The program shall be in a Department-owned building located at 2953 Wilson Road, Land O'Lakes, FL 34639, in DJJ's Central region or in a Respondent owned/leased building located in the State of Florida.

II. OVERVIEW OF SERVICES SOUGHT BY THIS REQUEST FOR PROPOSAL (RFP)

The Respondent shall design, develop, implement, operate and sustain a residential program, as outlined herein for youth who have been committed to the Department and assessed utilizing the Department's risk/needs assessment tools, the Community Assessment Tool (CAT) and the Residential Assessment for Youth (RAY), and pre-disposition comprehensive evaluation. Services shall include the provision of custody, treatment, and supervision, twenty-four (24) hours per day, seven days per week, utilizing evidence-based and promising practices within a framework based upon restorative justice principles and practices.

III. STATEMENT OF PURPOSE

The Department is requesting proposals from qualified Respondents who have the qualifications, experience and past performance to provide a program with services clearly linked to the Department's mission, value, and goals for a nonsecure residential program.

To support the Department's vision for residential programs, operation of the proposed program shall accomplish several major program goals, including, but not limited to, the following:

- A. Create a trauma responsive environment that promotes a therapeutic environment for youth in the care of DJJ. Activities and expenditures relating to the promotion of a therapeutic environment are designed to create an environment conducive to the increased efficiency of interventions and services provided in a fully operational facility.
- B. Provide comprehensive medical, mental health and substance abuse treatment and parenting skills that meet the individual needs of youth while empowering the youth voice. Empowering the youth voice is a critical element of a strength-based approach. Youth must be given opportunities to feel that they are valued as partners in the treatment process and specifically, by sharing their ideas, opinions and concerns. (Umpierre, Dedel, Marrow, & Pakseresht, 2016)
- C. Implement evidence-based and promising practices in programs and services that positively mitigate the risk to re-offend.

- E. Engage and empower families.

The Department intends to award a single contract. The award shall be based upon funding availability and the Department's final determination of service needs.

IV. YOUTH TO BE SERVED

- A. Youth Eligibility

Youth to be served shall be girls between the ages of thirteen (13) to eighteen (18) years of age who are committed to the Department after being assessed and referred as appropriate for a nonsecure residential placement and who need Intensive Mental Health Treatment Services.

1. Program services shall be limited to youth referred for program admission from the Department. The Department prohibits the placement in the program of anyone other than youth under the Department's jurisdiction.
2. There shall be no on-site sharing or co-mingling of education, any sports activity, or vehicle transportation with youth committed to the Department and youth who are not under the Department's jurisdiction unless otherwise approved by the Department.

C. Length of Stay

The length of stay depends on the youth's progress in the program by completing their performance plan goals, decreasing their criminogenic risk factors, and addressing the youth's individual treatment goals.

II. DEFINITIONS

The following terms used in this Request for Proposal (“RFP”), unless the context otherwise clearly requires a different construction and interpretation, have the following meanings:

- A. **Comprehensive Evaluation** - The gathering of information addressing physical health, mental health, substance abuse, academic, educational, or vocational problems of a youth for whom a residential commitment disposition is anticipated, which is summarized in the youth’s predisposition report.
- B. **Criminogenic Needs** - Critical factors identified during the assessment process that have been statistically proven to predict future criminal behavior.
- C. **Delinquency Intervention Services** - Those services implemented or delivered by program staff to address youths’ performance plan goals. The intent of delinquency intervention services is to make communities safer by re-socializing youth and increasing their accountability through opportunities to learn prosocial norms and develop cognitive reasoning and other competencies that enable youth to make prosocial choices and live responsibly in the community.
- D. **Evidence-based Delinquency Interventions** - Interventions and practices which have been independently evaluated and found to reduce the likelihood of recidivism, or at least two criminogenic needs within a juvenile offending population. The evaluation must have used sound methodology, including, but not limited to, random assignment, use of control groups or matched comparison groups, valid and reliable measures, low attrition, and appropriate analysis. Such studies shall provide evidence of statistically significant positive effects of adequate size and duration. In addition, there must be evidence that replication by different implementation teams at different sites is possible with similar positive outcomes.
- E. **Gender-Specific Services** - Services to address the unique needs of both boys and girls. This includes gender identity development, identification of risk and protective factors that hinder pro-social and responsible decision-making, and skills competencies that promote responsible male/female behavior. Gender-specific services may include parenting; gender identity issues and safety, health and/or sexual education classes; and communication techniques utilizing evidence-based approach specific to boys/girls. The proposal shall include the competencies, training, and education of staff delivering gender-specific services.
- F. **Individualized Services** - Services delivered in accordance with strengths and needs identified, both by the youth and through valid professional assessments, and guided by an individualized performance plan and individualized treatment plan. The service needed should be provided at the specific level, intensity and duration needed by the individual youth and family.
- G. **Juvenile Justice Information System (JJIS)** - The Department’s electronic information system, which is used to gather and store information on youth having contact with the Department.

