Termination - Funds Unavailability. In the event funds to finance this Contract become unavailable or if federal or state funds upon which this Contract is dependent are withdrawn or redirected, the Commission may terminate this Contract upon no less than twenty-four (24) hours' notice in writing to Contractor. Said notice shall be delivered by certified mail, return receipt requested or in person with proof of delivery. The Commission shall be the final authority as to the availability of funds and will not reallocate funds appropriated for this Contract to another program thus causing "lack of funds." In the event of termination of this Contract under this provision, Contractor will be compensated for any work satisfactorily completed prior to notification of termination.

Termination – Other. The Commission may terminate this Contract if the Contractor fails to: 1.) comply with all terms and conditions of this Contract; 2.) produce each deliverable within the time specified by the Contract or extension; 3.) maintain adequate progress, thus endangering the performance of the Contract; or, 4.) abide by any statutory, regulatory, or licensing requirement. Rule 60A-1.006(3), F.A.C., governs the procedure and consequences for default. Contractor shall not be entitled to recover any cancellation charges or lost profits.

Contractor Discontinuation of Activities upon Termination Notice. Upon receipt of notice of termination, the Contractor shall, unless the notice directs otherwise, immediately discontinue all activities authorized hereunder. Upon termination of this Contract, the Contractor shall promptly render to the Commission all property belonging to the Commission. For the purposes of this section, property belonging to the Commission shall include, but shall not be limited to, all books and records kept on behalf of the Commission.

ELIGIBILITY

The Contractor shall be licensed as necessary to perform under this contract as may be required by law, rule, or regulation; and shall provide evidence of such compliance to the Commission upon request.

By acceptance of this contract, the Contractor warrants that it has the capability in all respects to fully perform the contract requirements, the integrity and reliability that will assure good-faith performance as a responsible contractor, and that the Contractor shall comport with Chapter 287, F.S., and all other applicable rules and laws.

RELATIONSHIP OF THE PARTIES

The parties agree that there is no conflict of interest or any other prohibited relationship between the Contractor and the Commission.

PROHIBITION OF UNAUTHORIZED ALIENS

In accordance with federal Executive Order 96-236, the Commission shall consider the employment by the Contractor of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationalization Act. Such violation shall be cause for unilateral cancellation of this Contract if the Contractor knowingly employs unauthorized aliens.

EMPLOYMENT ELIGIBILITY VERIFICATION

Requirement to Use E-Verify. Executive Order 11-116, signed May 27, 2011, by the Governor of Florida, requires Commission contracts in excess of nominal value to expressly require the Contractor to: 1.) utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by Contractor during the Contract term; and, 2.) include in all subcontracts under this Contract, the requirement that subcontractors performing work or providing services pursuant to this Contract utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the term of the subcontract.

E-Verify Online. E-Verify is an Internet-based system that allows an employer, using information reported on an employee's Form I-9, Employment Eligibility Verification, to determine the eligibility of all new employees hired to work in the United States after the effective date of the required Memorandum of Understanding (MOU); the responsibilities and elections of federal contractors, however, may vary, as stated in Article II.D.1.c. of the MOU. There is no charge to employers to use E-Verify. The Department of Homeland Security's E-Verify system can be found online at http://www.dhs.gov/files/programs/gc_1185221678150.shtm.

Enrollment in E-Verify. If Contractor does not have an E-Verify MOU in effect, the Contractor must enroll in the E-Verify system prior to hiring any new employee after the effective date of this Contract.

E-Verify Recordkeeping. The Contractor further agrees to maintain records of its participation and compliance with the provisions of the E-Verify program, including participation by its subcontractors as provided above, and to make such records available to the Commission or other authorized state entity consistent with the terms of the Contractor's enrollment in the program. This includes maintaining a copy of proof of the Contractor's and subcontractors' enrollment in the E-Verify Program (which can be accessed from the "Edit Company Profile" link on the left navigation menu of the E-Verify employer's homepage).

Employment Eligibility Verification. Compliance with the terms of the Employment Eligibility Verification provision is made an express condition of this Contract and the Commission may treat a failure to comply as a material breach of the Contract.

If this Contract is supported by federal funds, the federal awarding agency reserves a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use the work for federal purposes, and to authorize others to do so.

CONFIDENTIALITY/PUBLIC RECORDS LAW

Bidders are cautioned that Florida law generously defines what constitutes a public record and grants broad rights of public access to those records; see, for example, section 119.07 of the Florida Statutes. If a Bidder believes that its response contains information that is confidential or exempt from disclosure under Florida Law, the Bidder shall clearly segregate and mark that information (for example, stamp each page "Confidential" and place it in an envelope marked "Confidential") and briefly describe in writing the grounds and specific legal citations for claiming exemption from the public records law. If after the notice of intended decision or 30 days after bid opening, whichever is earlier, the Commission receives a public records request related to the solicitation, the Commission will provide copies of public records that are not exempt to the requester. The Commission will endeavor to provide notice to the Bidder of all public records requests received related to documents provided by the Bidder that were marked pursuant to this paragraph. In no event shall the Bidder hold the Commission or any of its employees or agents liable for disclosing, or otherwise failing to protect the confidentiality of, information submitted in response to this solicitation.

