5) DIVERSITY ACHIEVEMENT

DISADVANTAGED BUSINESS ENTERPRISE (DBE) UTILIZATION

The Department, in accordance with *Title VI of the Civil Rights Act of 1964, 42 USC 2000d-2000d-4, Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, Part 21*, Nondiscrimination in federally-assisted programs of the Department of Transportation issued pursuant to such Act, hereby notifies all bidders that the Department will affirmatively ensure that in any contract/agreement entered into pursuant to this advertisement, minority and disadvantaged business enterprises will be afforded the full opportunity to submit bids in response to this invitation and will not be discriminated on the basis of race, color, national origin, or sex in consideration for an award.

The Department encourages DBE firms to compete for Department contractual services projects, and also encourages non-DBE and other minority contractors to use DBE firms as sub-contractors. The Department, its contractors, suppliers, and consultants shall take all necessary and reasonable steps to ensure that disadvantaged businesses have an opportunity to compete for and perform contract work for the Department in a nondiscriminatory environment. The Department shall require its contractors, suppliers, and consultants to not discriminate since race, color, national origin, religion, gender, age, or disability in the award and performance of its contracts.

Federal law requires states to maintain a database of all firms that are participating or attempting to

participate in DOT-assisted contracts. To assist the Department in this endeavor, proposers are requested to submit the **Bidder's Opportunity List** with their price proposal sheet. The list should include yourself as well as any prospective sub-contractor that you contacted or who has contacted you regarding the project.

Proposers are requested to indicate their intention regarding DBE participation on the **Anticipated DBE Participation Statement** and to submit that statement with their price proposal sheet. After award of the contract resulting from this RFP, the awarded Vendor will need to complete the "Anticipated DBE Participation Statement" online through the Equal Opportunity Compliance (EOC) system within three business days after award of the contract. The link to access the EOC system is: <https://www3.dot.state.fl.us/EqualOpportunityCompliance>. This will assist the Department in tracking and reporting planned or estimated DBE utilization.

During the contract period, the Vendor will be required to report actual payments to DBE and MBE subcontractors through the web-based EOC system. All DBE payments must be reported if you initially planned to utilize the company. In order for our race neutral DBE Program to be successful, your cooperation is imperative. If you have any questions, please contact EOOHelp@dot.state.fl.us.

Additional information about the EOC system can be found on the Equal Opportunity Office (EOO) website at <http://www.dot.state.fl.us/equalopportunityoffice/eoc.shtm>. A help manual on how to use the system will be available within the EOC application. If you have any questions or technical issues, please contact the EOO help desk at EOOHelp@dot.state.fl.us.

To request certification or to locate DBEs, call the Department of Transportation's Equal Opportunity Office at (850) 414-4747, or access an application or listing of DBEs on the Internet at www.dot.state.fl.us/equalopportunityoffice/.

26) COSTS INCURRED IN RESPONDING

This RFP does not commit the Department or any other public agency to pay any costs incurred by an individual firm, partnership, or corporation in the submission of a proposal or to make necessary studies or designs for the preparation thereof, nor to procure or contract for any articles or services.

27) MODIFICATIONS, RESUBMITTAL AND WITHDRAWAL

Proposers may modify submitted proposals at any time prior to the proposal due date. Requests for modification of a submitted proposal shall be in writing and must be signed by an authorized signatory of the proposer. Upon receipt and acceptance of such a request, the entire proposal will be returned to the proposer and not considered unless resubmitted by the due date and time. Proposers may also send a change in a sealed envelope to be opened at the same time as the proposal. The RFP number, due date and time should appear on the envelope of the modified proposal.

28) PROPOSAL OPENING

All proposal openings are open to the public. Technical proposals will be opened by the Department at the date, time, and location in the timeline (See Introduction, Section 2 Timeline). Price proposals, which have a corresponding responsive technical proposal, will be opened by the Department at the date, time, and location in the timeline (See Introduction, Section 2 Timeline).