- H. **Minority Services** - Services designed and delivered to address the unique needs of minority youth in a manner that recognizes the factors associated with disproportionate minority contact with the juvenile justice system.
- I. **Outcome** - A measure of the quantified result, impact, or benefit of program tasks on the clients, customers, or users of the services.
- J. **Qualified Nonprofit Organization** - An organization registered with the Florida Department of State, Division of Corporations as a nonprofit corporation and is certified as tax exempt under section 501(c)(3) of the Internal Revenue Code.
- K. **Community Assessment Tool (CAT)** - The primary assessment instrument used by the JPO to determine the youth's risk to re-offend and identify criminogenic needs that require intervention. The pre-screen is completed and maintained for all youth who are referred to the Department. The full assessment is completed and maintained for all youth who have been placed under the jurisdiction of the Department by the court and have been identified as appropriate for nonsecure, high or maximum risk to re-offend by the pre-screen.
- L. **Primary Services** – Interventions that have been designated for evaluation using the SPEP.
- M. **Promising Practices** - Manualized curricula that have been evaluated and found to reduce the likelihood of recidivism or at least one criminogenic need with a juvenile offending population. The evaluation must have used sound methodology, including, but not limited to, random assignment or quasi-experimental design, use of control or comparison groups, valid and reliable measures, and appropriate analysis. Such studies shall provide evidence of statistically significant positive effects. In addition, there must be evidence that replication by different implementation teams at different sites is possible with similar positive outcomes.
- N. **Practices with Demonstrated Effectiveness** - Practices based on general principles, strategies, and modalities reported in criminological, psychological, or other social science research as being effective with a juvenile population. These practices should be outlined in a format that ensures consistent delivery by the facilitator across multiple groups.
- O. **Prison Rape Elimination Act (PREA)** - The purpose of the act is to “provide for the analysis of the incidence and effects of prison rape in Federal, State, and local institutions and to provide information, resources, recommendations and funding to protect individuals from prison rape.”
- P. **Proposal** - A document submitted in response to a Request for Proposal (RFP) procurement document to be considered for contract award as a lead agency for the Department.
- Q. **Residential Commitment Program** - Consistent with s. 985.03(44), F.S., the Department's residential commitment programs are grouped into custody classifications based on the assessed risk to public safety. The restrictiveness levels of placement represent increasing restriction on youths' movement and freedom. The least restrictive, or minimum-risk level, is non-residential and falls under the jurisdiction of Probation and Community Control rather than Residential Services. Placing youth into these programs protects the public and holds youth accountable while offering a chance for rehabilitation. Unlike the adult correctional system, youths in residential commitment programs must receive educational and vocational services. Juveniles are committed to these programs for an indeterminate length of time. They must complete an individualized performance plan based on their rehabilitative needs as one of the requirements for release as set forth in Rule 63E-7 F.A.C.
- R. **Restorative Justice Approach** - A philosophy that focuses repairing harm caused to people and relationships by the criminal/delinquent act(s). Service(s) are delivered in a manner that holds youth accountable for their behavior and fosters a restorative community and culture where staff and youth are encouraged to participate in decision-making, conflict resolution, and community service and awareness activities that build leadership skills.
- S. **Standardized Program Evaluation Protocol (SPEP)** - The Standardized Program Evaluation Protocol (SPEP) is an assessment tool derived from meta-analytic research on the effectiveness of juvenile justice interventions. The tool is designed to compare existing intervention services, as implemented in the field, to the characteristics of the most effective intervention services found in the research. The SPEP scoring system allows

service providers to identify specific areas in which program improvements can be made to their existing identified Primary Services.