SECURITY AND CONFIDENTIALITY

The Contractor shall maintain the security of any information created under this Contract that is identified or defined as "confidential" in the Scope of Work. The Contractor shall not divulge to third parties any confidential information obtained by the Contractor or its agents, distributors, resellers, subcontractors, officers or employees in the course of performing Contract work. To ensure confidentiality, the Contractor shall take appropriate steps regarding its personnel, agents, and subcontractors. The warranties of this paragraph shall survive the Contract.

COMPLIANCE WITH LAWS

The Contractor shall comply with all laws, rules, codes, ordinances, and licensing requirements that are applicable to the conduct of its business, including those of Federal, State, and local agencies having jurisdiction and authority. By way of non-exhaustive example, Chapter 287 of the Florida Statutes and Chapter 60A-1 of the Florida Administrative Code govern the Contract. By way of further non-exhaustive example, the Contractor shall comply with section 247A(e) of the Immigration and Nationalization Act,

the Americans with Disabilities Act, and all prohibitions against discrimination on the basis of race, religion, sex, creed, national origin, handicap, marital status, or veteran's status. Bidders submitting responses to this solicitation must also provide electronic and information technology resources in complete compliance with the accessibility standards provided in Rule 60-8.002, F.A.C.; these standards establish a minimum level of accessibility. Violation of such laws shall be grounds for Contract termination.

PROHIBITION AGAINST LOBBYING

The Contractor certifies that no Federal appropriated funds have been paid or will be paid, on or after December 22, 1989, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of an agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress, in connection with the awarding, renewal, amending or modifying of any Federal contract, grant, or cooperative agreement. If any non-Federal funds are used for lobbying activities as described above in connection with this Contract, the Contractor shall submit Standard Form-LLL, "Disclosure Form to Report Lobbying", and shall file quarterly updates of any material changes. The Contractor shall require the language of this certification to be included in all subcontracts, and all subcontractors shall certify and disclose accordingly.

Pursuant to the Lobbying Disclosure Act of 1995, the Contractor agrees to refrain from entering into any subcontracts under this Agreement with any organization described in Section 501(c)(4) of the Internal Revenue Code of 1986, unless such organization warrants that it does not, and will not, engage in lobbying activities prohibited by the Act as a special condition of the subcontract.

SEVERABILITY AND CHOICE OF VENUE

This Contract has been delivered in the State of Florida and shall be construed in accordance with the laws of Florida. Wherever possible, each provision of this Contract shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Contract shall be prohibited or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Contract. Any action in connection herewith, in law or equity, shall be brought in Leon County, Florida.

JURY TRIAL WAIVER

As consideration of this Contract, the parties hereby waive trial by jury in any action or proceeding brought by any party against any other party pertaining to any matter whatsoever arising out of or in any way connected with this Contract.

CERTIFICATE OF CONTRACT COMPLETION

The Contractor will be required to complete a Certificate of Contract or Task Completion form (**Attachment E**) when all work has been completed and accepted. This form must be submitted to the Commission Contract Manager with the Contractor's final invoice for payment to be authorized. The Contractor agrees to provide commodities or contractual services to the Agency within the manner and at the location specified in the Purchase Order, and any attachments to the Purchase Order. These Purchase Order Terms and Conditions, whether generic or specific, shall take precedence over any inconsistent or conflicting provision in the State of Florida, General Contract Conditions, PUR1000. Additionally, the terms of the Purchase Order supersede the terms of any and all prior agreements with respect to this purchase.

B. Initial Term

Unless otherwise specified, the Purchase Order begins on the date of issuance. Contractual services or commodities to be provided by the Contractor shall be completed by the date specified on the Purchase Order end date.

Section 2. Performance

A. Performance Standards

The Contractor agrees to perform all tasks and provide deliverables as set forth in the Statement of Work and attachments to the Purchase Order. The Agency shall be entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and of the details thereof. Coordination shall be maintained by the Contractor with representatives of the Agency, or of other agencies involved in the project on behalf of the Agency.

B. Performance Deficiency

If the Agency determines that the performance of the Contractor is unsatisfactory, the Agency may notify the Contractor of the deficiency to be corrected, which correction shall be made within a time-frame specified by the Agency. The Contractor shall provide the Agency with a corrective action plan describing how the Contractor will address all issues of contract non-performance, unacceptable performance, and failure to meet the minimum performance levels, deliverable deficiencies, or contract non-compliance. If the corrective action plan is unacceptable to the Agency, the Contractor will be assessed a non-performance retainage equivalent to 10% of the total invoice amount or as specified in the contractual documents. The retainage will be applied to the invoice for the then-current billing period. The retainage will be withheld until the Contractor resolves the deficiency. If the deficiency is subsequently resolved, the Contractor may invoice the Agency for the retained amount during the next billing period. If the Contractor is unable to resolve the deficiency, the funds retained will be forfeited.