29) PROPOSAL EVALUATION

29.1 Evaluation Process:

A Technical Review Committee (TRC) will be established to review and evaluate each proposal submitted in response to this RFP. The TRC will be composed of at least three persons who collectively have experience and knowledge in the program areas and service requirements for which the commodities and/or contractual services are sought.

The Procurement Office will distribute to each member of the TRC a copy of each technical proposal. The TRC members will independently evaluate the proposals on the criteria and point system established in the section below entitled "Criteria for Evaluation" in order to assure that proposals are uniformly rated. Due to the complexity of certain procurements, the TRC members are authorized to consult with subject matter experts for the purpose of gathering information, if needed. The independent evaluations will be sent to the Procurement Office and averaged for each vendor. Proposing firms must attain an average score of 70 points or higher on the technical proposal to be considered responsive. Should a Proposer receive fewer than 70 points for their

average technical proposal score, the price proposal will not be opened.

During the process of evaluation, the Procurement Office will conduct examinations of proposals for responsiveness to requirements of the RFP. Those determined to be non-responsive will be automatically rejected.

29.2 Oral Presentations THERE ARE NO ORAL PRESENTATIONS FOR THIS PROJECT.

29.3 Price Proposal

The Proposer shall complete the price proposal form and submit as part of the price proposal package. Any proposal in which this form is not used or in which the form is improperly executed may be considered non-responsive and the proposal will be subject to rejection. The vendor's completed form shall become a part of the contract upon award of the contract.

The Procurement Office will open price proposals in accordance with Section 28, Proposal Openings. The Procurement Office and/or the Contract Manager/TRC will review and evaluate the price proposals and prepare a summary of its price evaluation. The Procurement Office and/or the Contract Manager/TRC will assign points based on price evaluation criteria identified herein.

29.4 Criteria for Evaluation

Proposals will be evaluated and graded in accordance with the criteria detailed below.

a. Technical Proposal (100 Points)

Technical evaluation is the process of reviewing the Proposer's Executive Summary, Management Plan, and Technical Plan for understanding of project, qualifications, approach and capabilities, to assure a quality product.

The following point system is established for scoring the technical proposals:

	<u>Point Value</u>
1. Executive Summary	5
2. Management Plan (35 Points)	
Organization and Management	5
Technical Staff Experience	10
Vendor's Experience	10
Vendor's Business History	10
3. Technical Plan (60 Points)	
Project Approach	5
Availability	20
Facility Capabilities	20
Equipment	5
Sample Asbestos Survey	10

b. Price Proposal (20 Points)

Price evaluation is the process of examining a prospective price without evaluation of the separate cost elements and proposed profit of the potential provider. Price analysis is conducted through the comparison of price quotations submitted.

The criteria for price evaluation shall be based upon the following formula:

$$\underline{(\text{Low Price} / \text{Proposer's Price}) \times \text{Price Points} = \text{Proposer's Awarded Points}}$$

30) POSTING OF INTENDED DECISION/AWARD

30.1 The Department's decision will be posted on the Florida VBS, at http://myflorida.com/apps/vbs/vbs_www.main_menu, on date and time in the Timeline, and will remain posted for a period of 72 hours. Any Proposer who is adversely affected by the Department's recommended award or intended decision must file the following with the Department of Transportation, Clerk of Agency Proceedings, Office of the General Counsel, 605 Suwannee Street, Mail Station 58, Tallahassee, Florida 32399-0450:

2. A formal written protest and protest bond in compliance with Section 120.57(3), F.S., within 10 days of the date on which the written notice of protest is filed. At the time of filing the formal written protest, a bond (a cashier's check or money order may be accepted) payable to the Department must also be submitted in an amount equal to one percent of the estimated contract amount based on the contract price submitted by the protestor.

Failure to file a protest within the time prescribed in Section 120.57(3), F.S., or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under Chapter 120, F.S.

30.2 - Inability to Post:

SCOPE OF SERVICES

ASBESTOS CONSULTANT SERVICES FOR I-275/SR 60 INTERCHANGE

1. PURPOSE

Asbestos consulting services are needed for the I-275 (SR 93)/SR 60 interchange, Tampa, Hillsborough County, Florida. Asbestos surveys and, if necessary, asbestos abatements are needed prior to demolition of each facility purchased by the Florida Department of Transportation.

