

MEETING OF THE GOVERNOR AND CABINET
AS HEAD OF THE DEPARTMENT OF HIGHWAY SAFETY
AND MOTOR VEHICLES

DECEMBER 7, 2004

AGENDA

Agency Contact: David F. Westberry, 850/488-2276

1. Respectfully submit the Minutes for the September 21, 2004, Cabinet meeting.

Attachment #1.
Recommend Approval.

2. Respectfully submit the quarterly report for the quarter ending September 2004.

Attachment #2.
Recommend Approval.

3. Respectfully submit the following new state of Florida license plates:

Animal Friend
Discover Florida's Oceans
Family Values
Imagine
Kids Deserve Justice
Live the Dream
Parents Make a Difference
Support Soccer

Attachment #3.
Recommend Approval.

THE CABINET
STATE OF FLORIDA

Representing:

DIVISION OF BOND FINANCE
OFFICE OF FINANCIAL REGULATION
DEPARTMENT OF REVENUE
DEPARTMENT OF LAW ENFORCEMENT
HIGHWAY SAFETY AND MOTOR VEHICLES
FLORIDA LAND & WATER ADJUDICATORY COMMISSION
ADMINISTRATION COMMISSION
BOARD OF TRUSTEES OF THE INTERNAL IMPROVEMENT TRUST FUND
STATE BOARD OF ADMINISTRATION

The above agencies came to be heard before
THE FLORIDA CABINET, Honorable Governor Bush presiding, in the
Cabinet Meeting Room, LL-03, The Capitol, Tallahassee, Florida,
on the 21st day of September, 2004, commencing at approximately
9:30 a.m.

1 **THE GOVERNOR:** Department of Highway Safety and Motor
2 Vehicles.

3 **CFO GALLAGHER:** Motion on the minutes of the February
4 26th, March 9th, and March 30th --

5 **COMMISSIONER BRONSON:** Second.

6 **THE GOVERNOR:** There's a motion and a second on
7 Item 1. Without objection, the motion passes.

8 **MR. DICKINSON:** Item 2 is our quarterly report for
9 the quarter ending March of this year. It's a pretty good
10 start to our calendar year. We had a big increase in our
11 number of driver license and motor vehicle customers in
12 the offices, on the Net, and on the phones. Increased
13 emphasis on motor vehicle dealers. Inspections and the
14 mobile home inspections that we performed statewide for
15 every mobile home that's either constructed here in
16 Florida or offered for sale in this state. That was
17 fairly timely with what we've been through the last two
18 months.

19 We started a new program that requires 80-year-olds
20 or anybody over the age of 79 to be vision-tested every
21 time they renew, not only when they come in the office.
22 Today everybody that comes in the office is vision-tested.
23 But those that renew by mail, phone, or Internet do not do
24 the vision test. We have now put together a plan where
25 they also provide us with a vision test and we put a

1 little web-based plan for the doctors to submit to us of
2 that testing. The doctors for the elderly are also
3 elderly and they are not computer literate and have told
4 us in no uncertain terms they're not going to use it. But
5 fortunately in that quarter only 258 were revoked. About
6 86 percent were approved and just 13 percent had to be
7 referred for new prescriptions or whatever. So it seems
8 to be working. We have not heard any complaints.

9 For that quarter, we had less fatalities and we
10 started our Operation Safe Ride which is a statewide burst
11 we're going to do every so often to try to target
12 aggressive driving throughout the state. Those are some
13 of the highlights from the first quarter, Governor.

14 **THE GOVERNOR:** Is there a motion?

15 **GENERAL CRIST:** Motion.

16 **CFO GALLAGHER:** Second.

17 **THE GOVERNOR:** There is a motion and a second to
18 accept the report. Without objection, it is accepted.

19 **MR. DICKINSON:** Item 3 is our quarterly report for
20 the quarter ending June '04. More customers again. We
21 also began the rollout of our new driver's license that
22 has been before you on more than one occasion. We are now
23 doing central issuance process, those that come through
24 the Internet or those that are noncitizens that come in
25 our office and go through that 30-day delay. We're

1 processing over 7,000 a day. It is working well. We
2 should be doing our performance testing starting next week
3 or in the coming weeks and roll out through the fall. And
4 in addition, we had 18 troopers recognized by MADD as
5 members of the 100 Club. Those are troopers who make 100
6 or more arrests in the previous calendar year. And Ronald
7 J. Evans made 300 arrests, one of our troopers. You know
8 how many days we work in a calendar year. So to make 300
9 DUI arrests in a calendar year is pretty spectacular.

10 **CFO GALLAGHER:** Would you tell us which roads he's
11 covering so --

12 (Laughter.)

13 **MR. DICKINSON:** Polk County. Imperial Polk County,
14 excuse me.

15 **THE GOVERNOR:** Is there a motion?

16 **GENERAL CRIST:** Motion.

17 **COMMISSIONER BRONSON:** Second.

18 **THE GOVERNOR:** There's a motion and a second to
19 accept the report, quarterly report, for the quarter
20 ending June 2004. Without objection, the report is
21 accepted.

22 **MR. DICKINSON:** Governor, Item 4 is the performance
23 contract for this year past. The good news is we did meet
24 50 of our 67 standards, about a 75 percent goal. And as
25 you're well aware, some of our standards are not totally

1 within our control but we are pleased to report that the
2 death rate, that's the fatality per 100 million miles
3 traveled, dropped to an all-time low in Florida of 1.7.
4 The national rate is 1.5 but we've always been about .4 to
5 a half a point above the national rate. So we're
6 shrinking that difference. That is good. That is
7 substantially lower than the goal we set of 1.85.

8 The crash data had some very positive trends. We had
9 just under 3 percent less crashes, 3 and a half percent
10 less injuries and 3 percent less property damage. We did
11 have more people, unfortunately, were fatals on our
12 highways than ever before. But as that tells you, we just
13 got more people driving.

14 Alcohol-related crashes were up a little bit. As I
15 said, fatalities were up about 8 percent. Increase in a
16 lot of our fatalities are pedestrians and motorcycles.
17 Motorcycles up 23 percent. Pedestrians up almost a little
18 over 5 percent. We lead the nation, unfortunately, in
19 pedestrian and bicycle deaths and we're working with DOT
20 on that as we speak. Pretty much met most of our other
21 standards. Seat belt compliance at an all-time high of
22 72.6 percent. Standard we were trying to achieve was
23 67 percent. So we did well in those categories.