Section 3. Payment and Fees

A. Payment Invoicing

The Contractor will be paid upon submission of properly certified invoice(s) to the Agency after delivery and acceptance of commodities or contractual services is confirmed in writing by the Agency. Invoices shall contain detail sufficient for audit thereof and shall contain the Purchase Order and the Contractor's Federal Employer Identification Number or Social Security Number.

B. Payment Timeframe

Section 215.422, Florida Statutes (F.S.), provides that agencies have five (5) working days to inspect and approve commodities or contractual services. Items may be tested for compliance with specifications. Items delivered not conforming to specifications may be rejected and returned at the Contractor's expense.

Interest penalties for late payment are also provided for in section 215.422, F.S. A Vendor Ombudsman, whose duties include acting as an advocate for vendors who may be experiencing problems obtaining timely payment(s) from an Agency, may be contacted at 850-413-5516, or Vendors may call the State Comptroller's Hotline at 1-800-848-3792. With the exception of payments to health care providers for hospital, medical, or other health care services, if payment is not available within 40 days, measured from the latter of the date the invoice is received or the commodities or services are received, inspected, and approved, a separate interest penalty set by the DFS pursuant to subsection 55.03(1), F.S. will be due and payable in addition to the invoice amount. Payments to health care providers for hospitals, medical or other health care services, shall be made not more than 35 days from the date of the eligibility for payment is determined, and the daily interest rate is .03333%. PROJECT DESCRIPTION

Section 1. INTENT OF CONTRACT DOCUMENTS

1.1 It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents as being required to produce the intended result shall be supplied whether or not specifically called for. When words, which have a well-known technical or trade meaning are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in affect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2 If during the performance of the Work Contractor discovers a conflict, error or discrepancy in the Contract Document, Contractor immediately shall report same to FWC in writing and before proceeding with the Work affected thereby shall obtain a written interpretation or clarification from the FWC. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3 Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications of other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the FWC. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

Section 2. COMPENSATION AND PAYMENT

2.1 Pay items are itemized in Schedule of values/deliverables. CONTRACTOR may invoice for items identified in Schedule of Values/Deliverables as each item is substantially completed and approved by the FWC construction administrator. Application for Certification and Payment, AIA Form G703, must be completed with a Schedule of Values/Deliverables, worksheet showing completed work. The FWC construction administrator will confirm completed work and sign and seal the Application for Payment or return the Application for Payment with deficient items identified to CONTRACTOR for revision.

2.2 Application for Payment may be made to the FWC on a monthly basis.

Section 3. INVESTIGATION AND UTILITIES

3.1 Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the Project area as a whole; topography and ground surface conditions; nature and quality of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for additional time or compensation.

3.2 Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to in this Section 2 as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Contractor shall be responsible for properly shoring, supporting and protecting all Utilities at all times during the course of the Work.

Section 4. SCHEDULE

4.1. The Contractor, within ten (10) calendar days after receipt of the Notice of Award, shall prepare and submit to FWC, for review and approval, a progress schedule for the Project (herein "Progress Schedule"). The Progress Schedule may be provided in an electronic format. The Progress Schedule shall relate to all Work required by the Contract Documents and shall provide for expeditious and practicable execution of the Work within the Contract Time. The Progress Schedule shall indicate the dates for starting and completing the various stages of the Work.

4.2. The Progress Schedule shall be updated bi-monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the FWC's review and approval. Contractor shall submit the updates to the Progress Schedule with its Applications for Payment noted below. The FWC's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the FWC's obligation to pay Contractor. **[NOTE: FOR LARGER PROJECTS, THROUGH THE SUPPLEMENTAL CONDITIONS OR TECHNICAL SPECIFICATIONS, FWC MAY WISH TO EXPAND UPON THE LEVEL OF DETAIL REQUIRED FOR THE PROJECT SCHEDULE.]**

Section 5. SUBMITTALS AND SUBSTITUTIONS

5.1. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. Contractor shall submit all such materials at its own expense and in such form as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof.

5.2 Prior to submitting its first Application for Payment, Contractor shall provide to FWC a DVD showing the pre-construction conditions located within the limits of construction.

5.3. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by

words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by FWC if sufficient information is submitted by Contractor to allow the FWC to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by FWC from anyone other than Contractor and all such requests must be submitted by Contractor to FWC within thirty (30) calendar days after Notice of Award is received by Contractor.

5.4. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the FWC for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with FWC for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the FWC in evaluating the proposed substitute. The FWC may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

5.5. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the FWC, if Contractor submits sufficient information to allow the FWC to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the FWC shall be the same as those provided herein for substitute materials and equipment.

