ADMINISTRATIVE FEE

The Division will pay an administrative fee for each medication processed. This administrative fee will cover the PBM administrative costs for processing the prescription.

GUARANTEE TRUE-UP

The Contractor shall annually perform a guarantee true-up of drug pricing and Dispensing Fees. The true-up of drug pricing will be determined by comparing total invoiced drug prices to the total of all invoiced drugs recalculated at the contract guaranteed AWP discount and guaranteed Dispensing Fee.

The Division shall utilize a discount guarantee true-up for drug pricing and dispensing fees. The performance guarantee will be reconciled on an annual basis and tied to the PBM's stated guarantees for the year. When the Contractor achieves or exceeds the AWP discount or dispensing fee contract guarantees listed in Attachment 3, Price Response, the surplus shall be retained by the Division. If the Contractor fails to meet the AWP discount or dispensing fee contract guarantees, the Contractor shall reimburse the Division for the dollar amount of the deficit.

PRESCRIPTION SUPPLY THRESHOLDS

The Division prefers to categorize prescriptions as: 30-day (1-83 days' supply) and 90-day (84 or greater days' supply). The Division is open to evaluating alternative days' supply thresholds such as 30-day (1-34 days' supply) and 90-day (35 or greater days' supply) so long as they are detailed in Attachment D, Price Response. Drug cost submitted on Attachment 3, Price Response, shall be consistent with the days' supply threshold being utilized.

Detailed information summarizing alternative days' supply thresholds may be included with Volume 5 of the Response and will be addressed in negotiations.

GUARANTEE TRUE-UP EXCLUSIONS

Guarantee True-Up Exclusions are excluded from the annual true-up process. If there are exclusions for the categories listed on Attachment 3, Price Response, numbers 1 through 8, those exclusions should be submitted as an attachment to Attachment 3, Price Response, explicitly stated, and in an organized format.