- T. **State Fiscal Year** - The period from July 1 through June 30.
- U. **System of Care** - A comprehensive continuum of delinquency and related services provided in a specific geographic area that incorporates the local community's priorities.
- V. **Trauma-Informed Care** - Trauma is the experience of violence and victimization often leading to mental health and other types of co-occurring disorders. This may result from sexual abuse; physical abuse; severe neglect; loss; domestic violence, and/or the witnessing of violence; terrorism; or disaster(s). Trauma-Informed Care services are designed to determine the root cause of delinquency, and mental health/co-occurring disorders, and is based on the premise many youth in the juvenile justice system have experienced trauma(s) associated with abuse, violence, and/or fear.
- W. **Treatment Plan** - A written guide that structures the focus of a youth's short-term or ongoing treatment services in the areas of mental health, substance abuse, developmental disability or physical health services.
- X. **Treatment Services** - Services delivered by clinicians in accordance with a mental health, substance abuse, physical health, or developmental disability treatment plan and as set forth in Rule 63M-2, F.A.C. and Rule 63N-1, F.A. C. This includes implementation of an evidence-based and promising practices specifically designed to be delivered by clinicians.

XV. FINANCIAL CONSEQUENCES

- A. Financial consequences shall be assessed for Contract non-compliance or non-performance in accordance with the FDJJ Policy 2000 (Revised 01/31/19) for the following:
 - 1. Failure to submit an Outcome Based Corrective Action Plan (OBCAP) within thirty (30) calendar days of the finalized monitoring summary. This requires an acceptable OBCAP that clearly identified the root cause of the problem and outlines the process measures and outcomes that can be used to track the program's success at correcting the issues. This timeframe may exceed thirty (30) calendar days if agreed to and approved in advance by the Regional Director or designee. The number of deficiencies or the complexity of the OBCAP will determine this approval;
 - 2. Failure to implement the OBCAP for identified deficiencies within the specified time frame(s); or
 - 3. Further failure to make acceptable progress in correcting deficiencies as outlined in the OBCAP within specified time frames.
- B. The Department's Contract Manager or Regional Program Monitor conducts verification within ten business days of date identified by the Respondent on the OBCAP in the Department's Program Monitoring and Management (PMM) system of when the deficiency would be corrected.

- C. The Department shall assess a financial consequence for noncompliance on the Respondent for each uncorrected deficiency identified in the OBCAP. After a failed second verification, the financial consequence(s) shall be assessed for each day the Provider has not complied retroactive to the date of the Department's second verification site visit and shall continue to be imposed daily until each identified deficiency is remedied to full compliance with the OBCAP. Financial consequences for noncompliance can only be made as long as the language and calculations for financial consequences is in the original contract or amendment(s).
- D. The Respondent expressly agrees to the imposition of financial consequences as outlined below, in addition to all other remedies available to the Department by law.
- *Total contracted beds/slots X filled bed/slot per diem rate X 5.0% = Financial Consequence. Imposition of consequences shall be per deficiency per day.*
- E. Written notification to the Respondent, including the deficiency(ies), the conditions (including time frames) that must be in place to satisfy the deficiency(ies) or the Department's concerns, the amount of the financial consequence and the month the deduction shall be made on the invoice, will be drafted by the Department's Contract Manager. The Department's Contract Manager shall deduct the approved amount from the Respondent's next monthly invoice as specified in the written notification.
- F. If the Respondent has a grievance concerning the imposition of financial consequences for noncompliance, the Respondent shall follow the dispute process outlined in the resulting Contract, describing any extenuating circumstances that prevented them from correcting the deficiency(ies).
- G. If the Respondent fails to address the Department's concerns after second verification and after the imposition of financial consequences, absent documentation of extenuating circumstances, the Department may move to the cure process, demand corrective action, and advise the Respondent that failure to do so will result in suspension of services or contract termination.