5.6. The FWC shall be allowed a reasonable time within which to evaluate each proposed substitute. The FWC shall be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the FWC's prior written acceptance which shall be evidenced by either a Change Order or an approved Shop Drawing. The FWC may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

Section 6. DAILY REPORTS, AS-BUILTS AND MEETINGS

6.1. Unless waived in writing by FWC, Contractor shall complete and submit to the FWC on a weekly basis a daily log of the Contractor's work for the preceding week in a format approved by the FWC. The daily log shall document all activities of Contractor at the Project site including, but not limited to, the following:

6.1.1. Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions which adversely affect the Work and notification of the Office Operations Manager on site within 24 hours of any rain day that Contractor wishes to claim;

6.1.2. Description of Work being performed at the Project site that week and expected FWC staff interruptions;

6.1.3. Any unusual or special occurrences at the Project site; and the daily log shall not constitute nor take the place of any notice required to be given by Contractor to FWC pursuant to the Contract Documents.

6.2. Contractor shall maintain in a safe place at the Project site one record copy of the Contract Documents, as well as all shop drawings and other Contractor submittals and all written interpretations and clarifications issued by the FWC, in good order and annotated to show all changes made during construction. The annotated drawings shall be continuously updated by the Contractor throughout the prosecution of the Work to accurately reflect all field changes that are made to adapt the Work to field conditions, changes resulting from Change Orders, Work Directive Changes and Field Orders, and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the Project site, shall be accurately located on the annotated drawings as to depth and in relationship to not less than two (2) permanent features (e.g. interior or exterior wall faces). The annotated drawings shall be clean and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. The "As-Built" record documents, together with all approved samples and a counterpart of all approved shop drawings shall be available to FWC for reference. Upon completion of the Work, and as a condition precedent to Contractor's entitlement to final payment, these "As-Built" record documents, samples and shop drawings shall be delivered to FWC by Contractor for FWC.

6.3. Contractor shall keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. FWC, or any duly authorized agents or representatives of FWC, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

Section 7. CONTRACT TIME AND TIME EXTENSIONS

7.1. Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and materialmen, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be delayed or impaired by any act or omission of Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures, as well as coordination of all portions of the Work under the Contract Documents.

7.2. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine regulations, strikes or lockouts, Contractor shall notify the FWC in writing within forty-eight (48) hours after the commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which Contractor may have had to request a time extension.

7.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which FWC may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from FWC. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against FWC will be the right to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damage For Delay"

provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

SECTION 8. FINANCIAL CONSEQUENCES

8.1 Time is of the essence in the performance of the Work under this Agreement. The "Commencement Date" shall be established in the Notice to Proceed to be issued by the FWC. Contractor shall commence the Work within five (5) calendar days from the Commencement Date. No Work shall be performed at the Project site prior to the Commencement Date. Any Work performed by Contractor prior to the Commencement Date shall be at the sole risk of Contractor. The Work shall be substantially completed within (180) calendar days from the Commencement Date. The Work shall be fully completed and ready for final acceptance by the FWC within (201) calendar days from the Commencement Date (herein "Contract Time"). No work under this contract shall commence until certificates of insurance (see Exhibit A, paragraph 13.2) have been received and acknowledged by the Purchasing Manager.

8.2 FWC and Contractor recognize that, since time is of the essence for this Agreement, FWC will suffer financial loss if the Work is not substantially completed within the time specified above, as said time may be adjusted as provided for herein. Should Contractor fail to substantially complete the Work within the time period noted above, FWC shall be entitled to assess, as liquidated damages, but not as a penalty, \$100_for each calendar day thereafter until substantial completion is achieved. The Project shall be deemed to be substantially completed on the date the FWC issues a Substantial Completion Certificate pursuant to the terms hereof.

8.3 FWC will retain 10% of all approved Applications for Payment. This retainage will be paid to CONTRACTOR at the time that all work is complete and punch list items corrected to the satisfaction of FWC

8.4 Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the FWC's actual damages at the time of contracting if Contractor fails to substantially complete the Work in accordance with the progress schedule.

8.5 When any period of time is reference to by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

Section 9. CHANGES IN THE WORK

9.1 FWC shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of FWC, and FWC shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of FWC is authorized to direct any extra or changed work orally.

9.2 A Change Order shall be issued and executed promptly after an agreement is reached between Contractor and FWC concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount and Contract Time shall be adjusted in the Change Order in the manner as FWC and Contractor shall mutually agree.

9.3. If FWC and Contractor are unable to agree on a Change Order for the requested change, Contractor shall, nevertheless, promptly perform the change as directed by FWC in a written Work Directive Change. In that event, the Contract Amount and Contract Time shall be adjusted as directed by FWC. If Contractor disagrees with the FWC's adjustment determination, Contractor must make a claim of these General Conditions or else be deemed to have waived any claim on this matter it might otherwise have had.