24 **THE GOVERNOR:** Is there a motion?

25 **GENERAL CRIST:** Motion.

1 **CFO GALLAGHER:** Second.

2 **THE GOVERNOR:** Motion and second. Without
3 objection -- Item 4 is accepted. The report is accepted.

4 **MR. DICKINSON:** Next year, I'll probably lump these
5 up like Jim Zingale did, but this is the next year's
6 performance contract or I guess the current year. We
7 developed this in conjunction with the legislative
8 appropriation staff and other budgeted entities as
9 approved in the past by the Legislature and signed by the
10 Governor under the General Appropriations Act.

11 Several standards were changed from the prior year or
12 eliminated. But basically, we're trying to reflect some
13 trends and some budget forecasts that are coming that we
14 are trying to comply with.

15 **THE GOVERNOR:** Is there a motion?

16 **COMMISSIONER BRONSON:** Motion.

17 **GENERAL CRIST:** Second.

18 **THE GOVERNOR:** Motion and second. Without objection,
19 the report is accepted.

20 Item 6.

21 **MR. DICKINSON:** Item 6 is our legislative package,
22 Governor, and we have not had success in the legislative
23 package that we have in some other areas. We haven't been
24 able to get our legislative bill through for the last two
25 years. So it really looks the same as I've been before

1 you the last two years. I would like to point out -- I
2 know Commissioner Bronson will be interested in this -- we
3 have a problem with Class D licenses when you're driving a
4 vehicle with a gross vehicle weight rating of over 8,000
5 pounds. Currently -- what has happened, basically,
6 Governor, is the weight of these vehicles has increased
7 more than our ability to keep up through the licensing
8 process. We're suggesting to eliminate the Class D, as in
9 dog, license which is the chauffeur's license, the old
10 chauffeur's license.

11 It really doesn't serve any purpose in today's world.
12 We will still have our commercial driver's licenses plus
13 your Class E license and all the Class Ds would slide back
14 in that category. But if you're driving a truck or an SUV
15 of over 8,000 pounds DVWR, which is a Ford 250, a Chevy
16 2500, a Hummer, these are the cars that are over the 8,000
17 pounds, for your personal convenience, if you drive it,
18 you do not need to get the Class D driver's license. We
19 had that in the bill last year. It did not pass. And I
20 think, quite frankly, there's going to be a separate bill
21 in addition to the Department bill that will fly on this.
22 And from what I hear, a number of legislators are
23 interested in doing it quite early.

24 **THE GOVERNOR:** Yeah, the ones that have cars like
25 that?

1 **MR. DICKINSON:** Yes, sir.

2 **THE GOVERNOR:** Representative Johnson going to
3 sponsor it? I always drive by his Hummer --

4 **MR. DICKINSON:** We don't have a problem with
5 sponsors. They're coming out of the woodwork on it.

6 **COMMISSIONER BRONSON:** If I could, Governor, the
7 thing that brought this to my attention was we had people
8 who had little one and two-horse trailers hooked to their
9 vehicles were being stopped, and many of them by DOT
10 officers, and ticketed. And that's about \$173 ticket for
11 not having a Class D license. The big problem here was
12 and what I talked to Fred about was I don't know a single
13 car dealer who sells an Escalade or one of the more -- the
14 bigger SUVs are telling anybody they got to have a Class D
15 license to drive it, whether you hook a trailer to it or
16 not. And so a lot of housewives are getting a lot of
17 tickets because they don't have -- and wives of farmers
18 and so forth who drive these bigger vehicles to haul
19 supplies back and forth to the farm are getting ticketed.
20 And I just didn't think it was fair if they weren't being
21 warned ahead of time that they've got to go take a special
22 test just to drive that vehicle.

23 So I appreciate Fred working with us on that. I
24 think it will solve that problem.

25 **THE GOVERNOR:** Is there a motion?

1 **GENERAL CRIST:** Motion.

2 **COMMISSIONER BRONSON:** Second.

3 **THE GOVERNOR:** There's a motion and a second to
4 accept the legislative package for the Department 2005.
5 Without objection, it is accepted.

6 **MR. DICKINSON:** Item 7 is our Department LBR,
7 legislative budget request. Governor, this is about a
8 4 percent increase request over the current year. And
9 most all of it is for technology or very few personnel.
10 You're probably familiar with most of it, the funding on
11 the nonrecurring monies is for driver's license contract,
12 which is a little higher than the old one, trooper
13 overtime, motor vehicles, and gasoline and maintenance.
14 And the last couple, I'd like to reflect on a moment.

15 DMS has a standard, if you will, for 75,000 miles for
16 pursuit vehicles. We have an inordinate amount of
17 vehicles over that. And I think all of you -- and you-all
18 have law enforcement under you -- are running into the
19 same problem. With the gas price going up and right now
20 we are only budgeted for a buck 58 at the pump. And so
21 you see how long ago that was changed. We're asking for a
22 little added money there. But I am alarmed at how much
23 our maintenance costs have gone up. And we're asking for
24 just about as much money in increased maintenance costs as
25 we are for the increased gas. And that is all lumped in

1 with our budget request.

2 This year we were fortunate enough to get some,
3 couple million, to handle that. But we're getting to a
4 point where I think it probably needs to go into the base.
5 But every year we do have to request that. Our fleet is
6 growing older and less reliable. Maintenance costs, as I
7 mentioned, sky high. We do have a salary adjustment.
8 We're asking you, Governor, for a critical class
9 acknowledgement of our motor services people. These are
10 the folks on the front line who are making a whopping
11 \$20,000 a year and serve 50,000 customers a day. And this
12 is -- they have been hit hard since 9/11.

13 Quite frankly, our times, our waiting times, are a
14 little longer in our driver's license offices and we are
15 trying to address that. You've given us, through your
16 leadership, some go-ahead for some technological changes
17 that will be coming on board the latter part of this year.
18 But we'd like to recognize those folks. We have some
19 fixed capital outlay issues that we'd like to address that
20 are also embedded in there.