The buildings will be identified as scheduled for demolition or to remain for sale, use, or lease (requiring non-destructive surveys). Prior to demolition, these buildings must be surveyed, and the presence or absence of asbestos containing material (ACM) documented.

An Operation and Maintenance (O&M) plan and asbestos abatement specifications must also be developed if ACM is present. Parcel/buildings specific work plans for asbestos abatement shall be provided by the Vendor if requested by the FDOT Contract Manager. Abatement specifications shall be of sufficient detail to be used as part of the contract for the asbestos abatement work. Abatement supervision, air monitoring, wet demolition supervision, and building clearance activities shall also be provided by the Vendor upon request of the Department.

2. VENDOR REQUIREMENTS

- A. Vendor, at the time of submitting a bid, must have the capabilities of servicing the project area within District Seven jurisdiction.
- B. Vendor will have the ability to mobilize within 24 hours of notification from the Department.
- C. Vendor is required to have a minimum of 20 years' experience in the asbestos consulting industry.
- D. Vendor is required to have an office or active place of business located within the limits of Hillsborough County.

3. PROVISIONS FOR WORK

Asbestos Consultant activities shall be conducted under the direction of an Asbestos Consultant licensed pursuant to Sections 469.001-469.014, Florida Statutes (F.S.),

and shall be conducted in accordance with all other applicable local, state, and federal laws and guidelines pertaining to asbestos in state-owned buildings.

4. **GENERAL REQUIREMENTS**

A. Equipment and Labor

The Vendor shall provide all labor and equipment required to conduct the appropriate work task including, but not limited to, sampling tools and sample containers, spot encapsulants, respirators and other personal protective equipment, plastic sheeting, asbestos disposal bags, flashlights, ladders, photographic equipment and supplies, air monitoring equipment, and other supplies. The Vendor shall be responsible for transportation or delivery of all bulk samples to the analytical laboratories and for proper disposal of sample material.

B. Emergency Notification

When the Vendor or its employees finds a situation, which requires immediate action by the Vendor, such as an actual fiber release episode or significantly damaged ACM, it shall notify the Department's Contract Manager as soon as possible but not later than the next business day.

C. Project Manager

The Vendor shall designate a Project Manager who will remain involved throughout the contract term. Removal or substitution of the Project Manager or technical staff from the project after contract award must be with personnel who have qualifications equal to or exceeding the person being replaced and with the Department's prior written approval. Without this prior written approval, the Vendor will be considered in default.

5. **SERVICES TO BE PROVIDED BY THE VENDOR**

A. Asbestos Inspection and Survey Report

1. Asbestos survey, bulk sampling and analysis, and reporting activities shall comply with all applicable local, state, and federal laws and guidelines pertaining to asbestos in state-owned buildings and shall include, but not be limited to, the following:

- Prior to the actual physical inspection, research and review any structural or building specifications or plans which may be available for each building to be surveyed.
- Upon notification and authorization by the Department, conduct an on-site physical inspection of each building. Identify, document, quantify, and

sample any suspect friable and non-friable ACM which is accessible in each building. Field Surveys should be completed within 10 calendar days after issuance of the work authorization and access is provided. Verbal analytical results should be provided to the Department within four days after the survey is completed.

- All areas of homogeneous suspect material, without regard to the results of subsequent laboratory bulk analysis, shall be listed in the survey report on a set of building floor plans or drawings. Areas of homogeneous suspect materials shall be clearly delineated in the report. The extent and location of ACM must be shown on a floor plan diagram in the final report, correlated with the location where the sample is taken.