9.4. In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. In the event such change Work is performed by a Subcontractor, a maximum ten percent (10%) markup for all overhead and profit for all Subcontractors' and sub-subcontractors' direct labor and material costs and actual equipment costs shall be permitted, with a maximum five percent (5%) markup thereon by the Contractor for all of its overhead and profit, for a total maximum markup of fifteen percent (15%). All compensation due Contractor and any Subcontractor or sub-subcontractor for field and home office overhead is included in the markups noted above.

9.5. FWC shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Change Order.

9.6. The FWC shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount or an extension to the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.

Section 10. OTHER WORK

10.1. FWC may perform other work related to the Project at the site by FWC's own forces, have other work performed by utility owners or through other direct contracts. If the fact that such other work is to be performed is not noted in the Contract Documents, notice thereof will be given to Contractor. If Contractor believes that such performance will involve additional expense to Contractor or require additional time, Contractor shall send written notice of that fact to FWC within forty-eight (48) hours of being notified of the other work. If the Contractor fails to send the above required forty-eight (48) hour notice, the Contractor will be deemed to have waived any rights it otherwise may have had to seek an extension to the Contract Time or adjustment to the Contract Amount.

10.2. Contractor shall afford each utility owner and other contractor (or FWC, if FWC is performing the additional work with FWC's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its Work with theirs. Contractor shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the FWC and the others whose work will be affected.

10.3. If any part of Contractor's Work depends for proper execution or results upon the work of any other contractor or utility owner (or FWC), Contractor shall inspect and promptly report to FWC in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. Contractor's failure to report will constitute an acceptance of the other work as fit and proper for integration with Contractor's Work.

Section 11. COMPLIANCE WITH LAWS

11.1. Contractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, regulations and requirements applicable to the Project, including but not limited to those dealing with taxation, worker's compensation, equal employment and safety. If Contractor observes that the Contract Documents are at variance therewith, it shall promptly notify FWC in writing. Compliance with the above laws shall include but is not limited to: (1) the Occupational Safety and Health Act, 29 CFR 1910 and 1926, respectively, General Industry Standards and Construction Industry Standards, including regulations regarding Trenching and Shoring; (2) the Florida Workers' Compensation Law, Chapter 440, Florida Statutes; (3) Rules 38F and 38I, Florida Administrative Code; and (4) Florida Department of Transportation Manual of Traffic Control and Safe Practices. Failure to adhere to the requirements of the above named laws and regulations regarding safety and traffic control shall be grounds for an immediate work stoppage, either by FWC staff or the Contractor, until the deficiency is corrected.

Section 12. CLEANUP AND PROTECTIONS

12.1. Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work, Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surface materials, and shall leave the Project site clean and ready for occupancy by FWC.

12.2. Any existing surface or subsurface improvements, including, but not limited to, pavements, curbs, sidewalks, pipes, utilities, footings, structures, trees and shrubbery, not indicated in the Contract Documents to be removed or altered, shall be protected by Contractor from damage during the prosecution of the Work. Any such improvements so damaged shall be restored by Contractor to the condition equal to that existing at the time of Contractor's commencement of the Work.

Section 13. ASSIGNMENT

13.1. Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of FWC. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward FWC.

Section 14. PERMITS, LICENSES AND TAXES

14.1. All permits and licenses necessary for the prosecution of the Work shall be procured and paid for by Contractor. All permits or fees, including but not limited to, all license fees, permit fees, impact fees or inspection fees payable by Contractor to FWC have been disclosed to Contractor in the bidding documents or other request for proposal at the time the project was let for bid. If Contractor performs any Work without obtaining, or contrary to, such permits or licenses, Contractor shall bear all costs arising therefrom. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work.

14.2. Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

Section 15. COMPLETION

15.1. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the FWC shall promptly make such inspection

and, if it finds the work acceptable and fully performed under the Contract Documents, shall promptly issue a final Certificate for Payment, stating that, on the basis of observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor is due and payable. The final payment shall not become due and payable until Contractor submits: (1) the Release and Affidavit (2) consent of surety to final payment, (3) if required by FWC, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by FWC.

Section 16. WARRANTY

16.1. Contractor shall obtain and assign to FWC all express warranties given to Contractor or any subcontractors by any materialmen supplying materials, equipment or fixtures to be incorporated into the Project. Contractor warrants to FWC that any materials and equipment furnished under the Contract Documents shall be new unless otherwise specified, and that all Work shall be of good quality, free from all defects and in conformance with the Contract Documents. Contractor further warrants to FWC that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents. If, within (1) year after final completion, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from FWC. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which FWC is entitled as a matter of law.

16.2 Contractor shall transfer all equipment warranties to FWC upon completion of installation. Equipment shall be installed in compliance with manufacturer's recommendations so that manufacturer's warranties will not be voided. Any conflicts between the Construction Plans, Specifications and the manufacturer's recommendations shall be resolved in writing with FWC approval prior to equipment installation.