21 And we do have the funding sources, Governor, we've
22 tried to stay away from the general revenue drain. As a
23 matter of fact, our trust fund has been used to try to
24 help in those deficits over the last five or six years.
25 So we hope to continue to do that.

1 The hurricanes have changed the landscape for what's
2 going on right now. Our numbers are not going to look
3 near as good, none of them are next year, and we all know
4 that. Our guys have been stretched pretty thin as all of
5 yours have. I was out on a tractor yesterday,
6 Commissioner Bronson, and I just mowed this pasture a
7 couple of weeks ago and it's amazing how the ant hills
8 were back up in it and that's what we've got out there is
9 an army of ants, not only at our local EOC, but out there
10 in Pensacola, in Gulf Breeze and in all of these towns.
11 And I'd just like to say thanks to you for your leadership
12 and thanks to all our people who are out there. Our guys
13 had about a one-day break between Charley and Frances and
14 about two or three days between this last one. Everybody
15 is a little bit weary but they look like ants. I mean,
16 we're rebuilding, the waves may wash us away but we're
17 going to rebuild that ant hill as quickly as possible.

18 Like I said, we're asking for a little flexibility in
19 this budget to where we can anticipate for some of those
20 contingencies in the future.

21 **COMMISSIONER BRONSON:** Motion on 7.

22 **CFO GALLAGHER:** Second.

23 **THE GOVERNOR:** There's a motion and a second.

24 Treasurer?

25 **CFO GALLAGHER:** I have a question. Not on 7.

1 **THE GOVERNOR:** Okay. There's a motion and a second.
2 All in favor say aye.

3 (Aye.)

4 **THE GOVERNOR:** I abstain for purposes of submitting
5 my own budget to the Florida Legislature.

6 Yes, Treasurer.

7 **CFO GALLAGHER:** My question is on your dealings with
8 certain HAZMAT licenses, we have a clemency case coming up
9 on Thursday where an applicant has three prior felony
10 arrests, arson convictions. He recently flipped a
11 tractor-trailer containing 40,000 gallons of milk yet he
12 still has a valid HAZMAT endorsement. And I'm concerned
13 that maybe we should have some legislation that would sort
14 of keep that from happening here in Florida.

15 **MR. DICKINSON:** Treasurer, we have a new HAZMAT --
16 actually, it was an outcropping, if you will, of the
17 Patriot Act. And July 31st of '05, we will begin the
18 federal HAZMAT program which means a background check,
19 fingerprint, the works, the vetting, through several
20 agencies. That legislation does include the ability for
21 our state to come in and take action in instances such as
22 this.

23 Quite frankly, when it was brought up by your staff a
24 little earlier, we were wondering why this wasn't covered
25 and we probably should have passed something in the past

1 to cover this. But it's always been a federal program
2 that we've relied upon. If we don't have the legislation
3 right now, we know we have the authority, we think the
4 federal legislation knocks that particular case and others
5 out. And I'll have you a little more detailed report
6 later in the week on that. But right now it looks like he
7 will be knocked out under those set of facts.

8 **THE GOVERNOR:** Thank you, Fred.

9 **MR. DICKINSON:** Thank you, Governor.

Florida Department of Highway Safety and Motor Vehicles

Quarterly Report
July - September 2004

Making Highways Safe

Department of Highway Safety and Motor Vehicles

Quarterly Report
July - September 2004

Table of Contents

➤ EXECUTIVE SUMMARY	2
➤ QUARTERLY HIGHLIGHTS	3
➤ ONE DAY IN THE LIFE OF THE DEPARTMENT	6
➤ DEPARTMENT MISSION	6
➤ STATISTICAL SUMMARIES AND INITIATIVES	
1. Highway Safety	7
2. Motorist Services	11
3. Revenue	17
4. Administrative Support	19
➤ PURCHASES IN EXCESS OF \$100,000	20
➤ MINORITY BUSINESS ENTERPRISE UTILIZATION	21

EXECUTIVE SUMMARY

☑ In-office visits by motorists increased 6.7 percent from the previous quarter, as the department served 1,796,434 customers in driver license field offices.*

* This includes customers served in both DHSMV and tax collectors' offices.

☑ 658 highway deaths were reported in the first quarter of fiscal year 2004-2005, a decrease of 12.4 percent from the same quarter of the previous fiscal year. *

* The number of deaths is derived from preliminary information as reported by statewide law enforcement agencies.

☑ There were 4,061,748 organ donors registered through the organ donation sign-up program as of the end of the first quarter, an increase of 87,780 from the previous quarter.

☑ Twenty-eight county tax collectors issued driver licenses in addition to providing motor vehicle title and license plate services for one-stop customer service.

☑ Inspected 1,376 motor vehicle and mobile home dealers' records for compliance with established standards, and issued 2,063 dealer and manufacturer licenses.

☑ Suspensions, revocations, and cancellations of driving privileges decreased 9.1 percent, as 389,677 actions were taken. Additionally, 157,950 insurance suspensions were issued.

☑ DUI enforcement remained a priority as 13,874 administrative (roadside) suspensions were issued to drivers with an unlawful blood alcohol content or for failure to submit to a sobriety test. This 11.1 percent decrease includes 348 suspensions to drivers under 21 for violations of the Zero Tolerance Law.

☑ Issued 1,379,899 new and used vehicle/vessel titles and title transfers.

During the first quarter of this year, millions of people were adversely affected by the four major hurricanes that hit our state. In response, the department dedicated over 230,000 hours and numerous other resources to hurricane relief and assistance efforts. As a result of this reallocation of priorities and resources, many of the measures and criteria typically used to evaluate the department's performance were also adversely affected.

☑ Motor vehicle registration renewals via the telephone and Internet increased nine percent from the prior quarter. A total of 170,370 transactions were conducted through these two services, with 28,103 by telephone and 142,267 by Internet.

☑ Driver license renewals and address changes via mail, telephone, and Internet increased 12 percent from last quarter. A total of 330,137 licenses were issued through these services, with 160,253 coming in by mail, 26,813 by telephone, and 143,071 by Internet. These account for approximately fifteen percent of the department's total driver license transactions.

☑ The FHP cited 2,418 individuals for DUI violations, a decrease of 12.6 percent.