2. ACM shall be classified as friable or non-friable and categorized as follows:

- Surfacing Materials: Materials that are sprayed on, troweled on, or otherwise applied to surfaces (i.e., acoustical plaster on ceilings, fireproofing on structural components, or other materials on surfaces for acoustical, fireproofing, or other purposes).
- Thermal System Insulation (TSI): Materials in a building or distribution system applied to pipes, fittings, boilers, breaching, tanks, ducts, or other systems components to prevent heat loss or gain, water condensation, or for other purposes.
- Miscellaneous Materials: Interior or exterior material components such as sheet vinyl or linoleum, floor and ceiling tiles, fire doors, roofing, siding, and materials not an integral component of the building such as stage curtains, protective clothing, laboratory apparatus and equipment, and other materials not listed.

3. All ACM shall be further classified pursuant to National Emission Standards for Hazardous Air Pollutants (NESHAP) 40 Code of Federal Regulations (CFR) Part 61 Subpart M definition as follows:

- Category I Non-Friable ACM: Asbestos containing packing, gaskets, resilient floor covering, and asphalt roofing products containing more than one percent asbestos as determined by a National Institute of Standards and Technology accredited laboratory for the analysis of bulk materials for asbestos by Polarized Light Microscopy Coupled with Dispersion Staining (PLM/DS).
- Category II Non-Friable ACM: Any material, excluding Category I Non-Friable ACM, containing more than one percent asbestos as determined by a National Institute of Standards and Technology accredited laboratory for

the analysis of bulk materials for asbestos by PLM/DS when dry cannot be crumbled, pulverized, or reduced to powder by hand pressure.

- Regulated ACM: (a) Friable asbestos material, (b) Category I Non-Friable ACM that has become friable, (c) Category I Non-Friable ACM that will be or has been subjected to sanding, grinding, cutting, or abrading, or (d) Category II Non-Friable ACM that has a high probability of becoming or has become crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation operations.
 - Identify all locations where ACM may be present but cannot be sampled, with the reason it cannot be sampled. A diligent effort shall be made to sample all suspect ACM. Areas where access is impossible shall be indicated on the drawings with a notation as to why the areas could not and /or should not be fully investigated. If these facilities are scheduled for demolition, there is no need to refrain from sampling in order to maintain functional integrity. The necessity of reducing functional integrity should first be reported to the Department. Spaces ordinarily physically inaccessible may be made accessible and inspected. Some minor repair may be necessary by the Vendor to maintain the structure in a safe condition, particularly during roof sampling.
4. Collect and analyze a sufficient number of bulk samples of all suspect ACM in compliance with the sample requirements specified in the State of Florida Department of Transportation Initial Building Survey Review (Form # 575-060-35). Quality assurance and chain of custody procedures shall be followed. Sampling locations shall be documented on a set of reasonable scaled building floor plans or drawings and marked with an identification number corresponding to the representative sample number. Bulk samples shall be collected from materials in each homogeneous area to determine the asbestos content and to identify the complete content matrix of the material. Photographic documentation of each bulk sampling location that includes the unique sampling number shall be provided in each survey report. Photographic documentation must include a picture of the structure being surveyed including the Department's parcel/facility identification number.
 6. Bulk Samples shall be analyzed utilizing PLM/DS techniques by a National Institute of Standards and Technology National Voluntary Laboratory Accreditation Program (NVLAP) accredited laboratory. The analysis of bulk samples must identify the complete matrix of sample constituents. The analyst conducting the analysis shall have sufficient education, training, and experience to perform the analysis in a competent manner.
 7. Any sample (friable or non-friable) between trace and three percent is to be point-counted.