Section 17. TESTS AND INSPECTIONS

17.1. FWC, its respective representatives, agents and employees, and any governmental agencies with jurisdiction over the Project shall have access at all times to the Work, whether the Work is being performed on or off of the Project site, for their observation, inspection and testing. Contractor shall provide proper, safe conditions for such access. Contractor shall provide FWC with timely notice of readiness of the Work for all required inspections, tests or approvals.

17.2. If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish FWC the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the FWC.

17.3. If any Work that is to be inspected, tested or approved is covered without written concurrence from the FWC, such work must, if requested by FWC, be uncovered for observation. Such uncovering shall be at Contractor's expense unless Contractor has given FWC timely notice of Contractor's intention to cover the same and FWC has not acted with reasonable promptness to respond to such notice. If any Work is covered contrary to written directions from FWC, such Work must, if requested by FWC, be uncovered for FWC's observation and be replaced at Contractor's sole expense.

17.4. The FWC shall charge to Contractor and may deduct from any payments due Contractor all engineering and inspection expenses incurred by FWC in connection with any overtime work. Such overtime work consisting of any work during the construction period beyond the regular eight (8) hour day and for any work performed on Saturday, Sunday or holidays.

17.5. Neither observations by the FWC nor inspections, tests or approvals by others shall relieve Contractor from Contractor's obligations to perform the Work in accordance with the Contract Documents.

Section 18. DEFECTIVE WORK

18.1. Work not conforming to the requirements of the construction plans or Contract Documents shall be deemed defective Work. If required by FWC, Contractor shall as directed, either correct all defective Work, whether or not fabricated, installed or completed, or, if the defective Work has been rejected by FWC, remove it from the site and replace it with undefective Work. Contractor shall bear all direct, indirect and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby, and shall hold FWC harmless for same.

18.2. If the FWC considers it necessary or advisable that covered Work be observed by FWC or inspected or tested by others, Contractor, at FWC's request, shall uncover, expose or otherwise make available for observation, inspection or tests as FWC may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, Contractor shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals), and FWC shall be entitled to an appropriate decrease in the Contract Amount. If, however, such Work is not found to be defective, Contractor shall be allowed an increase in the Contract Amount and/or an extension of the Contract Time, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction.

18.3. If any portion of the Work is defective, or Contractor fails to supply sufficient skilled workers with suitable materials or equipment, or fails to finish or perform the Work in such a way that the completed Work will conform to the Contract Documents, FWC may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of FWC to stop the Work shall not give rise to any duty on the part of FWC to exercise this right for the benefit of Contractor or any other party.

18.4. Should the FWC determine, at its sole opinion, it is in the FWC's best interest to accept defective Work, the FWC may do so. Contractor shall bear all direct, indirect and consequential costs attributable to the FWC's evaluation of and determination to accept defective Work. If such determination is rendered prior to final payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents and reflecting an appropriate decrease in the Contract Amount. If the FWC accepts such defective Work after final payment, Contractor shall promptly pay FWC an appropriate amount to adequately compensate FWC for its acceptance of the defective Work.

18.5. If Contractor fails, within a reasonable time after the written notice from FWC, to correct defective Work or to remove and replace rejected defective Work as required by FWC, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any of the provisions of the Contract Documents, FWC may, after seven (7) days' written notice to Contractor, correct and remedy any such deficiency. To the extent necessary to complete corrective and remedial action, FWC may exclude Contractor from any or all of the

Project site, take possession of all or any part of the Work, and suspend Contractor's services related thereto, take possessions of Contractor's tools, appliances, construction equipment and machinery at the Project site and incorporate in the Work all materials and equipment stored at the Project site or for which FWC has paid Contractor but which are stored elsewhere. Contractor shall allow FWC, and its respective representatives, agents, and employees such access to the Project site as may be necessary to enable FWC to exercise the rights and remedies under this Subsection. All direct, indirect and consequential costs of FWC in exercising such rights and remedies shall be charged against Contractor, and a Change Order shall be issued, incorporating the necessary revisions to the Contract Documents, including an appropriate decrease to the Contract Amount. Such direct, indirect and consequential costs shall include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work or others destroyed or damaged by correction, removal or replacement of Contractor's defective Work. Contractor shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by FWC of FWC's rights and remedies hereunder.

Section 19. SUPERVISION AND SUPERINTENDENTS

19.1. Contractor shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents. Contractor shall keep on the Work at all times during its progress a competent resident superintendent, who shall not be replaced without prior written notice to FWC except under extraordinary circumstances. The superintendent shall be Contractor's representative at the Project site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. FWC shall have the right to direct Contractor to remove and replace its Project superintendent, with or without cause.