☑ The FHP arrested 1,596 individuals for felony violations, a 22.1 percent decrease.

☑ A decrease of 26.8 percent was noted as the FHP cited or warned 260,761 citizens for traffic or equipment violations.

☑ The FHP rendered assistance to 84,994 motorists with disabled vehicles.

☑ During the first quarter, the department collected \$313,742,800 in revenue.

Note: Where applicable, current quarter statistics are compared to the prior quarter. Information contained in this report is available at the department's web site at www.hsmv.state.fl.us/html/safety.html.

Quarterly Highlights

DHSMV Hurricane Response

During the summer, millions of residents were adversely affected by the four major hurricanes to hit Florida – Charley, Frances, Ivan, and Jeanne. In response to these catastrophic events, the department dedicated over 230,000 hours to the hurricane relief efforts and significant resources were deployed throughout the state by each of the department's divisions.

FHP

Troopers serving on reactionary teams were called upon to participate in search and rescue efforts, while other troopers headed to areas hardest hit to give out food and water to displaced people. Additionally, troopers served to enforce curfews, protect property, control traffic, and escort fuel trucks and emergency medical vehicles where needed. The FHP received numerous compliments from Governor Jeb Bush, Lt. Governor Toni Jennings, Cabinet members, Florida sheriffs and police chiefs, and others concerning the professional, patient, and competent way FHP staff performed their duties during all of these hurricanes.

DMV

Personnel from the Bureau of Mobile Home and Recreational Vehicle (RV) Construction assessed 29,275 mobile homes in 152 mobile home parks throughout the state. One focal point of the assessments was to determine if construction standards adopted by the U.S. Department of Housing and Urban Development (HUD) in 1994 were able to hold up under hurricane conditions. The other was how the new mobile home installation standards adopted by the department in 1999 performed under these same conditions.

The assessments found that approximately 4,056 mobile homes constructed after 1994 to the enhanced construction standards adopted by HUD withstood hurricane-force winds as well as other severe weather conditions and remained intact with minor to no damage. The assessments also indicated that mobile homes installed in accordance with the department's uniform mobile home installation rule generally remained on their foundations with no movement as a result of severe winds or flood waters.

In addition to the assessments performed by the Bureau of Mobile Home and Recreational Vehicle Construction, the Bureau of Titles and Registrations, pursuant to the Governor's executive orders, was authorized to waive the fees for duplicate or replacement license plates, registration certificates, title certificates, and parking placards.

DDL

The Division of Driver Licenses experienced a total of 48 Driver License and Bureau of Administrative Reviews (BAR) office closings following the hurricanes. In most cases the offices were re-opened within 24 to 48 hours with major problems including electrical and telephone outages, downed trees, and roof damage. With the help of rapid response teams consisting of department members,

damages were quickly assessed. With chain saws and generators, trees and other debris were cleared and arrangements were made with vendors for needed repairs.

Four of the department's Florida Licensing on Wheels (FLOW) mobiles were dispatched to areas with offices closings to assist customers. Other assistance was provided by pursuant to the Governor's executive orders allowing for the issuance of no-fee duplicate driver licenses or identification cards to persons affected by the hurricanes.

People First System Implementation

During the first quarter, the department prepared for the October implementation of the People First System. This system allows employees to maintain such personal information as insurance benefits, home address, and W4 information. Employees will now complete an electronic timesheet on the People First System and have immediate access to leave balances. To prepare for the new system, training was provided to over half of agency members by September 30, 2004. Training for the remainder of the members is ongoing as the department fully transitions to the system.

FHP Initiates Hispanic Outreach Program

The FHP's Troop G initiated a new Hispanic outreach program called Salvando Vidas, which is Spanish for "saving lives." The new program is designed to promote traffic safety among Northeast Florida's growing Hispanic population. By partnering with civic, religious, government, and non-profit organizations, the FHP seeks to serve this unique community and promote general traffic safety, vehicle safety, seatbelt use, child restraint use, and DUI awareness among this target population.

The Salvando Vidas Outreach Program has designated Spanish-speaking troopers, who are either of Hispanic ancestry or are bilingual and/or bicultural, as Salvando Vidas Coordinators. These coordinators will work within the Hispanic community to organize community safety events, provide traffic safety education presentations, and serve as role models in the community. In addition, the FHP has established a telephone voice mailbox for callers in the Jacksonville area, which offers a message in Spanish with information about the new program. Also, the FHP has set up an email address for use by members of the Hispanic community to access information about the program: Salvando.vidas@fhp.hsmv.state.fl.us.

Electronic Crash Records Pilot

This quarter, FHP troopers electronically transferred 7,000 short and long form crash reports from their patrol vehicle laptops to PRIDE (Prison Rehabilitative Industries and Diversified Enterprises). PRIDE images all department crash records, which are used for statistical analysis and reporting. Electronic reporting allows for better accuracy in less time by eliminating unnecessary steps associated with manual, handwritten reporting. Accurate, timely reporting is extremely valuable since the department processes about 650,000 records each year. It is anticipated that at least 50 percent of Florida's law enforcement agencies will be participating in electronic records transfer beginning January 1, 2005.

New SunGuide Transportation Management Center Opens

Governor Jeb Bush, Executive Director Fred Dickinson, and Colonel Chris Knight along with other members of the FHP, recently attended the grand opening of the SunGuide Transportation Management Center (TMC) in Miami. The new two-story facility, connected to Troop E Headquarters, will eventually house the FHP Miami Regional Communications Center, which provides dispatch services for nine state law enforcement agencies. The Florida Fish and Wildlife Commission will also move their communications center to the new location in the near future.

The new TMC will serve as the command and control center for the DOT's District 6 operations staff. The DOT will monitor numerous video cameras that are strategically located throughout Miami-Dade County. From this central location, staff can dispatch the DOT's Road Rangers to any highway location requested by the FHP or to any disabled vehicle or roadblock viewed on the cameras. This new technology enables the FHP and others to provide better and faster service to Florida's motoring public.

