EUPL	End User Price List
HA/HR	Highly-available and Highly-reliable. Systems, services, and implementations designed to eliminate planned downtime and prevent unplanned downtime; methods utilize specific hardware, software, and processes; typically implemented in mission critical services.
IP	Internet Protocol
IPsec	An Internet Engineering Task Force standard. Text from RFC 4301 - IPsec creates a boundary, between unprotected and protected interfaces, for a host or a network. Traffic traversing the boundary is subject to the access controls specified by the user or administrator responsible for the IPsec configuration.

**ITN No.: DMS-19/20-006**  
**Attachment E – Definitions and Acronyms**

IPsec Tunnel	Tunnels are a design technique utilized by telecommunications service providers to manage traffic. IPsec tunnels are used to create closed user groups to enforce segregation of traffic. IPsec tunnels are a specific type of tunnel which provides security services for IP packets through encryption, authentication, and protection against replay.
MFN	MyFloridaNet
OEU	Other Eligible Users. The entities provided services under this Contract that are not State agencies and are not required to use the SUNCOM Network but are otherwise authorized to use the SUNCOM Network in accordance with Chapter 282, F.S. These include, but are not limited to, political subdivisions of the State, including counties, municipalities, school districts, and water management districts. Also included are, private nonprofit elementary and secondary schools conditioned upon certain requirements, universities, libraries of community colleges, and nonprofit corporations.
Person	When capitalized in Sections 9 and 13 of Attachment B, Draft Contract, this means the Contractor's employees, subcontractor personnel, independent contractors, leased employees, volunteers, licensees, or other person operating under the Contractor's direction with Access to State Data or who enters either the premises or facilities where State Data is stored or accessible.
Reply	A formal response to this ITN.
Respondent	An entity that submits a Reply to this ITN.
SLA	Service Level Agreement
SLA Clock	Service Level Agreement Clock. The SLA clock refers to how a deliverable will be measured in terms of time for completion as stated in the particular SLA.
SNMP	Simple Network Management Protocol
State	The State of Florida
State Data	All documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by the Contractor in its performance under this Contract.
Subcontractor	A third party performing work under the Contract at the direction of the Contractor, including affiliates, partners, teammates, and all other third-party vendors.
VPN Concentrator	Virtual Private Network Concentrator. A device, or collection of devices, built to manage secure connections within or between infrastructures.
VRF	Virtual Routing and Forwarding