Section 20. PROTECTION OF WORK

20.1. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor, or any one for whom Contractor is legally liable, is responsible for any loss or damage to the Work, or other work or materials of FWC or FWC's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

20.2. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

Section 21. EMERGENCIES

21.1. In the event of an emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from FWC is obligated to act to prevent threatened damage, injury or loss. Contractor shall give FWC written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Document have been caused thereby. If the FWC determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document the consequences of the changes or variations. If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed

to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time.

Section 22. USE OF PREMISES

22.1. Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and other lands and areas permitted by law, rights of way, permits and easements, and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

Section 23. SAFETY

23.1. The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

23.1.1. All employees of the Work and other persons and/or organizations who may be affected thereby;

23.1.2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the Project site; and

23.1.3. Other property on Project site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and any underground structures or improvements not designated for removal, relocation or replacement in the contract documents.

23.2. The Contractor shall comply with all applicable codes, laws, ordinances, rules and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. The Contractor shall erect and maintain all necessary safeguards for such safety and protection. The Contractor shall notify owners of adjacent property and of underground structures and improvements and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation or replacement of their property. Contractor's duties and responsibilities for the safety and protection of the Work shall continue until such time as the Work is completed and final acceptance of same by FWC has occurred.

23.3. The Contractor shall designate a responsible representative at the Project site whose duty shall be the prevention of accidents. This person shall be Contractor's superintendent unless otherwise designated in writing by the Contractor to the FWC.

23.4. The Contractor shall adhere at all times to the minimum safety guidelines for construction and renovation projects as set out in Exhibit C of this Agreement.

Section 24. PROJECT MEETINGS

Prior to the commencement of Work, the Contractor shall attend a preconstruction conference with the FWC to discuss the Progress Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, the Contractor shall attend any and all meetings convened by the FWC with respect to the Project, when directed to do so by

FWC. Contractor shall have its subcontractors and suppliers attend all such meetings (including the preconstruction conference) as may be directed by the FWC.

Section 25. MINIMUM PROJECT SAFETY REQUIREMENTS

25.1 The following safety requirements represent the minimum conditions which shall be met by all Contractors and subcontractors performing work for FWC. The Contractor shall be responsible to ensure his compliance with all State and Federal safety regulations as specified in FWC contract documents. Reported or observed violations of OSHA (29 CFR 1910 or 1926) and other regulations shall be brought to the attention of the FWC project manager and FWC Safety Office and shall be immediately corrected by the Contractor. Failure to comply with required safety procedures shall result in the suspension of the Work of the Contractor until such time as his operations are brought into compliance. Items which are not corrected or that are disputed by the Contractor may be referred by the FWC to either the project insurance coordinator or the Department of Labor and Employment Security, Division of Safety, for inspection or interpretation. The Contractor shall take reasonable precautions for work place safety and shall provide reasonable protection to prevent damage, injury, or loss to employees on the work site and to other persons who may be affected by the Work.

25.1.1 Prior to the commencement of the project, the Contractor and all subcontractors shall provide to the FWC a written copy of their respective safety and health plans for review as part of the pre-submittal bid package.

25.1.2 The Contractor shall establish and maintain an access control system at the work site, including a daily sign-in log, for all visitors, including FWC and regulatory personnel. Prior to commencement of construction, the project manager may designate specific individuals for routine access so that their duties are not impeded. All visitors that are not pre-approved for admittance shall be escorted through the project by either a Contractor representative or by the project manager or designee.

25.1.3 The Contractor shall provide all necessary safety equipment for FWC staff, employees, and visitors to enter the work site. This equipment may include hard hats, hearing protection, safety glasses, or any other safety items deemed necessary by the Contractor or required by State or Federal safety regulations.

25.1.4 Construction vehicles on the work site shall always be operated in a safe manner. The Contractor shall take appropriate action to ensure the safety of FWC staff, visitors, and the general public while operating work vehicles at a controlled construction site. Where conditions warrant, or at the request of the FWC, CONTRACTOR will provide appropriate traffic control and vehicle safety measures.

25.1.5 The Contractor shall prominently mark the work site and ensure its security. Site security shall include appropriate fencing, barricades, warning tape, covered walkways and warning signs. In no instance shall a work site be accessible, without obvious warning, to FWC staff, visitors, or the general public. At a minimum, the project site shall be posted with the appropriate trespass warning signs as specified in Section 810.09(2)(d), Florida Statutes: THIS AREA IS A DESIGNATED CONSTRUCTION SITE, AND ANYONE WHO TRESPASSES ON THIS PROPERTY COMMITS A FELONY; DANGER, CONSTRUCTION SITE. AUTHORIZED PERSONNEL ONLY, and other general safety warning signs, i.e., "HARD HAT AREA", as are deemed necessary by the Contractor and project manager.

25.1.6 In the event barricading of a work site is not feasible, alternative measures may be used upon prior approval by the FWC safety Office. Alternative measures may include, but are not limited to, working during “off” hours such as nights, weekends, or holidays, or the providing of temporary accommodations for building occupants (to be prearranged, if necessary, at the discretion of the FWC).