8. Positive Stop Sampling: If a sample of a homogeneous area is positive (more than three percent or one percent after point-counted), the area is determined positive and analysis of the remaining samples of the area is not required.
9. Quality control samples shall be analyzed by a separate NVLAP accredited laboratory.
10. Documentation of laboratory current accreditations shall be provided in the survey report. Current certification of licensed Asbestos Consultant and Asbestos Surveyors shall be provided in the survey report.
11. If the typical facility is unoccupied at the time of inspection, air sampling may not be necessary when deteriorated friable ACM is identified. In some instances, surveys may be required in occupied facilities. If deteriorated ACM is encountered, the need for air sampling will be decided on a case-by-case basis. The status of occupancy (vacant vs. occupied) and the fact that the facility will be demolished should be considered when preparing the Material Hazardous Assessment. Abatement response actions shall address requirements of NESHAP's 40 CFR Part 61, Subpart M as they apply to facilities scheduled for demolition.
11. Prepare a separate parcel/facility specific survey. The survey shall include an assessment that summarizes the results of the survey and recommends abatement response alternatives and estimates costs. The report shall include all documentation including laboratory analysis sheets, color photographs, and drawings that may be needed to substantiate the presence or absence, quantity, condition, and location of ACM. The report shall be organized utilizing the format of the State of Florida Department of Transportation Initial Building Survey Review (Form # 575-060-35). The Vendor is responsible for submitting one hard copy of the survey report with color photos and one electronic copy to the Department for review and approval within 15 calendar days after conducting the survey, unless written authorization from the Contract Manager specifies differently. All documentation shall be signed and sealed by the Asbestos Consultant licensed pursuant to Section 469.001-469.014, F.S., with a copy of said license and business license provided in the survey report, as well as current licenses and/or certifications of survey personnel, primary laboratory, and Quality Control (QC) laboratory. The title page will include the Financial Project Number, parcel/facility number, and address.
12. For facilities that obviously do not contain ACM, the report shall consist of the following:
 - An appropriate number of photographs will be taken of the exterior and interior of the building to substantiate the absence of ACM in the building as well as identifying the building.

- A detailed description of the materials in and methods of construction of the building.
- Certification that, to the best of the inspector's knowledge, the facility does not contain ACM.

B. Operation and Maintenance Plans

For occupied facilities that are found to contain ACM, an O&M plan shall be prepared per parcel within 25 days of the identification of ACM. The plan shall reflect the fact that the facilities shall remain occupied, be vacated and/or demolished soon and therefore should address such issues as the length of occupancy, number of occupants, facility type, amount, condition and type of ACM, scheduled demolition date, and other information specific to state buildings. The plan shall be dated, signed, and sealed by a licensed Asbestos Consultant. Also, a letter addressed to the building occupants shall be prepared which simply and briefly addresses the location where the ACM is located and explains any special handling requirements.

Vendor shall provide implementation of O&M Emergency Site Security when the Department determines it is in the best interest of safety and public health. Emergency response must be initiated within 24 hours of authorization. Extent of Security/Cost Proposal may be determined telephonically, actual scope and authorization will be provided in writing.

The Vendor shall assist the Department in implementing and resolving any non-compliance issues associated with the implementation of the O&M plan.

O&M inspection and compliance activities shall be conducted by the Department.

C. Abatement Specifications

The Vendor shall develop a single Master Architectural General Asbestos Abatement Project Manual to include a comprehensive set of asbestos abatement specifications which addresses the removal of all ACM which may be encountered on all parcels/facilities. Abatement specifications shall be in compliance with all applicable federal, state, and local regulations and requirements for the removal of ACM from state buildings. This includes, but is not limited to, NESHAP 40 CFR 61.145 and 61.150; Sections 469.001-469.014 F.S.; and any other appropriate agency guidelines or recommendations. Changes to the Master Project Manual because of mandated regulations and requirements will be made by specific authorization from the Department. Compensation will be equivalent to a single parcel/facility specific work plan. Changes shall be completed within 30 calendar days after issuance of the work authorization.

The Vendor shall develop parcel/facility specific work plans when asbestos is determined to be present that requires abatement. These work plans shall be designed as parcel/facility specific attachments to the master project manual.

The finished specification package including work plans will be delivered to the Department in a reproducible quality suitable for duplication. One hard copy shall be provided along with one electronic copy.