Driver and Vehicle Information Database (DAVID)

A web based on-line inquiry program called DAVID (Driver and Vehicle Information Database) was implemented in October 2002, and subsequently enhanced in March 2003. Users from law enforcement, the judicial system and various state agencies with statutory authority use DAVID to view driver images and signatures, applications, driving history and vehicle history for motorists, plus identification documents used by non-citizens. DAVID is the first of its kind, providing all information about a motorist (driver/vehicle owner) from one program. DAVID replaced a manual, employee task-oriented process. The department, in partnership with the Florida Department of Law Enforcement (FDLE), provides DAVID to authorized users via the criminal justice network for enforcement and investigative purposes only. During the first quarter of fiscal year 2004-2005, there were 6,503,185 DAVID inquiries, an increase of 73 percent from the 3,752,862 inquiries during the same quarter a year ago.

This year, the department's DAVID Work Group received one of the 11 Davis Productivity Awards that was awarded to the department. The Davis Productivity Awards recognize and reward state government employees whose work significantly and measurably increases productivity and which promotes innovation to improve the delivery of services and save money for taxpayers and businesses.

One Day in the Life of the Department of Highway Safety and Motor Vehicles

**DEPARTMENT MISSION:
Making Highways Safe.**

4,801	Authorized Positions
4,525	Current Employees
1,813	Authorized Sworn Law Enforcement Officer Positions
1,665	Current Sworn Law Enforcement Officers
156	Driver License Office Locations Statewide (Includes tax collector offices that issue driver licenses)
8	Crash Fatalities
3	Alcohol Related Crash Fatalities
\$ 4,902,231	State Revenue Collected
116,633	Miles Patrolled on Highways
70,385	Vehicle and Mobile Home Registrations Issued
18,607	Vehicle and Mobile Home License Plates Issued
21,561	Vehicle/Vessel Titles Issued/Transferred
33,228	Driver License Customers Served
16,802	Court Dispositions Processed (Includes both dispositions collected manually and from the Traffic Citation Accounting Transmission System-TCATS)
3,758	Driver Contacts (Includes written warnings, traffic citations issued, faulty equipment warnings, and assistance rendered to disabled motorists–this includes contacts by both the FHP and Community Service Officers)
212	Hearings Conducted (Includes formal and informal administrative suspensions and hardship cases)

Highway Safety

OBJECTIVES

1. Increase highway safety on patrolled highways.
2. Increase motorist compliance with traffic laws on patrolled highways.
3. Reduce criminal activity on patrolled highways.
4. Increase highway safety education for the motoring public.

ACTIVITY	THIS QUARTER	LAST YEAR SAME QUARTER	PERCENT CHANGE
ENFORCEMENT			
a. Arrests			
1. Unlawful Speed Arrests	74,106	110,919	-33.19
2. DUI Arrests	2,418	2,781	-13.05
3. Felony Arrests	1,596	1,933	-17.43
4. Other Arrests (Includes Drug Related Arrests)	122,487	150,077	-18.38
Total Arrests	200,607	265,710	-24.50
b. Written Warnings	51,638	64,750	-20.25
c. Faulty Equipment Notices	24,489	31,490	-22.23
CRASH INVESTIGATIONS	58,779	39,865	47.45
TRAFFIC HOMICIDE INVESTIGATIONS	424	425	-.24
DRUG INTERDICTION			
a. Drug Related Arrests	866	1,338	-35.28
STOLEN VEHICLES RECOVERED	204	246	-17.07
DUTY HOURS			
a. Unobligated Patrol *	231,238	267,040	-13.41
b. Obligated Patrol **	555,274	383,833	44.67
c. Non-Patrol ***	129,641	131,289	-1.26
Total Duty Hours	916,153	782,162	17.13
MILES PATROLLED	10,730,255	9,377,292	14.43

* Time available for self-initiated, proactive enforcement of traffic and criminal laws.

** Time used to respond to calls for service or to perform functions/activities including crash investigations, DUI investigations, assistance rendered, etc.

*** Time used to perform functions/activities for enhancement of patrol operations, such as training, squad meetings, etc.

TROOPER OF THE MONTH PROGRAM

Each month, the FHP recognizes a member or members whose exceptional efforts increase the safety of Florida motorists through intervention in tragedies and catastrophes affecting residents and visitors on Florida's roads.

Trooper Darryl Haywood
Award recipient
July 2004

Trooper Darryl Haywood was selected as the Florida Highway Patrol's Trooper of the Month for July for his life-saving actions in pulling a motorist from a burning vehicle. On Sunday, July 25, 2004, while on patrol on I-95 Trooper Haywood came upon a single vehicle crash. The driver of the vehicle had fallen asleep, left the roadway, overturned, and struck a tree. When Trooper Haywood arrived on the scene, the vehicle was on fire with the driver still inside. He quickly approached the burning vehicle, broke out a window, and removed the driver from danger.

Corporal Helen McCoy
Award recipient
August 2004

Corporal Helen McCoy was selected as the Trooper of the Month for August for her quick life-saving actions in freeing a motorist who was pinned beneath his car after his tire jack broke. On August 24, 2004, while filling her patrol car's gas tank at a Polk County gas facility, Corporal McCoy heard a faint cry for help coming from the distance. She stopped filling her gas tank and immediately began to patrol through the adjoining neighborhood.

Corporal McCoy located a lady frantically working on a car jack and asked if she needed assistance. The lady pointed to a car that was on the ground and told her that there was a man under the car. Corporal McCoy summoned the assistance of the Polk County EMS, and then used her patrol car's jack to raise the car. With the car in the air, Corporal McCoy began to triage the injured man's injuries and performed first aid until EMS arrived. An investigation revealed that he had been working under the car when the jack collapsed, allowing the car to come crushing down on him.

Sergeant David Drake and Trooper Philip Spaziante
Award recipients
September 2004

Sergeant David Drake and Trooper Philip Spaziante were selected as co-recipients of the Trooper of the Month Award for September 2004, for saving the lives of a family of four who were trapped in their runaway vehicle when the accelerator malfunctioned, preventing them from being able to stop.

In the early morning hours of September 20, 2004, the FHP's Tallahassee Regional Communication Center received a 911 call from an occupant inside a runaway vehicle that was entering Bay County southbound on US Highway 231. The vehicle, with a family of four trapped inside, had a mechanical malfunction causing the accelerator to stick in the full throttle position and was traveling at over 120 MPH.

