the principal investigator will schedule a closeout teleconference. The principal investigator shall prepare a PowerPoint presentation following the template provided at <https://www.fdot.gov/research/project-mgt-resources.shtm>.

At a minimum, the principal investigator, project manager, and research performance coordinator shall attend. The purpose of the meeting is to review project performance, the deployment plan, and next steps.

Task 6 Final Report

Deliverable 6: Upon Department approval of the draft final report, the principal investigator will submit the Final Report in PDF and Word formats electronically to the Research Center at research.center@dot.state.fl.us. The Final Report is due by the end date of the contract.

Deliverables Schedule

Note: this document will be used by the Research Center to monitor principal investigator (PI) performance and activity on the project. The PI should give careful consideration to the time needed to complete a task(s) and deliverable(s) against current workload. Failure to submit deliverables in a timely manner may result in cancelation of the task work order.

Remember to include kick-off teleconference, submittal of draft final report, closeout teleconference and final report. The Research Center must at a minimum receive a deliverable every 6 months on a project. Failure to submit deliverables in a timely manner may result in cancelation of the task work order.

Pursuant to Section 287.057(22), Florida Statutes, all payments shall be assessed a transaction fee of one percent (1%), which the Vendor shall pay to the State. For payments within the State accounting system (FLAIR or its successor), the transaction fee shall, when possible, be automatically deducted from payments to the Vendor. Failure to comply with these requirements shall constitute grounds for declaring the Vendor in default and recovering procurement costs from the Vendor in addition to all outstanding fees. VENDORS DELINQUENT IN PAYING TRANSACTION FEES MAY BE EXCLUDED FROM CONDUCTING FUTURE BUSINESS WITH THE STATE.
- H. A vendor ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for vendors who may be experiencing problems in obtaining timely payment(s) from a state agency. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding one (1) year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature.