25.1.7 The Contractor shall ensure compliance with all fire safety codes at the work site, especially as to egress, during the construction phase of an occupied facility. In no instance, (except where impractical and with the prior approval of the appropriate life safety code inspector, shall the life safety code components of an occupied facility be reduced or otherwise compromised. A set of these construction plans, with a signature of approval by the appropriate life safety code inspector, shall be kept at each construction site and available for routine inspection. The Contractor shall communicate with each subcontractor as to scheduling of events that may pose hazards or inconveniences to building occupants. The Contractor shall also ensure that appropriate scheduling information is also conveyed to the project manager.

25.1.8 Noise, dust, and the use of chemical products may create inside health hazards at the work site to building occupants requiring that the Contractor to adhere to the following guidelines at a minimum:

25.1.8.1 The Contractor shall initiate construction and engineering safety controls to minimize exposure of dusts, noise, and chemical odors to building occupants. These controls may involve the construction or use of temporary walls, plastic barriers, mechanical ventilation, elimination of make-up air returns from work areas, pressurizing occupied areas, or a combination of several methods. The Contractor shall coordinate all such engineering efforts with the project manager, and these control measures shall require prior approval by the FWC Safety Office. In cases where these efforts may not be feasible, alternative work schedules on evenings and weekends may be instituted as a part of this process.

25.1.8.2 Material Safety Data Sheets (MSDS) shall be provided for all hazardous substances used on the project or brought on the job site. These products include, but are not limited to, paints, solvents, roofing compounds, and cleaning compounds.

25.1.8.3 Appropriate precautions shall be taken to prevent occupant exposure to hazardous respirable dusts, contaminants, and fumes from welding, cutting, or drilling of concrete and masonry, or the operation of internal combustion engines. The Contractor shall also determine whether respirable crystalline silica, which is a potential carcinogen contained in many building products, is present at the work site. Control of dusts from these types of products and operations shall be an essential safety requirement for the Contractor.

25.1.8.4 The Contractor should be aware of other buildings adjacent to his work areas and shall be prepared to take necessary actions to prevent the spread of dusts and fumes to those facilities.

25.1.9 The Contractor shall ensure that all emergency notifications, including those for fires and medical needs, shall be promptly made by dialing 911 dispatchers. The Caller should state the exact location of the work site emergency, the nature of the emergency, and specifically indicate if medical or fire services are needed.

25.1.10 The Contractor agrees and understands that all FWC construction/renovation sites shall be subject to periodic inspection by life safety code inspectors, Florida Department of Labor and Employment Security, Division of Safety, Occupational Safety and Health Administration, Florida Department of Environmental Protection, Environmental Protection Agency, and other Federal, State, or county regulatory agencies.

25.1.11 The Contractor shall provide adequate refuse containers for the disposal of construction debris. Refuse shall not be allowed to accumulate on the project site grounds, and the Contractor shall ensure that these containers are subsequently emptied on a regular basis.

25.1.12 Water runoff and soil erosion from the project site shall be controlled by the Contractor pursuant to the regulations of the Florida Department of Environmental Protection.

25.1.13 Water-based paint and stain products shall be used by the Contractor in the place of solvent-based products where the application so permits. Use of organic solvent-based products shall be used only where absolutely necessary and with the prior approval of the project manager. Lead-containing paints shall not be normally used or specified for any application. If the use of lead-containing paint is essential for a specific application, prior approval from the project manager or FWC Safety Office shall be obtained before their use.

25.1.14 The use of any products containing toxic metals, especially those regulated by Resource Conservation and Recovery Act (RCRA), (i.e. lead, chromium, barium, silver, arsenic, cadmium, mercury, selenium), on the work site shall be avoided. Prior approval for use of these metals shall be obtained by the Contractor from the project manager.

25.1.15 The use of any radioactive materials by the Contractor on project sites shall require pre-approval. Copies of appropriate certifications, licenses, testing, and inspection records shall be provided by the Contractor to the project manager and FWC Safety Office for review.

25.1.16 The FWC has programs for the identification and abatement of asbestos containing building materials. Asbestos abatement can only be performed by state licensed asbestos abatement contractors. General contractors, therefore, shall not be authorized to remove or disturb any asbestos containing materials. Although efforts are made to identify or remove such asbestos containing materials prior to renovations, the possibility exists that asbestos materials may be encountered at a work site. If so, Contractors who encounter such materials shall immediately stop work and notify the project manager.

25.1.17 The above-cited guidelines represent minimum expectations and actions which shall be taken by Contractors while under contract for FWC construction and renovation projects. These guidelines are not all inclusive and will be revised as necessary. In the event these guidelines conflict with other contract documents, the most stringent application shall apply. Any questions or disputes should be brought to the immediate attention of the project manager.