Sergeant Drake and Trooper Spaziante quickly responded, and upon reaching the runaway vehicle, realized it was going too fast to negotiate an upcoming intersection of Highways 231 and 98. Both attempted to stop the runaway vehicle by slowing their respective patrol cars down in front of the runaway vehicle until the front bumper of the runaway vehicle made contact with the rear bumper of the patrol car. Finally, by using his brakes, Trooper Spaziante was able to bring the runaway vehicle to a stop. The quick actions of Sergeant Drake and Trooper Spaziante resulted in preventing a crash which may have been fatal for the four family members.

Trooper-Initiated Traffic Stops

Compliance with the law depends on the public's belief that laws are enforced in a fair, unbiased manner. FHP troopers report data on each trooper-initiated traffic stop. The data includes demographic information on the driver, the reason for the stop, enforcement actions taken, and if a search is conducted, the reason for and outcome of the search. Since January 1, 2000, reports have been processed for 3,075,941 traffic stops. The following table shows the relatively close match between the driver demographics and the overall Florida resident demographics, as reflected in the 2000 U.S. Census:

Race	Drivers Stopped	Census
White	82.22%	77.99%
Black	15.81%	14.61%
Asian	1.64%	1.72%
Native-American	.20%	.34%
Unknown	.13%	5.34%

The unknown 5.34 percent of people in the Census chose a race other than those listed or chose multiple races. If this percentage were distributed proportionately among the races, the match between drivers stopped and the Census would be very close. Additionally, Hispanics comprised 16.36 percent of the drivers stopped, compared to the Census figure of 16.79 percent of the population. Hispanic is defined by the Census Bureau as ethnicity according to country of origin or ancestry, and Hispanics may be of any race.

DUI Civil Forfeiture

Section 322.34, Florida Statutes, gives law enforcement agencies the authority to seize vehicles, denying future transportation to habitual Driving Under the Influence (DUI) offenders. The statute provides for the seizure and forfeiture of a vehicle if, at the time of the DUI offense, the person's driver license was suspended, revoked, or canceled as a result of a prior conviction for DUI.

Since the statute became effective in January 2000, the FHP has seized 736 vehicles under this provision. The FHP, through a partnership with the Office of the Attorney General, has or is pursuing forfeiture or settlement actions with the vehicle owners and lien holders. The vehicles seized have an estimated value of \$3,513,876. A total of 364 vehicles have been successfully awarded to the department, with an estimated value of \$1,061,080.

FHP Auxiliary Troopers Train for Felony Traffic Stops

Felony Stop Scenario Training was recently conducted at the Florida Highway Patrol Auxiliary's annual training meeting. Mandatory training classes, as well as a variety of other training sessions, were conducted for auxiliary troopers during this annual event.

One of the sessions provided training for each crucial stage of a felony traffic stop to ensure that the auxiliary troopers comprehend the importance of communication and safety during this dangerous event. They are instructed to give the violator loud, clear, and precise verbal commands to remove him from his vehicle. During the training, the importance of positioning the violator strategically for better visibility and control was stressed. Because of the instructor's extensive training, knowledge, and expertise in law enforcement, this was one of the most popular classes at the annual meeting.

National Stop Red Light Running Week

For the seventh consecutive year, the FHP partnered with local law enforcement agencies to heighten public awareness for National Stop Red Light Running Week, which ran from August 29 - September 6, 2004. FHP troopers and deputies from the Jacksonville Sheriff's Office actively worked together at high-crash intersections in Duval County in an attempt to stop motorists from running red lights – a very dangerous violation. On the very first day of the operation, law enforcement officers caught 293 red light runners.

According to the Federal Highway Administration, motorists nationwide caused 106,000 crashes by running red lights in the year 2000, which resulted in 89,000 injuries and 1,036 deaths. A recent survey suggests that 96 percent of drivers "fear they will get hit by a red light runner when they enter an intersection."

“Move It, Yes You Can” Campaign

The faces of the FHP Troop D Commander Major Cyrus Brown, Orange County Sheriff Kevin Beary, and Orange County Commissioner Ted Edwards are looking down from billboards on drivers all across Central Florida to get the message out about getting motorists to move their vehicles out of the way when they are involved in a minor traffic crash. This public awareness initiative is aimed at educating the public that they are required by law to move their vehicles out of travel lanes if they are involved in a traffic crash where there are no injuries and the vehicle can be safely moved. Along with the billboard campaign, the FHP participated in a public service announcement, and brochures were created to distribute to the public.

Operation Sunrise to Sunset

The Florida Highway Patrol, Fort Myers District, was recently the host agency of the Joint Task Force of State Law Enforcement Officers against aggressive driving and other hazardous moving traffic violations. This enforcement operation was held on July 30, 2004, from sunrise to sunset. The overall mission of this operation was to provide a safe driving environment to the motoring public traveling through Lee County and significantly reduce incidents of aggressive and reckless driving.

This operation consisted of the Florida Highway Patrol, in partnership with the Florida Department of Transportation (FDOT) Motor Carrier Compliance Office, conducting a "zero tolerance" traffic law enforcement operation on Interstate 75 within Lee County. FHP personnel wanted to send a clear message—that all troopers and FDOT officers would be using aircraft, unmarked cars, covert vehicles, radar, and laser to strictly enforce the speed limit as well as all other traffic laws to ensure the safety of motorists traveling on Interstate 75. During this operation, special emphasis was placed on the Move Over Law, Following Too Closely, Improper Lane Changes, and Aggressive Driving. This operation was a great success in that calls received in the Ft. Myers Regional Communications Center from motorists reporting aggressive and reckless drivers were greatly reduced during this operation. There were a total of 512 citations issued, including 323 Speed Citations, 58 Move Over Citations, 22 Aggressive Driver Citations, and 2 Following Too Close Citations.

MOTORIST SERVICES

OBJECTIVES

1. Increase consumer protection and public safety by assuring Florida's citizens are properly licensed to drive.
2. Reduce criminal use of fraudulent identification and vehicle titles and ensuring motorists' compliance with the Florida Financial Responsibility Law.
3. Ensure mobile home manufacturers' compliance with construction standards.

DRIVER LICENSES

Field issuance (in-person) of driver licenses this quarter increased by five percent over the same quarter last year due to a higher demand for license renewals and new drivers entering the state.