XVI. OPTIONS

The Department reserves the right to exercise the option below in the event the Department's needs change:

Option for Changes in Contract Services

The Department has the option to modify the resulting Contract, including adding, reducing, or deleting services during the Contract term. XX. GENERAL INSTRUCTIONS FOR PREPARATION OF THE PROPOSAL

The instructions for this RFP have been designed to help ensure that all proposals are reviewed and evaluated in a consistent manner, as well as to minimize costs and response time. **INFORMATION SUBMITTED IN VARIANCE WITH THESE INSTRUCTIONS MAY NOT BE REVIEWED OR EVALUATED.** All proposals must detail the services that will be delivered, the expected results and the recommended performance measures and contain the sections outlined below. Proposals shall be submitted in black and white only, as documents throughout the proposal may be used to draft the resulting Contract(s) which cannot contain color for scanning purposes. Additionally, please limit the use of Respondent logos and labels to the Transmittal Letter and first page of the Technical Response.

Attachment C, #17, “Minor Irregularities / Right To Reject” may be utilized should a Respondent fail to submit any of the information required in the submission of Volume 1, Volume 2, or Volume 3, except those areas explicitly noted.

If the Respondent considers any portion of the documents, data or records submitted in response to this solicitation to be confidential, trade secret or otherwise not subject to disclosure pursuant to chapter 119, F.S., the Florida Constitution or other authority, the Respondent must also simultaneously provide the Department with a separate redacted copy of its proposal and briefly describe in writing the grounds for claiming exemption from the public records law, including the specific statutory citation for such exemption. This redacted copy shall contain the Department's solicitation name, number, and the name of the Respondent on the cover, and shall be clearly titled "Redacted Copy." The redacted copy shall be provided to the Department at the same time the Respondent submits its proposal to the solicitation in the DJJ Bid Library and must only exclude or redact those exact portions which are claimed confidential, proprietary, or trade secret.

The Respondent shall be responsible for defending its determination that the redacted portions of its proposal are confidential, trade secret or otherwise not subject to disclosure. Further, the Respondent shall protect, defend, and indemnify the Department for any and all claims arising from or relating to Respondent's determination that the redacted portions of its proposal are confidential, proprietary, trade secret or otherwise not subject to disclosure.

If the Respondent fails to submit a Redacted Copy with its proposal in the DJJ Bid Library, the Department is authorized to produce the entire documents, data or records submitted by the Respondent in answer to a public records request for these records.

22. PROTESTS

Any protest concerning this solicitation shall be made in accordance with subsections 120.57(3) and 287.042(2), F.S., and Rule 28-110, F.A.C. Questions to the Procurement Manager shall not constitute formal notice of a protest. It is the Department's intent to ensure that specifications are written to obtain the best value for the State and those specifications are written to ensure competitiveness, fairness, necessity and reasonableness in the solicitation process.

- (a) Paragraph 120.57(3)(b), F.S., and Rule 28-110.003, F.A.C., require that a Notice of Protest of the solicitation documents shall be made within seventy-two (72) hours after the posting of the solicitation.
- (b) Paragraph 120.57(3)(a), F.S., requires the following statement to be included in the solicitation: "Failure to file a protest within the time prescribed in section 120.57(3), F.S., or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under chapter 120, F.S."
- (c) Rule 28-110.005, F.A.C., requires the following statement to be included in the solicitation: "Failure to file a protest within the time prescribed in section 120.57(3), F.S., or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under chapter 120, F.S."

23. CAPTIONS AND NUMBERING

The captions, section numbers, article numbers, title and headings appearing in this solicitation are inserted only as a matter of convenience and in no way define, limit, construe or describe the scope or intent of such articles or sections of this solicitation, nor in any way affect this solicitation and shall not be construed to create a conflict with the provisions of this solicitation.