D. Asbestos Abatement and Demolition Supervision/Air Monitoring

Vendor shall provide all necessary services and equipment required to provide asbestos abatement and demolition supervision, air monitoring and final building clearance for all facilities that require asbestos abatement prior to or as part of demolition. The oversight services include, but are not limited to, the following:

1. Conduct daily monitoring of all asbestos abatement and wet demolition activities. Develop and maintain a log of all monitoring activities which includes a description of events, times, equipment, and personnel involved. Asbestos abatement/project monitors shall be appropriately trained/certified for supervision of asbestos abatement projects and have the relevant experience and knowledge to oversee such operations. The Asbestos abatement project monitor shall be responsible for supervising the asbestos abatement Vendor during all on-site abatement operations.
2. Identify, resolve, and document any discrepancies in asbestos abatement activities that are not in compliance with the asbestos abatement or demolition contract and abatement specifications. Immediately notify the Department and any other required recipients of notification of any significant incidents. This shall include verifying appropriate abatement workers' training and medical documents, use of the appropriate techniques and equipment, compliance with schedules, compliance with the applicable federal, state, and local regulations such as NESHAP and the Worker Protection Rules.
3. Conduct all ambient asbestos air monitoring activities as requested. This shall include, but not be limited to, air sampling, field, and lab Phase Contrast Microscopy (PCM) analysis, and final reporting, pursuant to asbestos abatement and demolition activities. Asbestos pre-abatement and final clearance air monitoring analysis shall be conducted off site by the designated analytical laboratory, which must have appropriate accreditations. Transmission Electron Microscopy (TEM) analysis might be required under this contract. Air monitoring for asbestos demolition projects shall utilize the appropriate sample collection techniques necessary to adequately obtain a representative sample in open air, field conditions. Asbestos air monitoring may also be requested to assess potential health hazards in occupied facilities caused by deteriorated/friable ACM.

4. Upon completion of asbestos abatement and removal and wet demolition operations by the asbestos abatement vendor or demolition vendor, conduct a final clearance visual inspection and a final clearance air sampling necessary to obtain all required agency signatures and approvals. Records of all agency notifications shall be maintained by the Vendor.
5. Within three days of completion of the approved final clearance inspection, submit to the FDOT Contract Manager a Visual Inspection/Final Clearance Certification Letter that includes a signed and sealed statement by the asbestos vendor that the abatement project was performed and completed in compliance with all abatement specifications. (Not required for wet demolition.)
6. Assist the Department in any regulatory agency interactions including, if requested, attending any agency meetings.

E. Final Clearance Reports

1. Final Clearance Report for Abatements

Within 10 days of completion of asbestos abatement for a specific parcel/facility, provide one copy of a final clearance report summarizing all asbestos abatement or demolition activities including descriptive color photographs. - A. In connection with Asbestos Consultant Services for I-275/SR 60 Interchange, the Department does hereby retain the Vendor to furnish certain services, information, and items as described in Exhibit "A," attached hereto and made a part hereof.
- B. Before making any additions or deletions to the work described in this Agreement, and before undertaking any changes or revisions to such work, the parties shall negotiate any necessary cost changes and shall enter into an Amendment covering such work and compensation. Reference herein to this Agreement shall include any amendment(s).
- C. All tracings, plans, specifications, maps, computer files, and reports prepared or obtained under this Agreement, as well as all data collected, together with summaries and charts derived therefrom, shall be the exclusive property of the Department without restriction or limitation on their use and shall be made available, upon request, to the Department at any time during the performance of such services and/or upon completion or termination of this Agreement. Upon delivery to the Department of said document(s), the Department shall become the custodian thereof in accordance with Chapter 119, Florida Statutes. The Vendor shall not copyright any material and products or patent any invention developed under this Agreement. The Department shall have the right to visit the site for inspection of the work and the products of the Vendor at any time.
- D. All final plans, documents, reports, studies, and other data prepared by the Vendor shall bear the professional's seal/signature, in accordance with the applicable Florida Statutes, Administrative Rules promulgated by the Department of Business and Professional Regulation, and guidelines published by the Department, in effect at the time of execution of this Agreement. In the event that changes in the statutes or rules create a conflict with the requirements of published guidelines, requirements of the statutes and rules shall take precedence.
- E. The Vendor agrees to provide project schedule progress reports in a format acceptable to the Department and at intervals established by the Department. The Department shall be entitled at all times to be advised, at its request, as to the status of work being done by the Vendor and of the details thereof. Coordination shall be maintained by the Vendor with representatives of the Department, or of other agencies interested in the project on behalf of the Department. 2. TERM

A Initial Term. This Agreement shall begin on date of execution and shall remain in full force and effect through completion of all services required or five years, whichever occurs first. Subsequent to the execution of this Agreement by both parties, the services to be rendered by the Vendor shall commence and be completed in accordance with the option selected below. (Select box and indicate date(s) as appropriate):

Services shall commence _____ and shall be completed by _____ or date of termination, whichever occurs first.