Field Issuance (In-Person)	This Quarter	Last Year Same Quarter	Percent Change
Licenses *	967,980	921,994	5.0
ID Cards	187,983	200,349	-6.2
Other Services	640,471	454,816	40.8
Total Customers	1,796,434	1,577,159	13.9

* New issue, renewal, and address change transactions.

The "Other Services" category, which is comprised of examination retests, reinstatements, record reviews, referral for clearance documents and surrendering vehicle registrations, increased by 40.8 percent, due in large part to the increased number of sanctions. These sanctions include suspensions, revocations, cancellations of driving privileges, and insurance suspensions (financial responsibility).

Central issuance - As field issuance volume increases and service delivery times increase as a result, more citizens are selecting the use of the Internet to submit license renewals or address changes (an increase of 49.7 percent this quarter vs. same quarter last year). As a result, or more citizens becoming familiar with the Internet, mail-in renewal/address changes declined by 22.2 percent.

Central Issuance- License Renewals/Address Changes	This Quarter	Last Year Same Quarter	Percent Change
Mail *	160,253	206,065	-22.2
Phone	26,813	25,392	5.6
Internet	143,071	95,549	49.7
Total Customers	330,137	328,273	0.6

* Also includes ID card address changes.

Financial Responsibility

Financial Responsibility	This Quarter	Last Year Same Quarter	Percent Change
Financial Responsibility Cases Processed	318,148	236,555	34.5
Insured Rate	94.43%	94.09%	.4

The percent of insured that are not identified by VIN numbers of vehicles, but verified by insurers, is estimated at 7.5 percent for this quarter. This would make the insured vehicle/motorist rate 94.4 percent with the uninsured rate at 5.6 percent. The large percentage increase in cases processed is due to improvements in programming, resulting in targeting the truly uninsured. The department's effectiveness in enforcing the law is increased due to these improvements by both the department and the industry.

Administrative Suspensions

Administrative Suspensions	This Quarter	Last Year Same Quarter	Percent Change
Suspensions (Refusals, DUI)	13,526	15,445	-12.4
Suspensions (Zero Tolerance)	348	467	-25.5
Total Suspensions	13,874	15,912	-12.8
Administrative Suspension Sustained Rate	88%	89%	-1.1

The Administrative Suspension Sustained Rate includes both those drivers refusing to submit to a breath, blood, or urine test or for driving with an unlawful alcohol level and those drivers under the age of 21 receiving an administrative suspension under the Zero Tolerance Law. This rate tends to remain fairly constant from quarter to quarter.

Administrative suspensions are dependent upon enforcement activities. Due to the four hurricanes that hit Florida during this quarter, law enforcement priorities, out of necessity, were shifted to assist hurricane victims. This 12.8 percent reduction in total administrative suspensions is due, in large part, to this reprioritization.

Customer Service Inquiry System

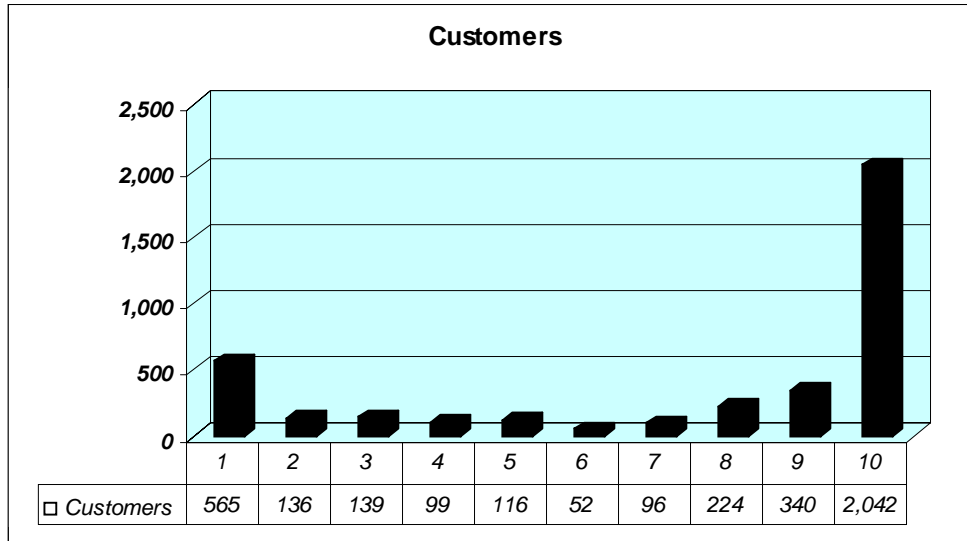

The department implemented an electronic Customer Service Inquiry System in October 2001. This system replaces traditional e-mails with an Internet application that allows the customer to ask a question, make an inquiry, or register a complaint. The customer's inquiry is then captured in a database that allows the division to track, monitor, and apply quality assurance. There were 21,466 customers assisted during the first quarter with the following goals:

- * To maintain a professional and effective driver license program which assures that drivers are 1) examined, 2) receive driver education or corrective actions (sanctions), and 3) are held financially accountable (maintain vehicle insurance and pay traffic fines). Communication with customers assures compliance with these three major elements of the driver license program.
- * To be in compliance with the Governor's Customer Service Standards Act.
- * To provide a system which assures quality citizen service.
- * To provide tracking, accountability, and data for analysis.

Customer Service

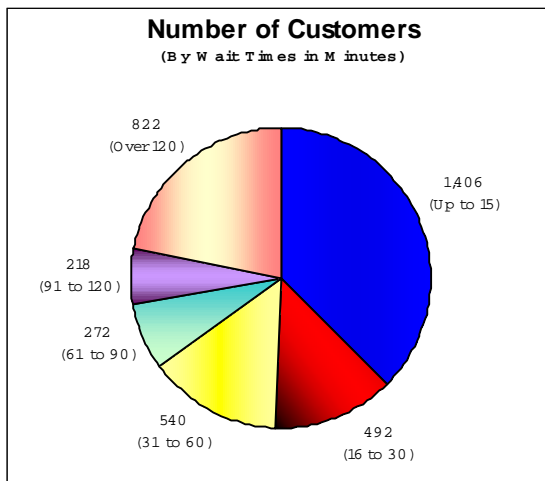

Through the department's "Commitment to Excellence Customer Comment Cards," driver license customers offered their comments regarding the level of customer service received and wait times. The service ranking requested was one to ten (one being the worst service and ten being excellent service). The charts below represent citizens' feedback this quarter:

Customer Service Ranking

Customer Wait Times

Customer wait times increased overall from the January-March 2004 quarter, the last quarter that data was available; the percentage of customers waiting "Up to 15 Minutes" decreased from 40 to 38 percent, whereas the "Over 120 Minutes" percentage increased from 20 to 22 percent.