24. CONTACT DURING SOLICITATION

Pursuant to subsection 287.057(23), F.S.: "Respondents to this solicitation or persons acting on their behalf may not contact, between the release of this solicitation and the end of the seventy-two (72) hour period following the agency posting the notice of intended award, excluding Saturdays, Sundays, and state holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in writing to the procurement officer or as provided in the solicitation documents. Violation of this provision may be grounds for rejecting a response."

25. SPECIAL CONDITIONS

Pursuant to Rule 60A-1.002(7), F.A.C., an agency may attach additional contractual and technical terms and conditions. These "special conditions" shall take precedence over Form PUR 1000 and PUR 1001 unless the conflicting term is statutorily required, in which case the term contained in the form shall take precedence.

26. COOPERATION WITH INSPECTOR GENERAL

It is the duty of every state officer, employee, agency, special district, board, commission, contractor, and subcontractor to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing pursuant to this section. By submitting a proposal to this solicitation, the Respondent acknowledges its understanding and willingness to comply with this requirement.

27. UNSUCCESSFUL CONTRACT AWARD

After award, should the awarded Respondent(s) fail to update, revise, or otherwise alter its original response submission correctly or in a timely manner (including all attachments and exhibits not scored), the Department reserves the right to cease drafting the resulting Contract with the first awarded Respondent(s) and move to the next highest ranked Respondent(s), without having to post another Notice of Award.

On the ACA Compliance Report, it states “Facility/Program.”</p> <p>Evidence of Accreditation: Accreditation certificate.</p>
2. Commission on Accreditation of Rehabilitation Facilities (CARF)	<p>Accredits human service respondents and networks (Respondent organizations) for their specific programs and services. The organization is provided a main accreditation certificate (organization’s name, which is the main physical site name) and it will list all programs/services accredited at all locations. When certificates are requested for additional physical sites, the certificates will list the organization’s name (the main physical site name), the additional physical site name, and the programs for that site location only.</p> <p>Defines a “program” as a system of activities performed for the benefit of persons served; a sub-unit of the Customer Service categories.</p> <p>Evidence of Accreditation: An official notification letter and an accreditation certificate.</p>
3. Council on Accreditation (COA)	<p>Accredits child and family-service and behavioral healthcare organizations. Originally known as an accrediting body for family and children’s agencies, COA currently accredits 38 different service areas and over 60 types of programs. Among the service areas are substance abuse treatment, adult day care, services for the homeless, foster care, and inter-country adoption. Organizations are eligible for COA accreditation if they provide human services. An organization that does not provide human services, but where its consumers (communities, stakeholders, members, other organizations, or agencies) provide human services may also be eligible for accreditation.</p> <p>COA accredits organizations and services, not specific programs. COA accreditation applies to the entire organization and the services that it provides. An organization’s accreditation includes all of its programs that fall under the service areas listed in the COA letter. COA does not separately accredit services provided in residential and non-residential settings, nor does it separately accredit services provided to adults or juveniles.</p> <p>Defines a “program” as a system of services offered by an organization. For example, an organization providing a mental health service may offer several mental health programs to different populations, e.g.,</p>

a mental health program for adolescent teens. The word "program" can be used interchangeably with the word "service" or to describe specific programs.

Evidence of Accreditation: An email communication stating that the organization has achieved accreditation (sent within 7 days of the decision being made); a formal notification letter (sent within 2 weeks); a plaque; and a Final Accreditation Report (FAR), which provides a complete set of ratings for all applicable standards, as well as a list of the organization's strengths and areas for improvement (45 days after receiving the formal notification letter).

4. Joint Commission (formerly JCAHO)

Evaluates and accredits healthcare organizations and programs.

An organization will receive an accreditation certificate with the organization's name and the program or service that was accredited. The organization receives a stand-alone certificate for each of its individual programs/services that were accredited.

If you visit the Joint Commission's "Quality Check" website, it will tell you: 1) if an organization is accredited or not, and for which programs/services; 2) detailed information about the individual program/service area that was accredited; and 3) list an organization's physical site locations and the accredited programs/services areas per location.

Defines a "program" in terms of health care settings.

Evidence of Accreditation: An official accreditation report and an official accreditation decision.