Services shall commence upon written notice from the Department's Contract Manager and shall be completed by _____ or date of termination, whichever occurs first.

Other: See Exhibit "A"

B. RENEWALS (Select appropriate box):

This Agreement may not be renewed.

This Agreement may be renewed for a period that may not exceed three (3) years or the term of the original contract, whichever is longer. Renewals are contingent upon satisfactory performance evaluations by the Department and subject to the availability of funds. Costs for renewal may not be charged. Any renewal or extension must be in writing and is subject to the same terms and conditions set forth in this Agreement and any written amendments signed by the parties.

C. EXTENSIONS. In the event that circumstances arise which make performance by the Vendor impracticable or impossible within the time allowed or which prevent a new contract from being executed, the Department, in its discretion, may grant an extension of this Agreement. Extension of this Agreement must be in writing for a period not to exceed six (6) months and is subject to the same terms and conditions set forth in this Agreement and any written amendments signed by the parties; provided the Department may, in its discretion, grant a proportional increase in the total dollar amount based on the method and rate established herein. There may be only one extension of this Agreement unless the failure to meet the criteria set forth in this Agreement for completion of this Agreement is due to events beyond the control of the Vendor.

It shall be the responsibility of the Vendor to ensure at all times that sufficient time remains in the Project Schedule within which to complete services on the project. In the event there have been delays which would affect the project completion date, the Vendor shall submit a written request to the Department which identifies the reason(s) for the delay and the amount of time related to each reason. The Department shall review the request and make a determination as to granting all or part of the requested extension.

3. COMPENSATION AND PAYMENT

A Payment shall be made only after receipt and approval of goods and services unless advance payments are authorized by the Chief Financial Officer of the State of Florida under Chapters 215 and 216, Florida Statutes. If the Department determines that the performance of the Vendor is unsatisfactory, the Department shall notify the Vendor of the deficiency to be corrected, which correction shall be made within a time-frame to be specified by the Department. The Vendor shall, within five days after notice from the Department, provide the Department with a corrective action plan describing how the Vendor will address all issues of contract non-performance, unacceptable performance, failure to meet the minimum performance levels, deliverable deficiencies, or contract non-compliance. If the corrective action plan is unacceptable to the Department, the Vendor shall be assessed a non-performance retainage equivalent to 10% of the total invoice amount. The retainage shall be applied to the invoice for the then-current billing period. The retainage shall be withheld until the vendor resolves the deficiency. If the deficiency is subsequently resolved, the Vendor will bill the Department for the retained amount during the next billing period. If the Vendor is unable to resolve the deficiency, the funds retained will be forfeited at the end of the agreement period.