Geographically, as a percentage of the total number of citizens that reported wait times for each region of the state; the "Up to 15 Minutes" wait percentages for the North, Central, and South regions were 45, 32, and 39 percent, respectively. For the same regions, for the "Over 120 Minutes" wait times, the percentages were 17, 30, and 18 percent, respectively.

MOTOR VEHICLES

TRANSACTION	This Quarter	Last Year Same Quarter	Percent Change
ORIGINAL TITLES ISSUED (MOTOR VEHICLE/MOBILE HOME/VESSEL)			
a. New	393,557	386,337	1.87
b. Used	178,488	175,107	1.93
c. Transfers	706,137	747,071	-5.48
d. Miscellaneous	101,717	113,161	-10.11
Total	1,379,899	1,421,676	-2.94
MOTOR VEHICLE -MOBILE HOME REGISTRATIONS	4,504,619	4,485,049	.44
MV/MH DEALER AND MANUFACTURER LICENSES ISSUED	2,063	2,157	-4.36
DEALER COMPLAINTS PROCESSED	1,282	1,344	-4.61
DEALER RECORD INSPECTIONS	1,376	692	98.84
MH/RV's INSPECTED	4,006	3,259	22.92
SEALS AND LABELS ISSUED	4,237	4,111	3.06
COMPLAINTS PROCESSED	71	80	-11.25
APPORTIONED LICENSE PLATES ISSUED	12,452	10,883	14.42
NEW MOTOR CARRIER ACCOUNTS	1,492	1,473	1.29
INTERNATIONAL FUEL TAX AGREEMENT (IFTA) DECALS ISSUED	2,644	3,258	-18.85
FUEL USE TAX EMERGENCY PERMITS ISSUED TO WIRE SERVICES	1,900	1,050	80.95

Motor vehicle and vessel title transfers (-5.48%) and miscellaneous title transactions (-10.11%) decreased this quarter due to a reduction in consumer activity.

MV/MH dealer record inspections for the quarter increased 98.84 percent over the prior year's quarter due to a modified record inspection process resulting in an optimized audit process. Using automation and a change in dealer record inspection, the process changed from a full audit process to a confidence-rated audit process. Full audits are conducted when confidence-rated audits indicate potential non-compliance problems.

Mobile Homes and Recreational Vehicles (MH/RV) inspections increased by 22.92 percent due to increased production of mobile homes at the manufacturing facilities.

The 11.25 percent decrease in MH/RV complaints processed is a continuation of a downward trend due to improved plant/manufacturing inspection processes.

The issuance of apportioned license plates increased 14.42 percent due to an increase in consumer activity.

The increase of 80.95 percent in fuel use tax emergency permits issued is due to increased consumer activity as a result of the four hurricanes that hit Florida.

Electronic Lien and Title System

The Electronic Lien and Title (ELT) System enables the department and lien-holders to exchange information electronically. As of September 30, 2004, 140 financial institutions were participating in this process. This is an increase of two financial institutions from last quarter. This quarter, 209,950 ELT transactions were processed. ELT transactions are anticipated to continue to increase as current institutions fully participate and new institutions sign on. With the implementation of ELT, many benefits and efficiencies have been realized. The program has created a partnership involving both the public and private sectors, which has reduced costs for both entities. The efficiencies and benefits enjoyed by both public and private sectors include a reduction in the number of titles issued, a reduction in the number of titles canceled due to errors, a reduction of fraud potential, and reduced data processing costs, postage costs, staffing, and file space. Other benefits provided by the ELT system to consumers and businesses are the automation of the processing of title and lien transactions, the tracking of loans, and loan evidence for auditing purposes.

Driver Licenses/Motor Vehicles

Telephone/Internet Renewals and Address Changes

The department's **1-866-GoRenew** and the **Internet** are initiatives that are saving citizens a trip to their local driver license and/or tax collector's office. This quarter, 54,916 citizens renewed their driver licenses and motor vehicle registrations and changed their addresses by phone and 285,338 by Internet. The following table provides a breakout of phone-in and Internet transactions:

Customer Service Center

During this quarter, the department's Customer Service Center answered 168,725 telephone calls relating to driver license and motor vehicle issues. The average wait time for customers to speak to an agent was less than 2½ minutes.

During the quarter, automated services provided more than 222,110 customers with the ability to:

- *Pay reinstatement fees and receive clearance letters
- *Receive faxed information packets on driver license or motor vehicle services
- *Verify vehicle or driver record information

These automated features free analysts to help customers with more complex problems. Approximately 85 percent of questions relate to driver license problems, the rest to motor vehicle title and registration issues.

REVENUE DATA

The following graphic depicts the revenue collection and disbursement efforts of the department during the first quarter.

FY 2004 – 2005 Revenue 1st Quarter

Where the money comes from

Total: \$313,742,800

Dear Ms. Stanfield:

It is with great pleasure and elation that I return the Florida Animal Friend license plate to you with my approval.

Yes. Yes. Yes. We love it!

Please move forward with obtaining the necessary approval from Governor Bush and the Cabinet.

As always, thank you for your assistance.

For the animals,

Re: Lighthouse Soccer Foundation's Support 'Soccer specialty plate

Dear Ms. Stanfield:

I am delighted with the design of the Lighthouse Soccer Foundation's 'Support Soccer specialty plate and look forward to seeing it on vehicles throughout the state.

As a sponsor, I hereby give approval of the design of the license plate that will help address the issues of insuring that Floridians are provided an equal opportunity to benefit from participation in the team sport that promoted both independence and team spirit:

If I can be of any service to you, please do not hesitate to contact my office at 305-324-2208 or fax 305-234-2210.

Sincerely

Edward B. Bullard
State Representative, District 118