- B. If this Agreement involves units of deliverables, then such units must be received and accepted in writing by the Contract Manager prior to payments.
- C. Bills for fees or other compensation for services or expenses shall be submitted in detail sufficient for a proper preaudit and postaudit thereof.
- D. The bills for any travel expenses, when authorized by terms of this Agreement and by the Department's Project Manager, shall be submitted on the Department's Travel Form No. 300-000-06 and will be paid in accordance with Section 112.061, F.S and the most current version of the Disbursement Handbook for Employees and Managers.
- E. Vendors providing goods and services to the Department should be aware of the following time frames. Upon receipt, the Department has five (5) working days to inspect and approve the goods and services, unless otherwise specified herein. The Department has twenty (20) days to deliver a request for payment (voucher) to the Department of Financial Services. The twenty (20) days are measured from the latter of the date the invoice is received or the goods or services are received, inspected and approved.
- F. If a payment is not available within forty (40) days, a separate interest penalty as established pursuant to Section 215.422, Florida Statutes, shall be due and payable, in addition to the invoice amount, to the Vendor. Interest penalties of less than one (1) dollar shall not be enforced unless the Vendor requests payment. Invoices which have to be returned to a Vendor because of Vendor preparation errors shall result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the Department.
- G. The State of Florida, through the Department of Management Services, has instituted MyFloridaMarketPlace, a statewide eProcurement system. Pursuant to Section 287.057(22), Florida Statutes, all payments shall be assessed a transaction fee of one percent (1%), which the Vendor shall pay to the State. For payments within the State accounting system (FLAIR or its successor), the transaction fee shall, when possible, be automatically deducted from payments to the Vendor. If automatic deduction is not possible, the Vendor shall pay the transaction fee pursuant to Rule 60A-1.031 (2), Florida Administrative Code. By submission of these reports and corresponding payments, Vendor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee. The Vendor shall receive a credit for any transaction fee paid by the Vendor for the purchase of any item(s) if such item(s) are returned to the Vendor through no fault, act, or omission of the Vendor. Notwithstanding the foregoing, a transaction fee is non-refundable when an item is rejected or returned, or declined, due to the Vendor's failure to perform or comply with specifications or requirements of the Agreement. Failure to comply with these requirements shall constitute grounds for declaring the Vendor in default and recovering procurement costs from the Vendor in addition to all outstanding fees. **VENDORS DELINQUENT IN PAYING TRANSACTION FEES MAY BE EXCLUDED FROM CONDUCTING FUTURE BUSINESS WITH THE STATE.**
- H. A vendor ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for vendors who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 413-5516.
- I. Records of costs incurred under terms of this Agreement shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for three (3) years after final payment for the work pursuant to this Agreement is made. Copies of these documents and records shall be furnished to the Department upon request. Records of costs incurred shall include the Vendor's general accounting records and the project records, together with supporting documents and records of the Vendor and all subcontractors performing work on the project, and all other records of the Vendor and subcontractors considered necessary by the Department for a proper audit of project costs.
- J. The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making

of contracts for periods exceeding one (1) year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature.

4. INDEMNITY AND PAYMENT FOR CLAIMS

- A. **INDEMNITY:** To the extent permitted by Florida Law, the Vendor shall indemnify and hold harmless the Department, its officers and employees from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by negligence, recklessness, or intentional wrongful misconduct of the Vendor and persons employed or utilized by the Vendor in the performance of this Agreement.

It is specifically agreed between the parties executing this Agreement that it is not intended by any of the provisions of any part of the Agreement to create in the public or any member thereof, a third party beneficiary hereunder, or to authorize anyone not a party to this Agreement to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this Agreement.

PAYMENT FOR CLAIMS: The Vendor guaranties the payment of all just claims for materials, supplies, tools, or labor and other just claims against the Vendor or any subcontractor, in connection with the Agreement. The Department's final acceptance and payment does not release the Vendor's bond until all such claims are paid or released.

- B. **LIABILITY INSURANCE.** (Select and complete as appropriate):

- No general liability insurance is required.
- The Vendor shall carry and keep in force during the term of this Agreement, a general liability insurance policy or policies with a company or companies authorized to do business in Florida, affording public liability insurance with a combined bodily injury limits of at least \$200,000.00 per person and \$300,000.00 each occurrence, and property damage insurance of at least \$200,000.00 each occurrence, for the services to be rendered in accordance with this Agreement

- E. **CERTIFICATION.**

With respect to any general liability insurance policy required pursuant to this Agreement, all such policies shall be issued by companies licensed to do business in the State of Florida. The Vendor shall provide to the Department certificates showing the required coverage to be in effect with endorsements showing the Department to be an additional insured prior to commencing any work under this Contract. Policies that include Self Insured Retention (SIR) will not be accepted. The certificates and policies shall

provide that in the event of any material change in or cancellation of the policies reflecting the required coverage, thirty days advance notice shall be given to the Department or as provided in accordance with Florida law.
